OUR BOARD OF DIRECTORS

Mr. Mohamedali R. Habib
Chairman

Mr. Mohamedali R. Habib is a graduate of Business Management in Finance from Clark University, USA. He also holds a Postgraduate Diploma in General Management from Stanford – National University of Singapore. Mr. Habib has worked in the corporate sector for three decades, in various managerial capacities across different industries, including multinational projects. Mr. Habib began his banking career in 1996 with Habib Bank AG Zurich, where he has been serving in various capacities.

In addition to presently serving as the Group CEO of Habib Bank AG Zurich since 2016, Mr. Habib is a Founding Director of Indus Motor Company Limited & appointed as Chairman of the Company in 2020. In addition, he serves as a Member on the Board of Thal Limited, and Habib University Foundation. He is also serving as Chairman of Habib Metropolitan Bank Limited, Pakistan, as well as Chairman of Habib Bank Zurich (Hong Kong) Limited.

Mr. Ali Abbas Sikandar
Director

Mr. Abbas is recognized as a decisive and pioneering C-level Officer and Board advisor reputed for strategy and leadership, with a wealth of experience in the Financial and Banking sectors. For over 25 years he has been driving e-business, customer product solutions, revenue generation and innovative financial solutions through use of technology and strategic partnerships.

As a highly personable subject matter expert in Payments, Microfinance, and Transactional Banking, this trusted board advisor has demonstrated adaptability and strategic thinking to develop high-performing teams, systems and solutions in highly competitive yet traditionally structured environments.

With the technical and commercial expertise to deliver tangible results, Mr. Abbas quickly adds value to any forward-thinking organization and its partners.

Mr. Hamza Habib
Director

Mr. Hamza Habib was appointed as a non-executive director of Habib Metropolitan Bank Ltd. in 2020. He is also a director on the board of Agriauto Industries Ltd, a PSX-listed company. He has over 14 years of banking experience and is currently the Head of Corporate Banking at Habib Bank AG Zurich (HBZ) in Dubai, UAE. Mr. Habib has held various positions within the HBZ Group, including Alternate Chief Executive at Habib Bank Zurich (Hong Kong) Limited prior to which he was an Area Head with HBZ in the UAE. He also worked with Standard Chartered Bank in Geneva and London.

Mr. Hamza Habib graduated from Babson College in Wellesley, Massachusetts (USA), with a Bachelor of Science in Business Management. He is also a Certified Director from the Pakistan Institute of Corporate Governance.

Mr. Mohamed Bashir
Director

Mr. Mohamed Bashir brings extensive and diverse experience in commerce and industry and is a highly accomplished businessman recognized as a prominent figure in the textile industry. He joined the Board of Gul Ahmed Textile Mills Limited in 1982. He is a Fellow Member of the Chartered Institute of Management Accountants (CIMA), United Kingdom.

Currently, Mr. Bashir serves as the Chairman of the Board of Directors of Gul Ahmed Textile Mills Limited. He is also a Founding Director and former Chairman of the Pakistan Business Council. In addition, he holds the position of President of the International Cotton Association (ICA).

Mr. Bashir holds directorships in several leading organizations, including Gul Ahmed Energy Limited, Ideas (Private) Limited, Gul Ahmed Holdings, Gul Ahmed Textile Mills (Europe) Ltd., UK, Gul Ahmed International Limited (FZC), UAE, Habib Metropolitan Bank Limited, the Education Fund for Sindh, and Habib University Foundation. He is also a member of the Pakistan-France Business Council, Pakistan-German Business Council, and Pakistan-Swedish Business Council.

Previously, Mr. Bashir has served as the President of the International Textile Manufacturers Federation (ITMF), Chairman of the All Pakistan Textile Mills Association, and Honorary Consul General of Sweden.

In recognition of his outstanding contributions, Mr. Bashir was awarded the Sitara-e-Imtiaz by the President of Pakistan in 2006. He has also been designated as a Justice of Peace. On April 7, 2017, he was honoured with the Grade d'Officier in the National Order of Merit by the President of the French Republic. Additionally, on February 19, 2020, he was conferred the Knight of the Royal Order of the Polar Star (First Class) by His Majesty King Carl XVI Gustaf of Sweden.

Mr. Mohsin Ali Nathani
Director

Mohsin Ali Nathani is a member of the General Management of Habib Bank AG Zurich and Head of Asian Markets & Canada since June 2024. He also serves on the Board of Directors of four subsidiaries of Habib Bank AG Zurich – Habib Metropolitan Bank Ltd. (Pakistan), Habib Canadian Bank, Habib Bank Zurich (Hong Kong) Limited and HBZ Bank Limited (South Africa). Mohsin has over 30 years of banking experience in the Middle East, Africa, South Asia, Asia Pacific and Levant regions, where he has held various leadership positions with responsibilities in areas such as corporate banking, Islamic banking, credit, treasury and syndications.

From 2018 to 2023, Mohsin was the President & CEO at Habib Metropolitan Bank Ltd. Prior to this, he served at Standard Chartered as CEO in Pakistan, and later in the UAE where he was approved by the UK Financial Services Authority for "Significant Influence Function". Between 2007 and 2010, he was the Commercial Banking Director (Emerging Markets) at Barclays UAE, and subsequently, the Country Head & Managing Director at Barclays Pakistan. Between 2000 and 2007, Mohsin was engaged by Citigroup Hong Kong as Co-Head of Asia Debt Markets and later by Citigroup Dubai as Regional Head of Corporate Banking (Middle East, Pakistan & Levant) and CEO Global Islamic Banking. From 1993 to 2000, Mohsin held various senior roles at ABN AMRO in Singapore and Pakistan.

Mohsin Ali Nathani holds a Master in Business Administration from the Institute of Business Administration (IBA) Karachi.

Mr. Muhammad H. Habib
Director

Mr. Habib is a banker by profession, with over 40 years of experience. He is currently the President of Habib Bank AG Zurich. Additionally, he holds directorships of HBZ Bank Ltd., South Africa, Habib Canadian Bank, Canada, and Gefan Finanz AG, Switzerland. Mr. Habib is a graduate in Finance from Babson College, Boston MA, USA.

Mr. Rashid Ahmed Jafer
Director

Mr. Rashid Ahmed Jafer has an experience of 37 years with M/s. A.F. Ferguson & Co., including 23 years as a partner at the organization. He is a fellow member of the Institute of Chartered Accountants of Pakistan (ICAP) and enjoys expertise in statutory audit.

He has been a member of the Professional Standards and Technical Advisory Committee of ICAP for several years and was a member of the SBP – ICAP Coordination Committee. Currently, he is also a member of the Quality Assurance Board of ICAP.

Ms. Tahira Raza
Director

Ms. Tahira Raza carries with her an experience of over four decades in the banking industry of Pakistan. Previously, she has served as the President/ Chief Executive Officer of First Women Bank Limited and Chief Risk Officer in National Bank of Pakistan. Her areas of expertise include but not limited to, Enterprise Risk Management, Underwriting, Credit Risk, Human Resource Management, Trade Finance & General Banking.

Besides serving on HabibMetro's board she is also serving on the boards of PIA, Green Star Social Marketing and SAFCO Microfinance company. She strongly believes in diversity and leadership that challenges status quo.

Ms. Raza has a Master in Business Administration (MBA) Major in Banking and Finance from the Institute of Business Administration (IBA) Karachi. She is also a diplomaed Associate of the Institute of Bankers in Pakistan (IBP) with distinction in Practice and Law of Banking.

Mr. Khurram Shahzad Khan
President & CEO

Khurram Shahzad Khan is a seasoned banking professional with over three decades of diverse experience across corporate, risk and credit management, investment and transactional banking.

CHAIRMAN'S REVIEW

Dear Shareholders,

On behalf of the directors of Habib Metropolitan Bank, it gives me pleasure to present this report on overall performance of the Bank and effectiveness of the role played by the Board of Directors in achieving objectives of the Bank, together with the financial statements of the Bank for the year ended 31 December 2024. The operating financial results and appropriations on an unconsolidated basis, as recommended by the Board of Directors, are summarized below:

	Rupees in '000
Profit before credit loss allowances and tax	56,789,856
Credit loss allowances and write offs - net	<u>(4,129,875)</u>
Profit before tax	52,659,981
Taxation	<u>(27,986,473)</u>
Profit after tax	24,673,508
Un-appropriated profit brought forward	47,560,186
Impact of Adoption of IFRS-9 - net of tax	461,044
Transfer from surplus on revaluation of assets - net of tax	164,605
Gain on sale of equity investments - FVOCI - net of tax	445,658
Other comprehensive income - net of tax	<u>118,513</u>
Profit available for appropriation	73,423,514
Appropriations:	
Transfer to Statutory Reserve	(4,934,702)
Cash dividend (Rs. 5.50 per share) - 2023	(5,763,073)
Interim Cash dividend (Rs. 7.50 per share) - 2024	<u>(7,858,737)</u>
	(18,556,512)
Un-appropriated profit carried forward	<u>54,867,002</u>

The Directors are pleased to propose a final cash dividend of Rs. 4.50 per share (45%) for the year under review. This is in addition to the interim cash dividend of Rs. 7.50 per share (75%) already paid. As such, the total dividend for the year 2024 amounts to Rs. 12.0 per share (120%).

During the year under review, Pakistan economy witnessed recovery with key macroeconomic indicators moving in the right direction, inflation and interest rates going down, current account balance achieved surplus in later part of the year, GDP rebounded to 2.5% in FY24. While the economic indicators are promising, it is imperative to address structural challenges in key sectors operating in the country.

By the Grace of Allah, your Bank sustained the massive growth achieved last year. The total assets remained above Rs. 1.5 trillion, gross advances increased to Rs. 503.8 billion at year-end with 14.9% growth. Investments and deposits closed at Rs. 810.9 billion and Rs. 927.1 billion at year end respectively.

HabibMetro posted profit before tax of Rs. 52.7 billion for the year 2024. The performance translates into after tax earnings of Rs. 23.55 per share.

At year-end, HabibMetro's equity stands at Rs. 115.0 billion, with a capital adequacy level of 19.3% against the required 11.5%.

The primary role of the Board is to set the overall strategy for the Bank and enhance its long-term strategic value. The Board's focus remains the overall governance structure to ensure effective oversight of the business, establishing a risk & control framework,

determining Bank's level of risk tolerance through different policies and documents relating to operational, regulatory, compliance; and financial performance of the Bank.

The composition of the Board has been established to ensure the availability of resources with relevant knowledge and experience to manage the strategic objectives of the Bank. It comprises of three independent directors including one female director and five non-executive directors.

The Board ensures that the business of the Bank is conducted in an efficient and effective manner within an established framework of effective system of internal controls, robust risk management processes and compliance with regulatory requirements. In the course of discharging its responsibilities, the Board acts in good faith, with due diligence and care, and in the best interests of the Bank and its Shareholders.

An internal board performance evaluation process is in place to enhance the overall effectiveness of the Board, its sub-committees and individual directors including the Chief Executive Officer. The evaluation is based on questionnaire on Board effectiveness which includes areas covering various aspects like Board composition, its responsibilities & duties, strategic plan & performance review, quality of information received & its timeliness, among others.

This review forms an integral part of the Directors' Report to the Shareholders.

I would like to take this opportunity to place on record my sincere gratitude to the Ministry of Finance, the State Bank of Pakistan and the Securities and the Exchange Commission of Pakistan for their continued support and guidance. I also acknowledge our valued customers for their trust and staff members for their devotion and diligence.

We bow our heads to Allah and pray for His blessings and continued guidance.

On behalf of the Board

Karachi: 19 February 2025

MOHAMEDALI R. HABIB
Chairman

DIRECTORS' REPORT TO THE SHAREHOLDERS

Dear Shareholders,

On behalf of the Board of Directors, we are pleased to present the audited annual financial statements of Habib Metropolitan Bank Limited (HABIBMETRO) for the financial year ended 31 December, 2024.

ECONOMIC AND BANKING REVIEW

During the period under review, Pakistan's economic and financial trajectory has remained positively aligned with recovery, owing to the resumption of funding from multilateral and bilateral partners alongside remedial policy measures including swift implementation of austerity measures suggested by International Monetary Fund (IMF). The country witnessed a sharp decline in inflation throughout the year, resulting in cooling off of interest rates from second half of the year, contributing to the consolidation of fiscal accounts. However, economic growth is projected to be modest, primarily due to subdued agricultural sector performance.

The State Bank of Pakistan (SBP) has undertaken a significant monetary adjustment, reducing the policy rate by 900 basis points from 22.0 percent to 13.0 percent during 2024 and further reducing to 12.0 percent in January 2025, while inflation declined from 23.9 percent in FY24 to 6.6 percent in 7 months of current fiscal year, reaching to 2.4 percent year on year in January 2025 supported by easing global prices, a stable exchange rate, and targeted government policies amidst favorable base effect.

Driven by strong workers' remittances and export earnings, the current account posted surplus in last three months of 2024 resulting in USD 0.7 billion cumulative surplus in 7M-FY25 against USD 1.8 billion deficit in same period last year. Exports grew by 7.3 percent to USD 23.9 billion during 7M-FY25 against 7M-FY24, while imports grew to USD 40.0 billion by 10.6 percent. This deficit is partly offset by significant growth of 31.7 percent growth in workers' remittances to USD 20.8 billion in the 7M-FY25. For FY25, the SBP expects the current account to remain in the range between a surplus and a deficit of 0.5 percent of GDP.

Augmenting by 8.8 percent on a year-on-year basis, the banking sector's deposit base amounted to Rs. 30.3 trillion at the end of December 2024. Advances grew by 29.6 percent year-on-year and stood at Rs. 16.0 trillion. Investments during the period also increased by 15.2 percent year-on-year to be recorded at Rs. 29.1 trillion.

The economic recovery achieved in FY24, with GDP growth rate of 2.5 percent against a contraction of 0.2 percent in FY23, has sustained positive growth of 0.9 percent in the first quarter of FY25. However, growth has slowed compared to the 2.3 percent recorded last year, reflecting moderation across key sectors, particularly in agriculture. The slower growth in agriculture is primarily due to the high base effect in the crop sector of the last fiscal year and the decline in the crop production of cotton, rice, sugarcane, and maize. However, the textile sector, wholesale, retail trade are gradually accelerating and impacting other related sectors positively.

These developments reflect the central bank's proactive approach in stabilizing the macroeconomic environment and fostering conditions conducive to sustainable growth. The significant reduction in policy rates not only lowers borrowing costs for businesses and consumers but also encourages investment and consumption activities. However, while the monetary indicators show promise, it remains crucial to address underlying structural challenges particularly in the agricultural sector to bolster overall economic performance and ensure that the benefits of these policy measures are fully realized across all segments of the economy.

BANK'S PERFORMANCE DURING THE YEAR

By the Grace of Allah, HABIBMETRO has posted the profit before tax of Rs. 52,660 million for year ended December 31, 2024, an increase of 1.3 percent year-on-year. The earnings per share amounts to Rs. 23.55.

The Bank's net interest income amounted to Rs. 70,314 million while non-interest income substantially increased by 39.2 percent and amounted to Rs. 21,287 million including Fee and commission income increased by 14.4 percent and amounted to Rs. 10,753 million compared to Rs. 9,396 million in 2023.

Net advances increased by 15.1 percent to Rs. 474,301 million while investments decreased by 12.4 percent to Rs. 810,875 million. Deposits stood at Rs. 927,133 million as of December 31, 2024 with current accounts mix of 43.7 percent, which increased by 6.7 percent over last year.

The Bank's Net Equity exhibited a growth of 23.3 percent and amounted to Rs. 115,032 million, with a capital adequacy level of 19.3 percent at the end of the year under review.

COMMITMENTS

No material changes in commitments affecting the financial position of the Bank have occurred between the end of financial year of the Bank and the date of the report.

ESTABLISHMENT OF EXCHANGE COMPANY

HABIBMETRO Exchange Services Limited (HMES) is a wholly owned subsidiary of Habib Metropolitan Bank Limited, which was incorporated on November 22, 2023 as a public limited company under the Companies Act 2017, licensed by the State Bank of Pakistan on March 26, 2024 and has commenced its operations from May 27, 2024. The Company deals in Foreign Currency Services under the Foreign Exchange Regulation Act, 1947 and Regulatory Framework for Exchange Companies issued by the State Bank of Pakistan that includes different services & products. HMES aims to establish and continuously enhance its footprint enabling the company to serve customers across Pakistan to cater to the legitimate foreign exchange needs of general public.

At present HMES has a network of 21 outlets across Pakistan.

CREDIT RATING

The Bank maintained its ratings of AA+ for long term and A1+ for short term assigned by Pakistan Credit Rating Agency Limited (PACRA). These ratings denote a high credit quality with a low expectation of credit risk, and a strong capacity for timely payment of financial commitments.

ENHANCED REACH TO OUR CUSTOMERS

HABIBMETRO enhanced its outreach by adding 26 new branches to its network in 2024 - in doing so, your Bank's outreach spread to 14 new cities, with an increased footprint of 551 branches in 221 cities across Pakistan. The Bank's branch network includes 223 Islamic Banking Branches and 115 Islamic Banking Windows offering a broad range of services.

HABIBMETRO enjoys correspondent relationships with banks of repute in more than 100 countries, with large number of banks having formal credit lines for the Bank. HABIBMETRO provides comprehensive banking services and products including specialized trade finance products, and an array of products and services such as secured SMS and Internet & Mobile Banking services, globally accepted Visa Debit Cards and a nationwide network of 600+ ATMs.

TRANSACTION BANKING

HABIBMETRO's Transaction Banking has successfully served over approx. 1,300 business customers in year 2024.

This year has been recognized as a landmark period for Transaction Banking at HABIBMETRO, highlighted by the introduction of various innovative product offerings tailored to meet the evolving needs of our clients.

The bank has significantly revamped its corporate collections module, Net2Bank, providing state-of-the-art transaction banking facilities designed to enhance client collection requirements and improve overall customer experiences. This module efficiently addresses diverse daily collections for clients in both integrated and non-integrated modes.

HABIBMETRO's dedication to excellence in transaction banking has been recognized with multiple prestigious awards in last two consecutive years.

Also, in a recent survey by "Euromoney" with over 13,500 respondents, HABIBMETRO was recognized as one of the top providers for Transaction Banking services in Pakistan, achieving notable rankings in several categories: it secured the #3 position overall, was rated #2 for products, and also received a #2 ranking for client service, all within the national geographic scope.

DIGITAL CHANNELS

In 2024, HABIBMETRO reports a notable surge in digital banking adoption and engagement. A significant rise in the number of customers actively utilizing digital banking platforms indicates the effective integration of these channels into their banking habits. This expansion is a direct result of HABIBMETRO's focused efforts to upgrade its digital services, refine the user interface, and promote the advantages of digital banking solutions.

The Insta Mobile App has undergone significant security enhancements. These improvements include device binding, biometric enablement, cooling-off periods, and other measures to safeguard customers from potential compromises. These updates ensure that customers can use the app with greater confidence and security.

Mobile App transactions have also hit a historic high, with 20.8 million transactions recorded. This represents a 60 percent growth in the number of transactions, valued at Rs. 855 billion, which is a 50 percent increase compared to 2023. These figures highlight the increasing popularity and usage of the mobile app for financial transactions.

A new foreign currency debit card has been launched to meet the growing needs of freelancers and exporters. This card is designed to provide greater flexibility and convenience for those who work with international clients and need to manage multiple currencies efficiently.

Debit card POS usage has seen substantial growth, reaching Rs. 28.8 billion. This reflects a 22 percent increase from 2023, indicating a growing reliance on debit cards for transactions.

In addition, several new self-service IVR services have been made available to customers. These services include mobile app blocking, multi-lingual IVR, and ROBO call facilities. These enhancements aim to provide customers with more control and ease of use when managing their accounts.

The ATM fleet has expanded to 613 machines, providing 24/7 service to customers. This expansion ensures that customers have greater access to ATMs, making it more convenient to withdraw cash at any time. Furthermore, the cash withdrawal limit at ATMs has been increased to Rs. 50,000 per transaction. This increase allows customers to access more funds when needed, providing greater financial flexibility.

Lastly, RAAST transactions now account for 89 percent of IBFTs, processing over Rs 592 billion in 2024. This demonstrates the growing adoption of RAAST for interbank fund transfers, offering a reliable and efficient method for moving funds between accounts.

GREEN BANKING INITIATIVES

HABIBMETRO recognizes its responsibility towards environmental, social and governance practices. The Bank believes in playing its part in the collective national and global efforts to mitigate the deteriorating environmental and social circumstances. Environmental, Social and Governance (ESG) aspects are becoming a part of the strategic as well as operational considerations of the Bank. The Bank also strives to align itself with the regulatory expectations and requirements in this regard, and has put in place a Green Banking Policy & an Environmental and Social Risk Management Policy with focus in the following areas:

- **Environmental & Social Risk Management**

For improving financial stability through management and mitigation of environmental and social exposures of financing portfolios, HABIBMETRO is in the process of integrating Environmental and Social Risk Management (ESRM) considerations into the credit risk assessment process, for the purpose of enacting ESRM practices effectively.

- **Business Facilitation**

For fostering development of 'green market' through actively tapping the emerging viable business opportunities of financing; including clean energy and resource efficiency projects. The Bank is actively pursuing a green portfolio through soliciting clients for Renewable Energy related financing through the SBP's Renewable Energy Refinance Scheme.

- **Own Impact Reduction**

The Bank has an increased focus on potential re-engineering of internal operations and procedures of the Bank. To reduce impact on environment and society, the Bank is working on a scope emission reduction plan and has adopted various administrative and engineering controls and measures to reduce its consumption of natural and other resources.

- **Capacity Building**

To increase the understanding and acceptability towards the initiative and eco-friendly practices, the Bank arranges learning and training opportunities for its team through internal and external sources. This enables better understanding of the Green Banking concepts and assists the team to perform better environmental due diligence in assessing credit proposals, adopting own impact reduction measures and helps in business facilitation.

ENVIRONMENT, SOCIAL AND GOVERNANCE

Sustainability through implementation of ESG is philosophy of HABIBMETRO and the Group, which is naturally embedded in the business functions of the Bank. HABIBMETRO shall Insha Allah continue to take focused initiatives to drive its sustainable journey. The Bank is planning to adopt targeted measures to reduce emissions by adopting the following measures:

- Overall travel budget reduction by preferring meetings through online meeting platforms
- Installation of Solar Panels at the branches and offices, wherever possible, to shift to clean energy
- Take environmentally friendly measures for waste management and material consumption
- Create awareness through on reduction of energy and paper usage through communications
- Introduction and encouragement to use hybrid vehicles to staff
- Indoor and outdoor plantation
- To highlight other measures to reduction emissions

AWARDS AND ACCOLADES

HABIBMETRO is an award-winning Bank, having received the following awards and recognition recently:

- Top 25 Companies Award by Pakistan Stock Exchange Limited
- Best Mid-Size Bank (Runner-up) FY 2023 Award by CFA Society Pakistan
- Best Islamic Bank for Islamic Conversion Strategy in Pakistan 2024 by Islamic Retail Banking Awards
- Domestic Cash Management Bank of the Year – Pakistan 2024 by Asian Banking & Finance Awards
- Best Bank for Transaction Banking and Cash Management in 2024 by The Digital Banker
- Most Improved Debit Authorization in the Industry in 2024 by VISA
- DEI Structure and Implementation (Progressive), DEI Learning and Development (Progressive), Community, Government Relations and Philanthropy (Best Practice) by Global Diversity, Equity & Inclusion Benchmarks Awards

HUMAN RESOURCES

HABIBMETRO has continued to drive growth and development within its workforce by prioritizing employee engagement, well-being, learning and development, and diversity, equity, and inclusion (DEI). Through effective talent management, the organization has fostered an innovative and efficient work environment.

The Bank's branch expansion across the country has been bolstered by the strength of the Human Resources Division. A key achievement in 2024 has been the milestone of reaching 1,500 female employees, resulting in a gender diversity ratio of over 23 percent, up from 19 percent last year. DEI initiatives included the recruitment of female GTO batch hires, female town halls, "Know Your HR" sessions, sensitization activities, and employee engagement events aimed at fostering belonging and inclusion.

HABIBMETRO remains committed to recruiting persons with disabilities, offering internships, job opportunities, and continuous learning to help them become independent professionals.

The Bank has also invested significantly in both in-house training and external learning programs tailored to specific roles. Consistently responsive to staff needs, the Bank has addressed challenges and supported the ongoing development of employees, strengthening relationships built on trust, respect, and dedication across the organization.

In addition, the Bank continued its financial support for staff, with the inflationary allowance, introduced in 2022, continuing into its third year (2024). This initiative, along with the announcement of two additional ex-gratia payments, has provided much-needed financial relief amidst a challenging economic environment.

HABIBMETRO remains an equal opportunity employer and is committed to being an Employer of Choice for both current and future bankers in Pakistan.

GENDER PAY GAP STATEMENT

Gender Pay Gap reporting aims towards narrowing and eventually eliminating the pay differential between men and women. Gender pay gap, at the financial year end, calculated at HABIBMETRO as under:

- i) Mean Deviation 42.09 percent
- ii) Median Deviation 34.59 percent

CORPORATE SOCIAL RESPONSIBILITY

HABIBMETRO has always upheld its commitment as a responsible corporate citizen, having made significant contributions to the well-being of communities. Our efforts span various sectors, including education, healthcare, support for marginalized communities, environmental sustainability, and inclusion of persons with disabilities (PWDs). These initiatives are strategically aligned with the United Nations Sustainable Development Goals (SDGs) to drive meaningful impact.

During the year, the Bank partnered with renowned organizations to benefit the community, particularly the underprivileged segment. The total contribution for the year amounted to PKR 520.0 million, with detailed information available in the notes to the accounts.

Throughout the year the Bank and its staff members have been involved in hundreds of social activities contributing towards health, education, education development, vocational trainings, helping beach cleaning, tree plantations, etc.

The Bank also acknowledges its role in driving economic growth and contributing to the development of our nation. It continues to be one of the leading corporate taxpayers with more than Rs. 33.7 billion paid as direct taxes to the Government of Pakistan during the year 2024. Additionally, an amount of Rs. 45.0 billion indirect tax and withholding income tax deductions for the exchequer was collected through the Bank's network.

CUSTOMER GRIEVANCES HANDLING:

HABIBMETRO Bank is committed to provide an immaculate customer experience, which is considered as one of the most important factors in driving growth. The Bank's consumer grievance handling mechanism serves as the first line of defense against the grievances of the Bank's customers and therefore it is ensured that all the grievances received are handled fairly, transparently and efficiently as per the regulatory framework.

In order to make the complaint lodging and handling process more visible and accessible, continuous customer awareness was given through ATM screens, social media platforms, SMS notifications and In-App notifications regarding complaint lodgment process and modes i.e.:

- Call at Contact Center (+92-21) 111-142-242
- Email at complaints@habibmetro.com
- Letter to Complaint Resolution Unit, Habib Metropolitan Bank Ltd, Al-Manzoor Building, 1st Floor, Dr. Ziauddin Ahmed Road, Karachi-74200
- Mobile App / Website: www.habibmetro.com/customer-charter/complaint
- Branch: Complaint Form and Drop Box available at Branches / ATM vestibules

All complaints received are investigated and resolved / disposed at the earliest and the customer is kept up-to-date with respect to the progress of the grievances through SMS, email and letters. Further, customers' feedback mechanism is also in-place for complaint resolution and grievance handling for improvement in complaint handling process.

In the year 2024, total of 57,335 complaints were received at the Bank and the overall turnaround time of resolved complaints was 6.5 working days. The Bank also conducts detailed root cause analysis to identify gaps and improve processes, products and services on a continuous basis to enhance customer satisfaction.

CORPORATE GOVERNANCE

Value of investments of Provident Fund and Gratuity Scheme are as under:

- Provident Fund Rs. 6,851 million as at 31 December 2024
- Gratuity Fund Rs. 2,662 million as at 31 December 2024

RISK MANAGEMENT

STATEMENT ON RISK MANAGEMENT FRAMEWORK

HABIBMETRO has a robust and rigorous risk management framework catering to its complexity, size, and target market. Risk Management considerations are embedded into HABIBMETRO's philosophy, strategy, organizational practices, and structure. The Bank has devised a cohesive risk management structure for credit, operations, information, continuity, liquidity and market risk, with an integrated approach and strengthened internal controls.

The framework ensures comprehensive management of risk across all areas of the Bank. It has a role at all levels and tiers of the Bank with risk management considerations at the strategic, tactical as well as the operational levels. It is equipped with the capacity and flexibility to respond to evolving market, regulatory as well as internal risk requirements.

The Bank's entire branch network is on-line, and its state-of-the-art processing system is secure and has adequate capacity. Segregation of duties as a control is built into the Bank's system and organization. The Internal Audit Division conducts independent, risk-based reviews and verification of the Bank's branches and major functions throughout the year for evaluation of the control system. Comprehensive internal reports and an effective Management Information System has been developed as an additional tool for the management of risk control. The Risk Management Division is staffed with seasoned and experienced professionals, who have the capacity and knowledge to cover all aspects of risks faced by the Bank.

The Bank's Board of Directors along with the Board Risk and Compliance Committee, Central Management Committee and Operational Risk and Compliance Committee oversee the Bank's Strategy, efforts and processes related to risk management.

CREDIT RISK

HABIBMETRO observes a strategy to control credit risk through product, geography, industry and customer diversification. The Bank extends trade and working capital financing, keeping the major portion of its exposure on a short-term and self-liquidating basis. A major portion of the Bank's credit portfolio is priced on a floating rate basis using KIBOR as a reference, which minimizes interest rate risk. The risk inherent in extending credit is further mitigated by rigorous and robust credit approval procedures, which have been structured to ensure proper evaluation, adequacy of security, and monitoring of exposures on an ongoing basis. All these risk-mitigation measures are further facilitated by centralized trade processing and credit administration.

HABIBMETRO has implemented the IFRS-9 standards. IFRS 9 replaces the existing guidelines of the IAS 39 Financial Instruments: Recognition and Measurement. This includes revised standards on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements.

MARKET / LIQUIDITY RISK

The role of specialized Market & Liquidity Risk Unit is to systematically identify, assess, monitor, and report all related financial risk exposures and limits in the form of interest rate, equity, currency or foreign exchange. The monitoring of all these risks is ensured in line with Board approved Market and Liquidity Risk Management Policy. The Asset and Liability Management Committee periodically reviews the economic & business environment and recommends levels of exposure along with limits for FX, Money Market & Equity. The strategy is to balance risk, liquidity, and profitability. Furthermore, the Board approved investment policy focuses on, amongst other aspects, asset allocation and operating guidelines.

STRESS TESTING

The Bank proactively uses stress testing techniques to assess risk exposures across the institution and to estimate the changes in the value of the portfolio, when exposed to various risk factors. Risk factors used in stress testing models are Interest Rate, Credit, Equity Price, Exchange Rate and Liquidity. The Bank's stress testing methodology ensures adherence to the SBP guidelines.

Capital Management

The Bank has maintained its Capital Adequacy Ratio (CAR) above the regulatory thresholds under the prescribed Basel regulations and instructions issued by the regulator from time to time. It also has in place a Board approved Internal Capital Adequacy Assessment Process and Risk Appetite Statement. The Internal Capital Adequacy Assessment Process (ICAAP) Framework is well defined and is reviewed/updated regularly.

OPERATIONAL RISK

Operational risk is present in all aspects of bank activities and can expose the Bank to material financial and/or reputational losses. Identification of threats prior to materialization of the risk and strengthening of controls for mitigation, have always been the Bank's priority. The Bank has a dedicated Operational Risk Management (ORM) Unit that designs and implements the Operational Risk framework across the organization. The ORM unit engages and regularly collaborates with the Bank's business / support units to review and determine the inherent operational risks, applicable controls and mitigations and an assessment of residual risk. This leads to improved quality of control infrastructure, strengthened processes and management information.

The Bank is committed to enhance Operational Risk coverage and integrating it with other risk classifications (Market, Credit Risk, Compliance and legal risks) under a comprehensive approach to manage the dynamic environment and evolving risk landscape. The Bank's operational risk management infrastructure remains strengthened by the oversight of the Operational Risk and Control Committee (ORCC) which ensures the effective and efficient management of the Bank's significant operational risks.

FRAUD RISK

The Bank expends a dedicated effort towards reduction of fraud incidents and misconduct. A robust policy is in place to strengthen the process of prevention, detection, investigation and reporting. The Bank has a dedicated Fraud Risk Management Unit which ensures the effective management of the Bank's fraud risk with the support and oversight of the Board Risk & Compliance Committee (BR&CC).

With increased uptake of the Bank's alternate delivery banking channels, the FRM Unit works on a 24/7 basis to monitor digital banking transactions, identifying trends and activities inconsistent with normal transactional behavior or with the propensity of fraud risk. The Bank endeavors to safeguard its customers from fraudulent Activities by adopting best practices and collaborating with industry partners.

BUSINESS CONTINUITY RISK

The Bank constantly works on improving its operational resilience through an effective Business Continuity Framework. The framework consists of a policy and comprehensive plans with detailed roles, responsibilities, actions plans and recovery strategies, drawn from a rigorous risk and impact analysis aims to respond to disastrous situations. It complies with the regulatory framework and best industry practices, subject to regular reviews and audits. From an execution perspective, a Crisis Management Team consisting of the Senior Management monitors situations and takes the necessary timely decisions in the event of any crisis situations.

As a part of a contingency arrangement, the Bank maintains multiple BCP Sites along with facilities for staff to work from home, if required. Staff readiness to respond in such situations is ensured through training, awareness and testing efforts. The entire effort is based on the purpose of building a resilient culture within an organization, whereby continuity of operations and continued provision of service is always prioritized.

INFORMATION SECURITY RISK

The Information Security Department (ISD) is a part of the Risk Management Division of the Bank and works as a second line of defense to protect the Bank's information and information system. With the increasing use of technology in the customer service delivery, the objective of Information Security Department is to minimize the information security risks by ensuring confidentiality and availability of customer's financial and personal information. ISD performs activities such as risk assessments, reviews, analysis, reporting and monitoring of risks to achieve the Bank's goal of managing Information and Technology risk within its risk appetite. The department also works to increase the level of understanding and awareness of the information security risks and their mitigations.

COMPLIANCE

Your Bank continued to strengthen compliance oversight across its network during the year that included enhancing stringent Know Your Customer (KYC) & Anti Money Laundering (AML) / Combating Financing of Terrorism (CFT) / Combatting Proliferation Financing (CPF) controls and regulatory compliance awareness. The Compliance function provides support and counsel to management and staff on compliance and regulatory issues. All new policies and procedures, initiatives, products, services, business processes etc. are reviewed from a Compliance, AML / CFT / CPF perspective along with maintaining relationship with regulatory authorities. An automated Compliance Risk Management (CRM) system is in place wherein a regulatory library is maintained that includes circulars issued by the SBP and other relevant regulatory authorities. Furthermore, facilitation and liaison with the SBP and its on-site Inspection teams is a key role played by this unit to ensure smooth conduct of the SBP inspection. Inquiries from Law Enforcement Agencies (LEAs) are also facilitated through Compliance Function.

With the highly challenging and demanding global AML/CFT/CPF environment, Bank's Financial Crimes & Compliance function is fully committed towards implementation of highest standards of compliance within the Bank and ensures management and employees adhere to these standards. The Bank also exercises oversight of its subsidiaries from an AML/CFT/CPF perspective

The Bank's Transaction Monitoring System (TMS) facilitates in monitoring activities that may be related to Money Laundering (ML) / Terrorism Financing (TF) through the Bank's channels, products and services. The TMS monitors out-of-pattern transactions and reviews different transactional activity through multiple AML / CFT scenarios embedded in the core banking system. Bank has acquired renowned external third-party TMS software backed by Oracle, known as 'Financial Crime and Compliance Management' and is under implementation phase. Furthermore, the Bank has a robust Customer Due Diligence (CDD) process that allows the Bank to document/update each profile of customer and conduct comprehensive CDD as per regulatory requirements. Bank regularly reports Suspicious Transaction Reports (STRs) and Currency Transaction Reports (CTR) to the Financial Monitoring Unit (FMU) through goAML portal.

Being a trade-oriented bank, cross border transactions are screened and pre-approved by Compliance to ensure that transactions, which includes sanctioned elements, are not conducted. Bank has taken additional steps to curb risks associated with Trade Based Money Laundering. This includes performing due diligence of all trade transactions and updating trade KYCs / risk profiles of trade customers, screening of counterparties and goods, vessels, banks etc. Bank has in place a renowned Technology-based solution for mitigation of ML/TF risks associated with Trade Transactions. In addition to screening, the system supports in identification of dual use goods and tracking of vessels to further strengthen existing controls.

In addition, a dedicated CFT Desk is in place which focuses on mitigation of TF risk in the Bank. In order to ensure compliance of UNSC resolutions and that bank's services are not extended to proscribed or designated individuals and entities, systems processes & controls are monitored and upgraded from time to time.

Training & Development of staff on ML / TF / PF risks and their mitigant has been a focus throughout the year. Various bi-lingual eLearning modules have been completed by staff and numerous face-to face session were also conducted to keep staff members abreast on latest threats, vulnerabilities, and developments in this area.

Your Bank also participates as a Foreign Financial Institution (FFI) and is fully compliant with the Foreign Account Tax Compliance Act (FATCA) by collecting additional information and documentation from prospective clients, in order to determine whether they have any US tax reporting responsibilities. FATCA is a US legislation aimed at preventing tax evasion by US Persons that came into effect in Pakistan on July 01, 2014. To ensure compliance with the FATCA legislation, Compliance Division facilitates coordination, training, development and monitoring of FATCA requirements.

Common Reporting Standards (CRS) is a global standard approved by the Organization for Economic Cooperation & Development (OECD) Council and has been translated into domestic law by Government of Pakistan through Income Tax Ordinance 2001 vide S.R.O 166 (I)/2017. The Bank is compliant with CRS rules and for this purpose, tax residency of customers is obtained for further reporting to Federal Board of Revenue (FBR).

Whilst focusing on creativity and innovation, Compliance function will continue to increase its effectiveness through professional development of its staff and strengthening of functional solutions.

CONTROLS

The Risk Management function contributes to the overall control culture of the organization specifically from the risk perspective. The Internal Control Unit (ICU), as a part of the Risk Management team of the Bank, is responsible for implementing and maintaining a sound system of operational internal controls that ensure efficiency and effectiveness. These efforts are a component of the overall Internal Control ambit of operations, compliance with regulatory and legal requirements along with reliability of financial reporting managed collectively by the Compliance, Finance and Risk Management Division. Adequate systems, processes and controls have been put in place by the management to identify and mitigate the risk of failure to achieve the overall objectives of the Bank.

The Bank's organizational structure and lines of authority are well-defined and processes throughout the Bank are governed by policies and procedures approved by the Board. Existing policies and procedures are reviewed at regular intervals and improved from time to time. The Board has constituted sub-committees for oversight of the overall Risk Management Framework which meet at regular intervals to ensure adequacy of governance.

The Bank's operating system contains controls embedded into all processes and functions which are governed through policies and procedures and their compliance and effectiveness is verified by an independent Internal Audit Division which reports directly to the Board Audit Committee.

The SBP Internal Control Guidelines require the Bank's management to evaluate the effectiveness of internal controls. The management believes that the Bank's existing system of Internal Control is considered reasonable in design and is being effectively implemented and monitored.

INTERNAL AUDIT

HABIBMETRO has an active Board Audit Committee functioning under the Listed Companies (Code of Corporate Governance) Regulations 2019 as stipulated by SECP and adopted by the SBP and Guidelines on Internal Audit Function issued by the SBP. The Board Audit Committee is chaired by an independent director.

Reporting directly to the Board Audit Committee, Internal Audit pro-actively follows a risk-based approach for auditing branches, operational areas and key activities of the Bank, highlighting control lapses, and tracking completion of remedial actions, wherever warranted.

Internal Audit, being the third line of defense, is an essential element of the Bank's overall control environment that provides independent assurance to the Bank's Management and Board in assessing the Bank's internal control system. Internal Audit periodically reviews the Bank's policies, processes, systems, and controls to provide reasonable assurance to the Board Audit Committee and adds value towards the Bank's risk mitigation endeavors.

FUTURE OUTLOOK

Pakistan's economy shows promising growth despite global challenges like trade recovery and geopolitical uncertainties. With inflation down, policy rates easing, and stable commodity prices, the environment is favorable for investment and private sector expansion. However, issues like structural imbalances, fiscal rigidity, and high public debt need ongoing reforms.

The economic outlook is encouraging, with stabilizing macroeconomic fundamentals and gradual recovery of key sectors. Inflation is expected to stabilize around long term average 7 percent in the coming quarters, promoting economic activity and likely leading to further policy rate reductions resulting in lower borrowing costs which will further boost investment and economic momentum, especially in Large Scale Manufacturing and services, the key growth drivers this year.

Trade dynamics are forecasted to improve, with growth in exports and imports supporting broader economic activity. Remittance inflows are expected to continue rising, contributing to a stable external account and boosting household consumption. Reduced borrowing costs will enhance fiscal sustainability and strengthen public finances, paving the way for economic recovery initiatives. These trends suggest potential reductions in unemployment as economic activity gains momentum. With sustained reforms and resilience, Pakistan's economy is on a path towards greater stability and prosperity.

ACKNOWLEDGEMENTS

In conclusion, we extend our sincere thanks to the Ministry of Finance, the State Bank of Pakistan, and the Securities and Exchange Commission of Pakistan for their continued support. We also thank our valued shareholders and customers for their trust, the Board of Directors for their guidance and the staff of HABIBMETRO for their dedication, which enables us to grow from strength to strength.

On behalf of the Board

KHURRAM SHAHZAD KHAN

President & Chief Executive Officer

Karachi: 19 February 2025

MOHAMEDALI R. HABIB

Chairman

CORPORATE GOVERNANCE

Composition of Board Committees and their Terms of Reference

Current compositions of the Board and Board Committees are provided in the Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019. Further, the number of meetings of the Board of Directors (BOD) and its Sub-Committees held during the year 2024 and the attendance by each director / committee member are provided in the Directors' Report.

The key terms of reference of the Board Committees are as follows:

Board Audit Committee (BAC)

BAC ensures adequacy of internal control systems of the Bank including financial and operational controls, accounting systems, reporting structures along with recommending the Bank's statement on internal controls for endorsement by the BOD.

Under SECP's Listed Companies (Code of Corporate Governance) Regulations, 2019, BAC is responsible to review & recommend to the BOD, interim and annual financial statements of the Bank while focusing particularly on major judgmental areas, going concern assumption, change in accounting policies & estimates, related party transactions and compliance with applicable accounting standards.

BAC also reviews & approves annual internal audit plan, scope and extent of internal audit function and its reporting framework and procedures.

BAC is updated regularly on significant issues raised by the external & internal auditors along with related corrective action progress. Further, BAC ensures compliance of the corrective actions determined by Shari'ah Board on the reports of Internal and External Shari'ah Audit.

BAC also recommends to the BOD, appointment, removal and remuneration of external auditors as well as for the Head of Internal Audit Function.

BAC also ensures independence of Internal Audit in its day-to-day activities with unrestricted access to people, information, records, and systems so that it is able to perform audit activities with objectivity.

Finally, BAC reviews effectiveness of whistle blowing mechanism of the Bank and ensures that concerns raised are treated confidentially.

Board Credit Committee (BCC)

The primary function of the BCC is to maintain an oversight over the Bank's credit portfolio management process, portfolio quality and adherence to the credit policy and regulatory requirements. It reviews and provides guidance to the Management with respect to the large exposures, credit portfolio strategy and related risks so as to ensure continued health of the portfolio and a sustainable growth. It also provides credit approval for exposures which are beyond the delegation provided to the Bank's CCC.

Board Human Resource and Remuneration Committee (BHR&RC)

The BHR&RC is responsible for the reviewing the HR policies, HR initiatives including manpower planning, learning & development policy, utilization of HR budgets and other HR activities. The BHR&RC also recommends to the BOD compensation & remuneration practices and succession planning for CEO, CFO, Company Secretary, and Head of Internal Audit. It also reviews Chief Executive's recommendations for direct reports including key executives. Further, the BHR&RC reviews and approves terminal benefits such as provident fund, gratuity and other separation benefits schemes. In addition, it considers any HR related issue specifically delegated by the BOD.

Board Information Technology Committee (BITC)

The BITC establishes and maintains a system of governance and oversight of the bank's Core Technologies, Digital Channels, Information / Cyber security functions as well as ensuring that required measures are in place for Disaster recovery and business continuity. BITC is further responsible for advising and reporting to the BOD on the IT strategies and initiatives being carried out and executed at the bank. The BITC ensures that overall IT infrastructure and enterprise risk management is carried out according to approved policies. It also provides an oversight on all major technology-related projects and procurements along with monitoring the human capital development plans within the technology functions.

Board Risk and Compliance Committee (BR&RC)

The BR&CC establishes a governance structure and maintains a system of oversight over the Bank's Risk management, Compliance and control activities on behalf of the Board of Directors (BOD). It provides a platform for inculcating and enhancing Risk Management and

Compliance culture within the organization along with continuously monitoring, assessing and managing the risk profile of the bank. It ensures that all material risks are deliberated and mitigated in an integrated manner engaging all the relevant stakeholders. It is responsible for establishing and maintaining a Compliance and Risk management process with an enterprise wide approach, built to identify and prioritize risks including Compliance and AML / CFT related risks and to evaluate the alignment and effectiveness of activities including:

- Ensuring independence of Risk Management and Compliance Functions as well as adequacy of resources allocated given the size, nature, and volume of business.
- Recommending Risk Management Policies and ensuring implementation of Compliance Program, Compliance Risk Strategy and allied policies including CDD/AML /CFT/CPF.
- Ensuring that Management identifies, assesses and understands the ML / TF / PF risks and ensures proportionate AML / CFT / CPF controls are in place.
- evaluate significant observations / issues raised in the SBP inspection reports and review the actions taken in this regard.
- reviewing and approving Risk Appetite including risk limits and triggers as well as ensuring independence of Risk and Control Functions.

Reviewing and assessing the Bank's Capital Adequacy and Management, Market / Liquidity Profile, Credit Portfolio, Results of Stress Tests and Frameworks of Operational, Continuity, Fraud, Conduct Risks and Risk Based Financial Reporting (IFRS).

Board's Oversight over Shariah Compliance Mechanism

The Board of Directors meet the SB members on half yearly basis to have a detailed briefing on the Shariah compliance environment, the issues / weaknesses (if any), and recommendations to improve Shariah compliance environment and to ensure timely and effective enforcement of the SB's decisions, fatawa, observations and recommendations. Further, every year, Shariah Board Report is also presented by the SB in the meeting of the Board of Directors of the Bank which is also published in the annual report of the Bank.

Appointment of the Shariah Board Members

The appointment of the Shariah Board (SB) Members, including Resident Shariah Board Member & Chairman, is done by the Board of Directors as per applicable rules and regulations, including clearance of Fit and Proper Criteria (FAPC) and prior written clearance of the SBP. The SB members are appointed for a term of three years. They may be reappointed for another term by the BOD, subject to SBP FAPC.

Profile of Shariah Board Members

Tan Sri Dr. Mohd. Daud Bakar, Chairperson Shariah Board

Mufti Noor possesses both contemporary & religious qualifications. He holds the Shahadat-ul-Aalamia and Takhassus fil-Ifta (Specialization in Islamic Jurisprudence and Fatwa) from Jamia Farooqia & Jamia Darul Uloom, Taleem ul Quran, Karachi. He also holds a Bachelor's degree in Law (LLB), a Master's degree in Islamic Studies, and a Master's degree in Islamic History from the University of Karachi & Federal Urdu University respectively.

Mufti Noor is the registered Shariah advisor at the Securities and Exchange Commission of Pakistan (SECP) and Certified Director as per the code of corporate governance, SECP. He is also enrolled as an advocate, High Court and is a member of Sindh Bar Council and Karachi Bar Association. He has vast teaching experience of religious and Islamic banking courses and is the visiting faculty member in different institutions such as in Institute of Business Administration (IBA), Jamia Yousufia Binnoria, Jamia tur Rasheed, Karachi and Centre of Islamic Economics (a division of Jamia Darul Uloom, Karachi), National Institute of Banking & Finance (NIBAF), Institute of Cost and Management Accountants of Pakistan, Centre of Excellence (ICMA, COE).

Key Terms of Reference of Shariah Board

The Shariah Board (SB) shall be empowered to consider, decide and supervise all Shariah related matters, cause to develop a comprehensive Shariah compliance framework for all areas of operations and shall review and approve all the procedure manuals, product programs structures, process flows, related agreements, marketing advertisements, sales illustrations and brochures so that they are in conformity with the rules and principles of Shariah. The SB shall have at all reasonable times unhindered access to all books of accounts, records, documents and information from all sources including professional advisors and Bank's employees in the due discharge of its duties. Considering the importance and binding nature of decisions, rulings and fatawa given by SB, it shall rigorously deliberate on the issue placed before it for consideration before giving any decision / fatawa.

All complete reports of external Shariah audit, SBP Shariah compliance inspection and summaries/key findings of the reports of Internal Shariah Audit and Shariah compliance reviews shall be submitted to the SB for consideration and prescribing appropriate corrective/enforcement action. The SB shall also specify the process / procedures to be adopted for changing, modifying or revisiting fatawa, rulings and guidelines already issued by it.

The SB shall not delegate any of its roles and responsibilities as prescribed in the Shariah governance framework to any other person or any of its members and all decisions and rulings of the SB shall be in conformity with the directives, regulations, instructions and guidelines issued by SBP in accordance with the rulings of Shariah Advisory Committee of the SBP.

Shariah Board meetings held during the year

During the year four meetings were held and were attended by all members.

Remuneration Policy

In line with the regulatory guidelines, the Remuneration Policy is already in place wherein the criteria for identification and performance evaluation of MRTs and MRCs is defined.

Scope, objective and governance of remuneration policy

The scope of remuneration policy covers all employees across the Bank who are materially responsible for risk taking or risk controlling activities. The purpose of the policy is to develop a fair, objective, transparent and sound remuneration policy that is in alignment with risks and responsibilities of the organization.

Following are the main objectives of Remuneration Framework:

- I. To promote consistent, sound and effective risk management, to discourage risk-taking that exceeds the risk thresholds of the Bank;
- II. To ensure that the remuneration practice is in line with the Bank's objectives, taking into consideration all major risks that the Bank may face.
- III. To attract, retain and motivate employees who perform while managing the risks facing the Bank, and also those who ensure long term value generation.

The Board is overall responsible for reviewing, approving and monitoring implementation of the Bank-wide remuneration framework, based on the recommendations of Board's Human Resource & Remuneration Committee (BHR&RC), which shall be mainly responsible for overseeing the Bank's remuneration programme.

The scope of remuneration policy covers all employees across the Bank who are materially responsible for risk taking or risk controlling activities. The purpose of the policy is to develop a fair, objective, transparent and sound remuneration policy that is in alignment with risks and responsibilities of the organization.

Material Risk Taker (MRT) / Material Risk Controller (MRC)

The MRTs and MRCs are identified through a detailed assessment of the Bank's employees using various qualitative and quantitative criteria, as documented in the remuneration policy.

The Bank offers a compensation structure with a balanced mix of fixed and variable elements, with the objective to encourage behaviors focused on achievement of long-term sustainable results. For MRTs / MRCs, the deferred variable component has been made part of their compensation structure.

Performance measurement of MRTs and MRCs

The Bank's performance management mechanism provides a sound basis for assessing employee performance holistically. The Bank's remuneration policy is aligned with the performance management mechanism and differentiates pay appropriately amongst its employees based on degree of contribution, skill and availability of talent owing to competitive market forces by considering factors such as role, skills, competencies, experience and grade / seniority.

Performance measurement of MRTs / MRCs is carried-out through the risk-adjusted balanced scorecards. The Bank has developed risk adjusted balanced scorecards for all MRTs and MRCs for their performance measurement, which ensure establishing a correlation between and alignment of risks and rewards. These scorecards are prepared at individual levels, incorporating various financial, non-financial / qualitative and risk-adjusting factors.

The Bank has individual level accountability mechanism whereby a certain portion of variable compensation of the MRTs / MRCs is deferred / withheld for a defined period, thus creating alignment between the employees' and stakeholders' interests and reinforcing that compensation is appropriately linked to longer-term sustainable performance.

The deferred pay is subject to claw back clause that permits the Bank to cancel or reduce, all or part of the amount of an unvested variable compensation award, due to malus triggers i.e. specific crystallized risk, behavior, conduct, or adverse performance outcome, attributable to the MRT / MRC.

STATEMENT OF COMPLIANCE WITH LISTED COMPANIES (CODE OF CORPORATE GOVERNANCE) REGULATIONS, 2019

FOR THE YEAR ENDED 31 DECEMBER 2024

The Bank has complied with the requirements of the Regulations in the following manner:

1. The total number of directors are 9 (nine) as per the following:

Gender	Number
Male	8
Female	1

2. The composition of board is as follows:

Category	Names
Independent Directors	Mr. Ali Abbas Sikander Mr. Rashid Ahmed Jafer
Female Independent Director	Ms. Tahira Raza
Non-Executive Directors	Mr. Hamza Habib Mr. Mohamedali R. Habib Mr. Mohomed Bashir Mr. Mohsin Ali Nathani Mr. Muhammad H. Habib
President & CEO	Mr. Khurram Shahzad Khan

3. The directors have confirmed that none of them is serving as a director on more than seven listed companies, including this Bank.
4. The Bank has prepared a Code of Conduct and has ensured that appropriate steps have been taken to disseminate it throughout the Bank along with its supporting policies and procedures.
5. The Board has developed a vision/mission statement, overall corporate strategy and significant policies of the Bank. The Board has ensured that complete record of particulars of the significant policies along with their date of approval or updating is maintained by the Bank.

7. The meetings of the Board were presided over by the Chairman. The Board has complied with the requirements of Act and the Regulations with respect to frequency, recording and circulating minutes of meeting of Board.
8. The Board and the shareholders have approved a formal policy and transparent procedures for remuneration of directors in accordance with the instructions from the State Bank of Pakistan, Act and these Regulations.
9. The Bank is compliant with the requirement of directors training program provided in these Regulations.
10. During the current year, there was no new appointment of Chief Financial Officer (CFO), the Company Secretary and the Head of Internal Audit.

11. Chief Financial Officer and Chief Executive Officer duly endorsed the financial statements before approval of the Board.

12. The board has formed committees comprising of members given below:

Committees	Names	Committee Designation	Category of Director
Audit Committee	Mr. Rashid Ahmed Jafer Mr. Mohsin A. Nathani Mr. Muhammad Hyder Habib Ms. Tahira Habib	Chairman Member Member Member	Independent Director Non-Executive Director Non-Executive Director Independent Director
Human Resources & Remuneration Committee	Ms. Tahira Raza Mr. Mohamedali R. Habib Mr. Mohomed Bashir Mr. Mohsin A. Nathani	Chairperson Member Member Member	Independent Director Non-Executive Director Non-Executive Director Non-Executive Director
Risk & Compliance Committee	Mr. Muhammad Hyder Habib Mr. Khurram Shahzad Khan Mr. Mohsin A. Nathani Ms. Tahira Raza Mr. Rashid Ahmed Jafer	Chairman Member Member Member Member	Non-Executive Director President & Chief Executive Non-Executive Director Independent Director Independent Director
Credit Committee	Mr. Mohamedali R. Habib Mr. Hamza Habib Mr. Khurram Shahzad Khan Mr. Mohsin A. Nathani Mr. Rashid Ahmed Jafer	Chairman Member Member Member Member	Non-Executive Director Non-Executive Director President & Chief Executive Non-Executive Director Independent Director
IT Committee	Mr. Ali Abbas Sikander Mr. Hamza Habib Mr. Khurram Shahzad Khan Mr. Mohamedali R. Habib	Chairman Member Member Member	Independent Director Non-Executive Director President & Chief Executive Non-Executive Director

13. The terms of reference of the aforesaid committees have been formed, documented and advised to the committees for compliance. The Board has not constituted a separate Nomination Committee, as its functions are being performed by the Board.

14. The frequency of meetings of the committees were as per following:

Committees	Frequency of Meetings
Audit Committee	Four meetings were held during the financial year ended December 31, 2024
Human Resources & Remuneration Committee	Two meetings were held during the financial year ended December 31, 2024
Risk & Compliance Committee	Four meetings were held during the financial year ended December 31, 2024
Credit Committee	Four meetings were held during the financial year ended December 31, 2024
IT Committee	Three meeting was held during the financial year ended December 31, 2024

-
15. The board has set up an effective internal audit function.
 16. The statutory auditors of the Bank have confirmed that they have been given a satisfactory rating under the Quality Control Review program of the Institute of Chartered Accountants of Pakistan and registered with Audit Oversight Board of Pakistan, that they and all their partners are in compliance with International Federation of Accountants (IFAC) guidelines on code of ethics as adopted by the Institute of Chartered Accountants of Pakistan and that they and the partners of the firm involved in the audit are not a close relative (spouse, parent, dependent and non-dependent children) of the chief executive officer, chief financial officer, head of internal audit, company secretary or director of the Bank.
 17. The statutory auditors or the persons associated with them have not been appointed to provide other services except in accordance with the Act, these Regulations or any other regulatory requirement and the auditors have confirmed that they have observed IFAC guidelines in this regard.
 18. We confirm that all requirements of regulations 3, 6, 7, 8, 27, 32, 33 and 36 of the Regulations have been complied with.
 19. Pursuant to SECP's notification (SRO(1)/2024) dated June 12, 2024, introducing new regulation 10A and amendments to regulations 10 and 35, the Bank is in the process of formalizing its approach to environmental, social, and governance (ESG) matters. These aspects have been reviewed by the Board through the BCC and BHR&RC. However, deliberations on establishing a dedicated committee or assigning additional responsibilities to an existing committee will be considered in due course.

On behalf of the Board

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Habib Metropolitan Bank Limited

Review Report on the Statement of Compliance contained in Listed Companies (Code of Corporate Governance) Regulations, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of Habib Metropolitan Bank Limited ('the Bank') for the year ended 31 December 2024 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Bank. Our responsibility is to review whether the Statement of Compliance reflects the status of the Bank's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Bank's personnel and review of various documents prepared by the Bank to comply with the Regulations.

As part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls, or to form an opinion on the effectiveness of such internal controls, the Bank's corporate governance procedures and risks.

The Regulations require the Bank to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Bank's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Bank for the year ended 31 December 2024.

STATEMENT OF INTERNAL CONTROLS

This statement is being issued in compliance with the Guidelines on Internal Controls, issued by the State Bank of Pakistan vide BSD Circular No. 7 dated May 27, 2004.

MANAGEMENT EVALUATION OF INTERNAL CONTROL SYSTEM

An internal control system is a set of procedures and activities designed to identify, evaluate and mitigate the risk in processes and operations in order to support the overall business objectives of the Bank. It is the responsibility of the Bank's management to establish an internal control system to maintain an adequate and effective internal control environment on an ongoing basis.

The management of the Bank has formulated, implemented, and maintained a system of internal controls approved by the Board of Directors, the goal of which is to achieve effectiveness and efficiency of operations while adhering to laws and regulations, resulting in reliability of financial reporting. However, any system of internal controls can only be designed to manage, rather than eliminate the risk of failure to achieve objectives. It can therefore only provide reasonable assurance and not absolute assurance against material misstatement and loss. It also requires continuous improvement to align it with the changing environment and needs of the business.

The Bank monitors its processes and operations on an ongoing basis to ensure that an effective and efficient internal control system remains active and implemented and strive for continuous strengthening of its control environment. The internal control structure comprises of different levels of monitoring activities.

Line Management's role is to monitor day-to-day operations and ensure that the business risks are properly mitigated, control breaches are identified on a timely basis and corrective actions are promptly implemented.

The Compliance Division of the Bank is entrusted with the responsibility to minimize compliance risk and strengthen compliance environment across the organization and ensure a professional working relationship with the State Bank of Pakistan (SBP) and other regulatory bodies. The Management has established a Management Compliance Committee to oversee compliance and controls related matters of the bank. Compliance status of irregularities identified and other compliance related matters are reported to the Bank's Management Compliance Committee, while significant compliance matters are also reported to Board Risk & Compliance Committee. Further, compliance status of observations highlighted in regulatory inspection reports are also presented in Board Risk & Compliance Committee. The Division also has a Financial Crimes and Compliance function to ensure compliance with the relevant AML / CFT / CPF Laws & Regulations.

Internal Audit Division is an independent function and follows a risk-based approach to provide reasonable assurance to the governing authorities on adequacy and effectiveness of the Bank's procedures, processes, controls and systems. All significant / material observations made through internal audit activities are reported to the Board Audit Committee (BAC) on a regular basis, which actively monitors and tracks resolution of these observations and provides guidance in improving the overall control environment of the Bank.

Based upon the results achieved from reviews, ongoing testing of financial reporting controls and audits conducted during the year 2024, management considers that, the existing system of internal controls is adequate and has been effectively implemented and monitored.

REPORT OF SHARI'AH BOARD

FOR THE YEAR ENDED 31 DECEMBER 2024

In the name of Allah Subhanahu, the Beneficent, the Merciful

All Praise be to Allah Subhanahu, the Lord of all the Worlds and Blessings on our Master, Prophet Muhammad (Peace be upon Him), and His Household and all His Companions.

By the Grace of Allah Almighty, Sirat, the Islamic Banking Division of Habib Metropolitan Bank Limited ("Bank") has completed its twenty-one years of successful operations of Islamic Banking. The Bank is continuously expanding its Islamic Banking network and at the end of the year 2024, the number of Islamic Banking Branches and Islamic Banking Windows were 223 and 190, respectively.

During the year, the Shariah Board held four (04) meetings and has reviewed, provided opinions, and approved different existing and new products, policies, manuals, processes, transactions, process flows, Shariah compliance review reports and Shariah audit reports. Further, the Shariah Board and the Board of Directors also met twice this year to have a briefing on Shariah compliance environment of the Bank.

The Shariah Board appreciates the vision of the Board of Directors and the management for the continuous growth and support for Islamic Banking.

Following is an overview for the year 2024:

1. Islamic Business

During the year 2024, diversified Islamic financing products including but not limited to Istisna, Murabaha/Musawamah, Working Capital Musharakah, Al-Bai, Currency Salam, Diminishing Musharakah and Ijarah were utilized. Further the Bank has also participated in Islamic syndicate transactions. In this regard, Shariah Board has reviewed and approved different structures for Corporate, SME and Commercial customers. The breakup is as follows:

S. No.	Islamic Financing Modes	Number
1.	Istisna	53
2.	Murabaha/Musawamah	48
3.	Working Capital Musharakah	30
4.	Al-Bai	20
5.	Currency Salam	06
6.	Diminishing Musharakah	05
7.	Ijarah	01
8.	Participation in Islamic Syndicated transactions	03
	Total	166

2. Islamic Branches/Windows: Expansion & Conversion

During the year, the Bank has converted 91 conventional branches into Islamic branches, opened 15 new Islamic branches and 03 new Islamic banking windows.

3. Shariah Compliance and Shariah Audit

During the year, Shariah Compliance & Shariah Audit teams have conducted different regulatory and regular reviews, and audits on sample basis. The Shariah reviews and audits include different segments and portfolios across different regions under Islamic financing, deposits (profit and loss distribution), Islamic treasury, website, Shariah compliant deposit protection mechanism, Islamic branches/windows and existing Islamic products. During the year, 17 reports were issued by Shariah Compliance & Shariah Audit department which were reviewed, and corrective actions were provided by the Shariah Board, where required.

4. Charity Amounts

The opening balance of the charity account on January 01, 2024 was Rs. 402,247/. During the year, Rs. 356,272/- has been credited in the charity account which includes the amount received due to delayed payments by the customers, Shariah non-compliance and other reasons. An amount of Rs. 301,009/- was utilized for different charitable organizations and the remaining will also be distributed to approved charitable and social welfare institutions.

5. Training & Capacity Building

During the year, 5,549 staff have attended Islamic Banking trainings sessions through in-house, e-learning modules & external programs. The participants include senior management, relationship managers, support functions, staff at Islamic Banking Branches, Islamic Banking Windows, and others.

Shariah Board's Opinion

As per the Shariah Governance Framework, the Board of Directors and the executive management are solely responsible to ensure that the operations of the Bank are conducted in a manner that comply with Shariah principles at all times, while we are required to submit a report on the overall Shariah compliance environment of the Bank.

To establish our opinion as expressed in this report, we have reviewed the reports of Shariah Compliance Department, Internal Shariah Audit and External Shariah Audit who had carried out their reviews and audits, on test check basis for each class of transactions with the relevant documentation and process flows.

Based on the above, we are of the view that:

- i. The Bank has complied with Shariah rules and principles in the light of fatawa, rulings and guidelines issued by its Shariah Board.
- ii. The Bank has complied with directives, regulations, instructions and guidelines related to Shariah compliance issued by State Bank of Pakistan (SBP) in accordance with the rulings of SBP's Shariah Advisory Committee.
- iii. The Bank has a comprehensive mechanism in place to ensure Shariah compliance in their overall operations.
- iv. The Bank has a well-defined system in place sound enough to ensure that any earnings realized from sources or by means prohibited by Shariah have been credited to charity account and are being properly utilized for charitable purposes.
- v. The Bank has complied with the SBP instructions on profit & loss distribution and pool management.
- vi. The Learning Department and the management have arranged various Islamic Banking capacity building sessions and are in continuous process to enhance Islamic Banking learning environment. In this regard, the level of awareness, capacity and sensitization of the staff, management and the Board in appreciating the importance of Shariah compliance in the products and processes of the Bank, is acceptable.
- vii. The Shariah Board has been provided adequate resources enabling it to discharge its duties. However, considering the increase in the business, network and volume of the work, it is suggested to further strengthen the Shariah compliance function in the Bank.

Recommendations

Based on the above, we recommend that, the Bank should:

1. Enhance monitoring mechanism at all levels to continue expanding its network through conversion of conventional branches & portfolios and booking of new financings & opening of new Islamic banking branches ensuring conformity with the Constitution of Pakistan and the State Bank of Pakistan's strategic directives.
2. Continue to make robust arrangements as per the SBP instructions for capacity building measures including intensive Islamic banking trainings, refresher sessions, awareness programmes and change of mindset sessions for their senior management, all staff, customers & others, considering the adherence of regulatory requirements, satisfaction of the stakeholders and foster growth of the Bank.
3. Continue to promote Islamic Banking products and services at all available forums.
4. Promote sustainable development goals & green banking through Islamic banking products to align with national priorities and global best practices.

And Allah Subhanahu knows the Best.

May Allah Subhanahu accept our endeavours and grant us devotion to accomplish His cherished tasks, forgive our mistakes and make us successful herein this world and hereafter. We also pray, seek guidance and blessings from Allah Almighty for further progress and prosperity of Islamic banking. Ameen

TAN SRI DR. MOHD. DAUD BAKAR

INDEPENDENT AUDITOR'S REPORT

To the members of Habib Metropolitan Bank Limited

Report on the Audit of the Unconsolidated Financial Statements

Opinion

We have audited the annexed unconsolidated financial statements of Habib Metropolitan Bank Limited (the Bank), which comprise the unconsolidated statement of financial position as at 31 December 2024, and the unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated cash flow statement for the year then ended, along with unaudited certified returns received from the branches except for 30 branches which have been audited by us and notes to the unconsolidated financial statements, including a summary of material accounting policy information and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the unconsolidated statement of financial position, the unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and unconsolidated cash flow statement together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan, and, give the information required by the Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Bank's affairs as at 31 December 2024 and of the profit, the comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements section of our report. We are independent of the Bank in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the unconsolidated financial statements of the current period. These matters were addressed in the context of our audit of the unconsolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the Key Audit Matter:

S. No.	Key Audit Matter	How the matter was addressed in our audit
1	Credit loss allowance against advances and off-balance sheet items: (Refer note 10.5 & 20.1 to the unconsolidated financial statements)	Our audit procedures, amongst others, included the following: <ul style="list-style-type: none">□ Performing risk assessment procedures over the credit loss allowance against advances and off-balance sheet exposure within the Bank's unconsolidated financial statements. As part of these risk assessment procedures, identifying the elements associated with risk of material misstatement on application including those arising from judgements over the estimation of ECL either due to, methods / models, assumptions or data.
	As at 31 December 2024, the Bank's Credit loss allowance against advances and off-balance sheet items amounted to Rs. 29,502 million and Rs. 354 million, respectively. As per the BPRD Circular No. 07 of 2023, the Bank adopted requirements of IFRS 9 along with the Application Instructions issued by State Bank of Pakistan (SBP) (hereafter referred as "application instruction of IFRS 9") from 1 January 2024 which requires the Bank to recognise Expected Credit Losses (ECL) on advances and off-balance	

S. No.	Key Audit Matters	How the matter was addressed in our audit
	<p>sheet items. The estimation of ECL involves judgement and complexity.</p> <p>The key areas which are subject to complexity and judgement in the estimation of ECL are:</p> <ul style="list-style-type: none"> ▫ Model estimations - judgmental modelling and assumptions are used to estimate ECL which involves determining Probability of Default (PD), Loss Given Default (LGD), and Exposure at Default (EAD). Respective model's assumptions are key driver of uncertainty, and are required in the application of these model for calculation of the ECL estimate. ▫ Economic scenarios - IFRS 9 requires the Bank to measure ECL on an unbiased forward-looking basis reflecting a range of future economic conditions. Complex Statistical methodology is applied in determining the forward-looking economic scenarios used as an input to calculate ECL, the associated scenario probability weightings, and the key economic variables that drive the scenarios. ▫ Qualitative criteria - the criteria selected to identify a SICR involves judgment and can lead to unreliable ECL recognised for certain portfolios. <p>In line with the application instructions of IFRS 9, the Bank must compare the ECL for Stage 3 with the provision determined under the Prudential Regulations (PR) issued by the SBP. The PR requires specific provisioning against the advances on the basis of time-based criteria which should be supplemented by a Bank's subjective evaluation of credit worthiness of customers. The determination of provision, therefore, involves use of management's judgement, on a case-to-case basis, taking into account factors such as the economic and business conditions, borrowers' repayment behaviors and realizability of collateral held by the Bank.</p> <p>Because of the high degree of estimation uncertainty and complexity involved in the calculation of ECL we considered the area of ECL as a key audit matter.</p>	<ul style="list-style-type: none"> ▫ Assessing the design, implementation and operating effectiveness of key controls established by the Bank over measurement of ECL and provision calculated as per PR. ▫ We involved in-house specialist who assisted in the following: <ul style="list-style-type: none"> – Evaluating the Bank's ECL model methodologies for compliance with application instructions of IFRS 9; – Assessing the reasonableness of the Bank's methodology for determining the economic scenarios used and the probability weightings applied to them by independently validating and challenging the assumption, methodologies and outputs of the models; – Assessing the reasonableness of macro-economic variables and economic forecasts by comparing these to external sourced data extracted; and – Performing independent testing of the Expected Credit Loss (ECL) allowance on a sample basis. ▫ Assessing the appropriateness of SICR criteria applied by the Bank by ensuring that the SICR criteria and staging methodology are consistent with the application instructions of IFRS 9. ▫ Ensuring relevance and completeness of the key inputs into the ECL calculations with their respective sub-ledgers and general ledgers. ▫ Performing testing on sample basis over key inputs into the ECL calculations with their respective source documents. ▫ Performing sensitivity analysis on the key assumption, that is probability weighted economic scenarios, to assess reasonableness and the risk of biasness by changing weights assigned to each economic scenario. ▫ In accordance with the PR, we sampled at least sixty percent of the total advances outstanding exposure and performed credit reviews through the following substantive procedures: <ul style="list-style-type: none"> – verifying repayments of advances / interest installments and checked that non-performing advances have been correctly classified and categorised based on the number of days overdue; – examining watch list accounts and, based on review of the individual facts and circumstances, discussions with management and our assessment of financial conditions of the borrowers, formed a judgement as to whether classification of these accounts as performing was appropriate; and

S. No.	Key Audit Matters	How the matter was addressed in our audit
		<ul style="list-style-type: none"> – assessing the accuracy of specific provision made against non-performing advances in accordance with the criteria prescribed under the PRs by performing recalculation. □ Assessing the appropriateness of ECL categorised as Stage 3 by performing a comparison of ECL computed, through the use of methodology and models with the provision required to be computed as required under the PR to ensure that an amount which is higher of the ECL and PR requirements is appropriately recognised for these stage 3 customers pursuant to the requirement of application instructions of IFRS 9. □ Evaluating the adequacy of the financial statements disclosures, including disclosures of key assumptions, judgements and sensitivities.

Information other than the Unconsolidated Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Bank's Annual Report but does not include the consolidated and unconsolidated financial statements and our auditor's reports thereon.

Our opinion on the unconsolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the unconsolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the unconsolidated financial statements, or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and the Board of Directors for the Unconsolidated Financial Statements

Management is responsible for the preparation and fair presentation of the unconsolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan, the requirements of Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the unconsolidated financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of directors is responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the unconsolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these unconsolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the unconsolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the unconsolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the unconsolidated financial statements, including the disclosures, and whether the unconsolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the unconsolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. Based on our audit, we further report that in our opinion:
 - a) proper books of account have been kept by the Bank as required by the Companies Act, 2017 (XIX of 2017) and the returns referred above from the branches have been found adequate for the purpose of our audit;
 - b) the unconsolidated statement of financial position, the unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, unconsolidated statement of changes in equity and unconsolidated cash flow statement together with the notes thereon have been drawn up in conformity with the Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
 - c) investments made, expenditure incurred and guarantees extended during the year were in accordance with the objects

and powers of the Bank and the transactions of the Bank which have come to our notice have been within the powers of the Bank; and

- d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Bank and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

2. We confirm that for the purpose of our audit we have covered more than sixty per cent of the total advances of the Bank.

The engagement partner on the audit resulting in this independent auditor's report is Zeeshan Rashid.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2024

1. STATUS AND NATURE OF BUSINESS

Habib Metropolitan Bank Limited (the Bank) was incorporated in Pakistan on 3 August 1992, as a public limited company, under the repealed Companies Ordinance, 1984 (now Companies Act, 2017) and is engaged in commercial banking and related services. Its shares are listed on the Pakistan Stock Exchange. The Bank operates 551 (2023: 525) branches, including 223 (2023: 117) Islamic banking branches, an offshore branch (Karachi Export Processing Zone branch) and 1 (2023: 1) sub branch in Pakistan. The Bank is a subsidiary of Habib Bank AG Zurich - Switzerland (the holding company with 51% shares in the Bank) which is incorporated in Switzerland.

- 1.1** During the year, the Bank established a wholly owned subsidiary company, HabibMetro Exchange Services Limited (HMES). The Company (HMES) is incorporated in Pakistan with the objective of dealing in foreign exchange and facilitating remittances. The registered office is situated at ground floor Al Manzoor Building I.I. Chundrigar Road, Karachi.
- 1.2** The Pakistan Credit Rating Agency Limited (PACRA) has determined the Bank's long term rating as AA+ (31 December 2023: AA+) and short term rating as A1+ (31 December 2023: A1+) dated 31 December 2024.

The registered office of the Bank is situated at HabibMetro Head Office, I.I. Chundrigar Road, Karachi.

2. BASIS OF PRESENTATION

- 2.1** These unconsolidated financial statements represent separate financial statements of the Bank. The consolidated financial statements of the Bank and its subsidiary companies are being separately issued.

In accordance with the directives of the Federal Government regarding the shifting of the banking system to Islamic mode, the State Bank of Pakistan (SBP) has issued various circulars from time to time. Permissible forms of trade related modes of financing include purchase of goods by banks from their customers and immediate resale to them at appropriate profit in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these financial statements as such, but are restricted to the amount of facility actually utilised and the appropriate portion of profit thereon.

Key financial figures of the Islamic banking branches are disclosed in Annexure II to these unconsolidated financial statements.

- 2.2** The Bank believes that there is no significant doubt on the Bank's ability to continue as a going concern. Therefore, the unconsolidated financial statements continue to be prepared on the going concern basis.

2.3 Statement of Compliance

These unconsolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP), as are notified under the Companies Act, 2017;
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP) from time to time.

Whenever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of the IFRS or IFAS, requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.

- 2.3.1** SBP has deferred the applicability of International Accounting Standard (IAS) 40, 'Investment Property' for Banking Companies in Pakistan through BSD Circular Letter No. 10 dated 26 August 2002 till further instructions. Also, SECP has deferred the applicability of IFRS 7, 'Financial Instruments: Disclosures' through its notification S.R.O. 411(I)/2008 dated 28 April 2008. Accordingly, the requirements of these standards have not been considered in the preparation of these unconsolidated financial statements.
- 2.3.2** The disclosures requirements of IFAS 3, 'Profit and Loss Sharing on Deposits' for Islamic Banking Institutions (IBIs) relating to annual and quarterly financial statements have been based on a format prescribed by SBP vide BPRD Circular Letter No. 02 dated 09 February 2023.
- 2.3.3** IFRS 10, 'Consolidated Financial Statements' was made applicable from period beginning on or after 01 January 2015 vide S.R.O. 633(I)/2014 dated 10 July 2014 by SECP. However, SECP has directed through S.R.O. 56(I)/2016 dated 28 January 2016 that the requirement of consolidation under section 228 of the Companies Act, 2017 and IFRS 10, 'Consolidated Financial Statements' is not applicable in case of investment by companies in mutual funds established under trust structure.
- 2.3.4** The State Bank of Pakistan (SBP) adopted IFRS 9 through BPRD Circular No. 07 of 2023, dated April 13, 2023, but deferred certain requirements. Similarly, the requirement to carry unquoted securities at fair value has been deferred until January 1, 2025. Furthermore, Islamic banking institutions may follow Islamic Financial Accounting Standards (IFAS) 1 & 2 where applicable and continue existing accounting practices for other Islamic products until further instructions. Moreover, Banks have received exemption of recording income and expense at Effective interest rate. Consequently, these deferred requirements of IFRS 9 have not been considered in the preparation of these financial statements. Furthermore, Banks are required to apply modification accounting retrospectively however it will be applied only on the loans modified on or after 1st January 2020 as allowed by SBP.

2.4 Standards, interpretations of and amendments to published approved accounting standards that are effective in the current year

As directed by SBP via BPRD Circular letter no. 7 of 2023 dated 13 April 2023 of IFRS 9, (Financial Instruments) is effective in Pakistan for periods beginning on or after January 1, 2024. In addition, due to the application of IFRS 9, SBP vide BPRD Circular No. 02 dated February 9, 2023, has also amended the format of the annual financial statements. Details regarding the aforementioned adoption and amendment, including the impact thereof, are discussed in more detail in note 4.1 to these unconsolidated financial statements.

Except for the above, there are certain other interpretations and amendments that are mandatory for the Bank's accounting periods beginning January 1, 2024. However, these are not considered to be relevant or do not have any significant effect on the Bank's operations and therefore have not been detailed in these unconsolidated financial statements.

2.5 Standards, interpretations of and amendments to existing accounting and reporting standards that are not yet effective

- 2.5.1** Certain requirements of IFRS 9 were deferred by SBP and they are disclosed in the statement of compliance.
- 2.5.2** Furthermore, following standards, interpretations of and amendments to approved accounting and reporting standards will be effective from the dates (for the accounting periods) as stated below against the respective standards, interpretations of and amendments to:

Standards and amendments	Effective date (annual periods beginning on or after)
Lack of Exchangeability - Amendments to IAS 21	1 January 2025
IFRS S1 - General Requirements for Disclosure of Sustainability - related Financial Information	1 January 2025
IFRS S2 - Climate - related Disclosures	1 January 2025
Amendments to the Classification and Measurement of Financial Instruments - Amendments to IFRS 9 & IFRS 7	1 January 2025
Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments to IFRS 10 and IAS 28	Not yet finalised

The amendments in IFRS 9 will have a significant impact on the Bank's financial statements while the management of the Bank is assessing the impact of the changes in the other mentioned standards on the Bank's financial statements

2.6 Critical accounting estimates and judgments

The preparation of these unconsolidated financial statements in conformity with accounting and reporting standards as applicable in Pakistan requires the use of certain accounting estimates. It also requires the management to exercise judgement in the process of applying the Bank's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. These estimates affect the reported amounts of assets, liabilities, income, and expenses. The areas where various assumptions and estimates are significant to the Bank's unconsolidated financial statements or where judgement was exercised in the application of accounting policies are as follows:

- i) Classification, valuations and impairment of investments (note 4.4)
- ii) Provision against non-performing loans and advances (note 4.5.1)
- iii) Depreciation (note 4.6.2) and Amortisation (note 4.7)
- iv) Valuation of Property and equipment (4.6.2) and Non-banking assets acquired in satisfaction of claims (note 4.8)
- v) Taxation (note 4.11)
- vi) Defined benefit plan (note 4.13.1)
- vii) Compensated absences (note 4.13.2)
- viii) Right-of-use assets (note 4.6.3) and related lease liabilities (note 4.14)
- ix) Impairment of non-financial assets (excluding deferred tax asset) (note 4.21)

Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period, or in the period of revision and future periods, if the revision affects both current and future periods.

3. BASIS OF MEASUREMENT

Accounting convention

These unconsolidated financial statements have been prepared under the historical cost convention except for certain fixed assets and non-banking assets acquired in satisfaction of claims which have been carried at revalued amounts, certain investments and derivative contracts which have been marked to market and are carried at fair value, obligations in respect of staff retirement benefits and lease liabilities which have been carried at present value and right-of-use assets which are initially measured at an amount equal to the corresponding lease liabilities (adjusted for any lease payments and costs) and depreciated over the respective lease terms.

4. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies adopted in the preparation of these unconsolidated financial statements are consistent with those followed in the preparation of the financial statements for the year ended December 31, 2023, except as disclosed in note 4.1 below.

4.1 Changes in accounting policies

4.1.1 Revised format of unconsolidated financial statements

SBP through its BPRD Circular No. 02 dated February 9, 2023, has amended the format of annual financial statements of banks. All banks are required to prepare their annual financial statements on the revised format effective from accounting year starting from January 1, 2024. Accordingly, the Bank has prepared these unconsolidated financial statements on the new format prescribed by the SBP. The adoption of the new format contains additional disclosures and certain changes in the financial statements' presentation, primarily due to the implementation of IFRS 9 as applicable in Pakistan. However, the corresponding figures continue to be classified and disclosed in accordance with the previous financial accounting and reporting framework.

Adoption of revised financial statements format has also resulted in following material changes (due to which the corresponding presentations have also been changed):

- Right-of-use-assets (note 12) amounting to Rs 8,608,382 thousands (December 31, 2023: Rs 7,601,453 thousands) which were previously shown as part of property and equipment (note 11) are now shown separately on the unconsolidated statement of financial position.
- Lease liabilities (note 18) amounting to Rs 10,463,713 thousands (December 31, 2023: Rs 9,051,378 thousands) which were previously shown as part of other liabilities (note 20) are now shown separately on the unconsolidated statement of financial position.

4.1.2 IFRS 9 - Financial Instruments

During the year, as directed by the SBP vide its BPRD Circular No. 07 of 2023 dated April 13, 2023, IFRS 9: 'Financial Instruments' (the Standard) became applicable to the Bank.

BPRD Circular No. 03 of 2022 dated July 5, 2022, issued by the SBP provides detailed instructions on implementation of IFRS 9 (the IFRS 9 Application Instructions) for ensuring smooth and consistent implementation of the standard across banks. Furthermore, the SBP wide its BPRD Circular Letter No. 16 of 2024 and SBP wide BPRD Circular Letter No. 01 of 2025 has made further amendments in the application instructions issued. All deferments made through these amendments are disclosed in statement of compliance.

The standard addresses recognition, classification, measurement and derecognition of financial assets and financial liabilities. The standard has also introduced a new impairment model for financial assets which requires recognition of impairment charge based on 'Expected Credit Losses' (ECL) approach rather than 'incurred credit losses' approach as previously followed. The ECL has impact on all the assets of the Bank which are exposed to credit risk.

The Bank has adopted IFRS 9 in accordance with the Application Instructions from January 1, 2024, using the modified retrospective approach and has not restated comparatives for the 2023 reporting period and the differences in carrying amount of financial assets and financial liabilities resulting from the adoption of IFRS 9 are recognised in retained earnings and reserves as at January 1, 2024, as permitted under the specific transitional provisions in the Standard. Accordingly, the information presented for 2023 does not reflect the requirements of IFRS 9 and therefore is not comparable to the information presented for 2024 under IFRS 9.

4.1.2.1 Impact on the statement of financial position

The effect of this change in accounting policy is as follows:

Financial Asset / Liabilities	Note	Classification under IFRS 9	Balances as of December 31, 2023	Impact due to					Taxation	Total impact - net of tax	Balances as of January 01, 2024
				Change in classification	Remeasurements	Recognition of expected credit loss (ECL)	Reversal of Provision held	Total Impact			
Rupees in '000											
Assets											
Cash and balances with treasury banks		Amortised cost	91,466,596	-	-	(2,486)	-	(2,486)	-	(2,486)	91,464,110

- a) Certain non-trading debt securities are held by the Bank in separate portfolios and are managed with an objective of realising cash flows through sale. The Bank primarily focuses on fair value information and uses that information to assess the securities' performance and to make decisions. In addition, certain asset-backed securities have contractual cash flows that are not SPPI. These assets are therefore measured at FVTPL under IFRS 9.
- b) Certain debt securities are held by the Bank in separate portfolios to meet everyday liquidity needs. The Bank seeks to minimise the costs of managing these liquidity needs and therefore actively manages the return on the portfolio. That return consists of collecting contractual payments as well as gains and losses from the sale of financial assets. The investment strategy often results in sales activity that is significant in value. The Bank considers that under IFRS 9 these securities are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. Moreover, certain equity investments held by the Bank for strategic purposes have been designated under IFRS 9 as at FVOCI.
- c) Corporate debt securities that were previously classified as held-to-maturity are now classified at amortised cost. The Bank intends to hold the assets to maturity to collect contractual cash flows and these cash flows consist solely of payments of principal and interest on the principal amount outstanding. (HTM to AC).
- d) Advances except for Temporary Economic Refinance Facility (TERF), staff loans and modified loans are stated at cost, whereas TERF scheme and staff loans are stated at amortised cost.

4.1.2.2 Impact on regulatory capital

The introduction of IFRS 9 has resulted in reduction in regulatory capital of the Banks, which has reduced their lending capacity and ability to support their clients. In order to mitigate the impact of ECL models on capital, SBP has determined that it may be appropriate for the banks to introduce a transitional arrangement for the impact on regulatory capital from the application of ECL accounting. Annexure B of the 'Application Instructions' issued by SBP has detailed the transitional arrangement.

The transitional arrangement applies only to provisions for stage 1 and stage 2 financial assets. The transitional arrangement must adjust CET1 capital. Where there is a reduction in CET1 capital due to new provisions, net of tax effect, upon adoption of an ECL accounting model, the decline in CET1 capital (the "transitional adjustment amount") must be partially included (i.e., added back) to CET1 capital over the "transition period" of five years.

Moreover, the SBP has allowed to adjust the amount of Stage 1 and Stage 2 provisions in Tier 2 Capital that have not been added back to CET 1 and vice versa as per Annexure-A of BPRD Circular no 16 of 2024 dated July 29, 2024.

Had IFRS 9 not been applied then CAR would have been higher by 18 bps from 19.29% to 19.47%.

4.1.2.3 Classification and measurement

Under the new standard, classification and measurement of financial assets depends on how these are managed based on business model and their contractual cash flow characteristics. Financial assets that do not meet the Solely Payment of Principal and Interest (SPPI) criteria are required to be measured at fair value through profit and loss (FVTPL) regardless of the business model in which they are held.

Recognition and initial measurement

Debt securities issued are initially recorded when they are originated. All other financial assets and financial liabilities are initially recognised when the Bank becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at transaction price. The fair value of a financial asset on initial recognition is generally its transaction price. If the Bank determines that the fair value on initial recognition differs from the transaction price then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently, that difference is recognised in unconsolidated profit and loss account on an appropriate basis over the life of the asset but no later than when the valuation is wholly supported by observable market data, or the transaction is closed out. Advances other than Temporary Economic Refinance Facility (TERF), staff loans and modified loans are initially measured at transaction price, i.e., the amount of loan disbursed at disbursement date.

Staff loans and Temporary Economic Refinance Facility (TERF) loans are recognised at fair value at the time of disbursement. The fair value is determined by discounting the expected future cash flows using the prevailing market rates for instruments. The difference between the disbursed amount and the fair value at initial recognition is recorded as "Prepaid employment benefit" for Staff loans under other assets and "Deferred grant income" for TERF loans under other liabilities.

Classification

Financial Assets

On initial recognition, a financial asset is classified as either amortised cost, FVOCI, or FVPL where as Advances except for staff financing, the Temporary Economic Refinance Facility (TERF), and modified financing, are carried at cost.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
 - the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI.
- A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVTPL:
- the asset is held within a business model whose objective is achieved by both collecting contractual cashflows and selling financial assets; and
 - the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI.

On initial recognition of an equity investment that is not held for trading, the Bank may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

Advances are carried at cost, net of expected credit loss allowances, except for Temporary Economic Refinance Facility (TERF), staff loans and modified loans which are measured at amortised cost.

Financial assets are not reclassified subsequent to their initial recognition unless the Bank changes its business models for managing financial assets, in which cases all affected financial assets are reclassified on the first day of the first reporting period following changes in the business model.

IFRS 9 allows entities to irrevocably designate, at initial recognition, a financial asset as measured at FVTPL if doing so eliminates or significantly reduces any 'accounting mismatch' that would otherwise arise from measuring assets or liabilities or recognising gains and losses on them on different basis. The SBP instructions state that banks may apply the fair value option if, in addition to the IFRS 9 criterion, (a) it is consistent with a documented risk management strategy, and (b) fair values are reliable at inception and throughout life of the instrument. Nonetheless, banks should avoid this option for financial instruments that are categorised as Level 3 in terms of the IFRS 13 hierarchy.

Under IFRS 9, derivatives embedded in contracts where the host is a financial asset in scope of the standard are never bifurcated. Instead, the whole hybrid instrument is assessed for classification.

Financial Liabilities

Financial liabilities are either classified as fair value through profit and loss account (FVTPL), when they are held for trading purposes, or at amortised cost. Financial liabilities classified as FVTPL are measured at fair value and all the fair value changes are recognised in the unconsolidated profit and loss account. Financial liabilities classified at amortised cost are initially recorded at their fair value and subsequently measured using the effective interest rate method. Markup expense and foreign exchange gain and losses are recognised in unconsolidated profit and loss account. Any gain or loss on derecognition is also recognised in unconsolidated profit and loss account.

4.1.2.4 Business model assessment

A financial asset is classified as either Held to collect, Held to collect and sale and Others based on Business model assessment. The Bank makes an assessment of the objective of a business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to the management. The assessment requires judgement based on facts and circumstances on the date of assessment. The assessment considers the policies and objectives for the portfolio of financial assets, risk affecting, performance evaluation, business manager's compensation and historical sales information.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

4.1.2.5 Assessment of whether contractual cash flows are solely payments of principal and interest (SPPI)

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as interest margin.

In assessing whether the contractual cash flows are SPPI, the Bank considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Bank considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Bank's claim to cash flows from specified assets (e.g. non-recourse loans); and
- features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

A prepayment feature aligns with SPPI if it mainly represents unpaid principal and profit, including reasonable compensation for early termination.

4.1.2.6 Subsequent measurement

The following accounting policies apply to the subsequent measurement of financial assets:

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any markup or dividend income, are recognised in unconsolidated profit and loss account.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Markup, foreign exchange gains and losses and impairment are recognised in the unconsolidated profit and loss account.
Debt investments at FVOCI	These assets are subsequently measured at fair value and is assessed for impairment under the new ECL model. Markup income is calculated using the effective interest method and includes Amortisation of premiums

and accretion of discount, foreign exchange gains and losses and impairment are recognised in the unconsolidated profit and loss account. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to the unconsolidated profit and loss account.

Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognised as income in profit and loss account unless the dividend clearly represents a recovery of part of the cost of the investment, in which case they are adjusted from the carrying value of investment. Other net gains and losses are recognised in OCI and are never reclassified to profit and loss account.

Advances

Advances are carried at cost, net of expected credit loss allowances, except for Temporary Economic Refinance Facility (TERF) and staff financing, modified financing which are carried at amortised cost, net of expected credit loss allowances.

4.1.2.7 Amortised cost and gross carrying amount

The 'amortised cost' of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any expected credit loss allowance (or impairment allowance before 1 January 2024).

The 'gross carrying amount of a financial asset' is the amortised cost of a financial asset before adjusting for any expected credit loss allowance.

4.1.2.8 Calculation of markup income and expense

Income on financial assets, comprising performing advances and debt securities and other financial assets, of the domestic operations is recognised on a time proportion basis as per the terms of the contract. However, where debt securities, classified as investments in the unconsolidated financial statements, are purchased at premium or discount, such premium / discount including the transaction cost is amortised through the unconsolidated Profit and Loss account over the remaining maturity of the debt security using the effective interest rate method. Similarly, under the local regulatory requirement, income recoverable on classified advances and investments (debt securities), is recognised on a receipt basis.

Income on rescheduled / restructured advances and investments is recognised as permitted by SBP regulations.

Markup expense on financial liabilities (comprising deposits, subordinated debts, and borrowings) is recognised on an accrual basis in the period in which it is incurred, based on their contractual rates.

Islamic Banking Institutions (IBIs) are allowed to follow Islamic Financial Accounting Standards (IFAS) 1 & 2 where applicable and continue the existing accounting methodology on other Islamic products until issuance of further instruction in this regard.

4.1.2.9 Derecognition

The Bank derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire; or
- it transfers the rights to receive the contractual cash flows in a transaction in which either:

- substantially all of the risks and rewards of ownership of the financial asset are transferred; or
- the Bank neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised), and the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in OCI is recognised in the unconsolidated profit and loss account, except that in case of the derecognition of equity securities held at FVOCI, cumulative gains or losses are transferred to unappropriated profit.

The Bank derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired. The Bank also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

4.1.2.10 Modification

Financial assets

The Bank sometimes renegotiates or otherwise modifies the contractual cash flows of to its customers. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised and a new financial asset is recognised at fair value plus any eligible transaction costs. Any fees received as part of the modification are accounted for as follows:

- fees that are considered in determining the fair value of the new asset and fees that represent reimbursement of eligible transaction costs are included in the initial measurement of the asset; and
- other fees are included in profit and loss account as part of the gain or loss on derecognition.

If cash flows are modified when the borrower is in financial difficulties, then the objective of the modification is usually to maximise recovery of the original contractual terms rather than to originate a new asset with substantially different terms. If the bank plans to modify a financial asset in a way that would result in forgiveness of cash flows, then it first considers whether a portion of the asset should be written off before the modification takes place. This approach impacts the result of the quantitative evaluation and means that the derecognition criteria are not usually met in such cases.

Where derecognition of financial assets is appropriate, the newly recognised residual loans are assessed to determine whether the assets should be classified as purchased or originated credit-impaired assets (POCI).

If the modification of a financial asset measured at amortised cost or FVOCI does not result in derecognition of the financial asset, then the bank first recalculates the gross carrying amount of the financial asset using the original effective interest rate of the asset and recognise the resulting adjustment as a modification gain or loss in profit and loss account. Any costs or fees incurred, and fees received as part of the modification adjust the gross carrying amount of the modified financial asset and are amortised over the remaining term of the modified financial asset.

If such a modification is carried out because of financial difficulties of the borrower then the gain or loss is presented together with impairment losses. In other cases, it is presented as markup income calculated using the effective interest rate method.

Financial liabilities

The Bank derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability recognised and consideration paid is recognised in profit and loss account. Consideration paid includes non-financial assets transferred, if any, and the assumption of liabilities, including the new modified financial liability.

If the modification of a financial liability is not accounted for as derecognition, then the amortised cost of the liability is recalculated by discounting the modified cash flows at the original effective interest rate and the resulting gain or loss is recognised in profit and loss account. For floating-rate financial liabilities, the original effective interest rate used to calculate the modification gain or loss is adjusted to reflect current market terms at the time of the modification. Any costs and fees incurred are recognised as an adjustment to the carrying amount of the liability and amortised over the remaining term of the modified financial liability by re-computing the effective interest rate on the instrument.

4.1.2.11 Impairment

The impairment requirements apply to financial assets measured at amortised cost and FVOCI (other than equity instruments), lease receivables, and certain loan commitments and financial guarantee contracts. At initial recognition, an impairment allowance (or provision in the case of commitments and guarantees) is required for expected credit losses ('ECL') resulting from default events that are possible within the next 12 months ('12-month ECL'). In the event of a significant increase in credit risk, a provision is required for ECL resulting from all possible default events over the expected life of the financial instrument ('lifetime ECL').

Restructured financial assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognised and ECL are measured as follows:

- If the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- If the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective interest rate of the existing financial asset.

Financial assets where 12-month ECL is recognised are in 'Stage 1'; financial assets that are considered to have experienced a significant increase in credit risk are in 'Stage 2'; and financial assets for which there is objective evidence of impairment, so are considered to be in default or otherwise credit impaired, are in 'Stage 3'.

Non-Performing financial assets

At each reporting date, the Bank assesses whether financial assets carried at amortised cost and debt financial assets carried at FVOCI, and finance lease receivables are credit_impaired (referred to as 'Stage 3 financial assets'). A financial asset is 'non-performing' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a loan by the Bank on terms that the Bank would not consider otherwise;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

A loan that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a retail loan that is overdue for 90 days or more is considered credit-impaired.

Under the IFRS 9 Application instructions, the Bank is not required to compute ECL on Government Securities and on Government guaranteed credit exposure in local currency. The Bank is required to calculate ECL on its non-performing financial assets as higher of provision under Prudential Regulations (PR) and ECL under IFRS 9.

For Stage 3, The Bank calculates the ECL against corporate, commercial & SME loan portfolios as higher of PR and ECL under IFRS 9 at borrower / facility level, whereas against the retail borrowers the Bank calculates the ECL at higher of PR and ECL under IFRS 9 at segment/product basis as instructed under Annexure-A of BPRD Circular no 16 of 2024.

ECL is the probability weighted estimate of expected cash shortfalls which is determined by multiplying the probability of default (PD) with the loss given default (LGD) with the expected exposure at the time of default (EAD). Based on the requirements of IFRS 9 and Application Instructions, the Bank has performed an ECL assessment considering the following key elements:

– Probability of default (PD):

The Probability of Default represents the likelihood that a counterparty will default within a specific timeframe, such as 12 months (12-month ECL for Stage 1) or the lifetime of the financial instrument (lifetime ECL for Stage 2). The Bank calculates PD on Islamic financing and related assets which is further bifurcated into retail and non retail portfolios. Following is the methodology through which non retail and retail PD are calculated:

– Non-Retail PD:

The Bank utilises its internal risk rating system to assign Obligor Risk Ratings (ORR) to borrowers. The Bank has used a statistical method called Markov Chain, also known as Transition Matrices / Migration matrices, for the estimation of TTC PDs associated with each of its Obligor Risk Rating (ORR).

– Retail PD:

The Bank has used market benchmark PDs for retail segments. The Bank has recently started developing its retail portfolio and does not have sufficient data to develop PD and LGD Models. In the absence of required data and after discussing with consultants, management has decided to use the market benchmark PDs and BASEL prescribed 45% LGD for retail segment. Moreover, the Bank has used its internal data to develop the TTC- PD models using Pluto and Tasche technique for the calculation of

Expected Credit Loss (ECL) on Investments, Balances with other banks (BWOB) and Lending to FIs. TTC-PD were converted into PiT PDs by applying Macro Economic variable with Vasicek approach.

- Incorporation of forward-looking information:

Forward looking information is incorporated to convert TTC PD to Point in Time Probability of Default (PiT) PD. The Bank has estimated the PiT PDs using the Vasicek framework in its PD Model. For this purpose, the Bank incorporated 5-year forecasts obtained from the Macro Economic Variable (MEV) database of the International Monetary Fund (IMF). The MEVs used in the Model are the Consumer Price Index (CPI) and Gross Domestic Product (GDP) etc.

- Exposure at Default (EAD):

The Bank has defined EAD for financial assets carried at an amortised cost equal to principal plus accrued markup at the default date. Each repayment date is assumed to be a default point in the model, and the ECL is calculated on the EAD at each repayment date and discounted at the effective interest rate to arrive at the discounted ECL under three scenarios, i.e., base, worst, and best-case scenarios. The unutilised exposures are multiplied with Credit Conversion Factors (CCFs) to compute the EAD of revolving facilities. For non-revolving facilities, CCF is only applied to unutilised exposures when the Bank doesn't have unconditional right to revoke the undrawn portion. Additionally, cash and cash equivalent collateral the Bank holds against non-retail facilities are adjusted from the EAD, and ECL is calculated on the net amount. The Bank has developed CCF models for its revolving and non revolving facilities based on the historical utilisation of credit limits which are currently being applied to the revolving portfolio.

- Loss Given Default:

Loss Given Default (LGD) represents the forecasted economic loss in the event of default, calculated independently of credit quality and applied consistently across all stages. LGD is determined as the percentage of loss expected in case of borrower default, incorporating historical data, cash recovery experience (including settlements), costs and time of recoveries, collateral realisations, and recovery projections. For non-collateralised portfolios, the Bank estimates LGD based on actual recoveries from defaulted accounts over a historical period of 8 years prior to the assessment date. Forward-looking information is incorporated into the LGD calculation to reflect the impact of macroeconomic factors on the expected recoveries. The Bank uses a statistical approach, specifically the Jacob Frye model, to estimate Point-in-Time (PiT) LGD. This model accounts for forward-looking information, including macroeconomic variables, to estimate LGD for all credit segments.

Purchase or Originated Credit Impaired Financial Assets

Purchase or Originated Credit Impaired (POCI) financial assets are assets that are credit-impaired on initial recognition. Expected credit loss for these assets is not recognised in a separate loss provision on initial recognition, as the lifetime expected credit loss is inherent within the gross carrying amount of the instruments. Consequently, POCI assets do not carry an impairment allowance on initial recognition. The amount recognised as a loss allowance after initial recognition is equal to the changes in lifetime ECL since the initial recognition of the asset.

Presentation of allowance for Expected Credit Loss in the Statement of Financial Position

Loss allowances for ECL are presented in the Statement of Financial Position as follows:

- financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets.
- loan commitments and financial guarantee contracts: as a provision in Other Assets / Liabilities.

- where a financial instrument includes both a drawn and an undrawn component, and the Bank does not identify the ECL on the loan commitment component separately from those on the drawn component and instead presents a combined loss allowance for both components. The combined amount is presented as a deduction from the gross carrying amount of the drawn component. Any excess of the loss allowance over the gross amount of the drawn component is presented as a provision; and
- debt instruments measured at FVOCI: no loss allowance is recognised in the statement of financial position because the carrying amount of these assets is their fair value. However, the loss allowance is disclosed and is recognised in retained earnings.

4.1.2.12 Significant increase in credit risk (SICR)

A SICR is assessed in the context of an increase in the risk of a default occurring over the life of the financial instrument when compared to that expected at the time of initial recognition. It is not assessed in the context of an increase in the ECL. The Bank used several qualitative and quantitative measures in assessing SICR. Quantitative measures relate to deterioration of Obligor Risk Ratings (ORR) or where principal and / or markup payments are 60 & 120 days past due for advances and trade bills respectively. Qualitative factors include the Watchlist and restructured/rescheduled.

As required by the Application Instructions, financial assets may be reclassified out of stage 3 if they meet the requirements of PR issued by SBP. Financial assets in stage 2 may be reclassified to stage 1 if the conditions that led to a SICR no longer apply. However, a minimum period of 06 months from the end of downgrade reason is required before any facility is moved back to Stage 1 from Stage 2. For a facility to move back from Stage 3 to Stage 2, it should meet the criteria defined under the respective Prudential Regulations for declassification of account / facility and after observing of 03 months cooling off period. An exposure cannot be upgraded from Stage 3 to Stage 1 directly and should be upgraded to Stage 2 initially.

IFRS 9 includes a rebuttable presumption that a default does not occur later than 90 days past due and it also presumes that there is SICR if credit exposure is more than 30 days past due. In order to bring consistency, SBP has allowed the backstop to the rebuttable presumption of days past due of credit portfolio against a specific credit facility and its stage allocation under IFRS 9 as mentioned in Annexure-C of BPRD Circular no 3 of 2022. However, banks are free to choose more stringent days past due criteria.

4.1.2.13 Write-offs

Financial assets are written off (either partially or in full) when there is no reasonable expectation of recovering a financial asset in its entirety or a portion thereof. This is generally the case when the Bank determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. This assessment is carried out at the individual asset level.

Recoveries of amounts previously written off are included in 'impairment losses on financial instruments' in the statement of profit and loss account and OCI.

Financial assets that are written off could still be subject to enforcement activities in order to comply with the Bank's procedures for recovery of amounts due.

4.1.2.14 Off-setting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Bank currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

4.1.2.15 Undrawn loan commitments and guarantees:

Financial guaranteee's are contracts that require the Bank to make specified payments to reimburse the holder for a loss that it incurs because a specified debtor fails to make payment when it is due in accordance with the terms of a debt instrument. 'Loan commitments' are firm commitments to provide credit under pre-specified terms and conditions.

When estimating lifetime ECL for undrawn loan commitments, the Bank estimates the expected portion of the loan commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected cash flows if the loans are drawn down, based on a probability-weighting of the three scenarios.

4.1.2.16 Governance, ownership and responsibilities

The Bank has adopted a governance framework requiring the Risk, Finance, Operations, Internal Audit and IT functions to effectively work together to ensure input from all business lines. IFRS 9 requires robust credit risk models that can predict Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD).

The Bank's Risk Management Division has developed Models/ methodologies for PD, LGD and Credit Conversion Factors (CCF). These models are validated on annual basis considering the following aspects:

- Quantitative Validation: Expected credit loss (ECL) model design validation, data quality validation and benchmarking with external best practices.
- Quantitative Validation: Calibration testing which ensures the accuracy of the observed PDs.

The Risk Department defines the staging criteria for the new impairment model and take ownership of all models, methodologies and the ECL calculation approach. Additionally, the Risk department also take the ownership of the impact of ECL on bank's capital.

Risk Management division of the Bank is responsible for the implementation of IFRS 9. Further the Bank has engaged a consultant for the calculation of ECL on a quarterly basis. The same is provided to the Risk Management Division which reviews and assesses the ECL and submits to the same to Finance Division for financial reporting requirements.

Finance Division then uses the financial information for preparing the financial statements and related financial ratios.

Risk Management Division prepares and submits the analysis to board risk committee on a quarterly basis. Further financial statements prepared on the basis of IFRS-9 is then submitted to the Board Audit Committee on a quarterly basis.

The IT Department provides support to all the stakeholders for preparing and extracting the data required for the risk parameters modelling. IT department also provides support to project owners for system development and upgrades.

4.2 Cash and cash equivalents

For the purpose of the unconsolidated cash flow statement, cash and cash equivalents include cash and balances with treasury banks, balances with other banks and national prize bonds less overdrawn nostro balances.

4.3 Lendings to / borrowings from financial institutions

The Bank enters into transactions of borrowing (repo) from and lending (reverse repo) to financial institutions, at contracted rates for a specified period of time. These are recorded as under:

Purchase under resale agreement (reverse repo)

Securities purchased with a corresponding commitment to resell at a specified future date (reverse repos) are not recognised in the unconsolidated statement of financial position and instead amounts paid under these arrangements are included in lendings to financial institutions. The difference between purchase and resale price is accrued as markup income on a pro-rata over the term of the agreement.

Sale under repurchase agreement (repo)

Securities sold with a simultaneous commitment to repurchase at a specified future date (repos) continue to be recognised in the unconsolidated statement of financial position and are measured in accordance with accounting policies for investments and amount received under these agreements are recorded as repurchase agreement borrowings. The difference between sale and repurchase price is accrued as markup expense on a pro-rata basis over the term of the repo agreement.

Bai Muajjal

In Bai Muajjal, the Bank sells sukuk on credit to other financial institutions. The sale / purchase price is agreed at the time of sale and such proceeds are received at the end of the credit agreed period. The sukuk sold under Bai Muajjal transaction are derecognised on the date of disposal. Receivable against such sale is recognised at the agreed sale price. The difference between the sale price and the carrying value on the date of disposal is taken to income on straight line basis.

Musharaka / Modaraba

In Musharaka / Modaraba, the Bank invests in the Shariah compliant business pools of the financial institutions at the agreed profit sharing ratio. Loss, if any will be shared between the parties as per the investment.

Musharaka from the SBP under Islamic Export Refinance Scheme (IERS)

Under IERS, the Bank accepts funds from the SBP under Shirkat-ul-aqd to constitute a pool for investment in Islamic export refinance portfolio of the Bank under the guidelines issued by the SBP. The profit of the pool is shared as per the agreed weightages between the partners.

Modaraba investment from the SBP under various long term Islamic refinance schemes

Under various long term Islamic refinance schemes of the SBP, the Bank accepts funds from the SBP which are received on modaraba basis for investment in the pool of the Bank. The profit of the pool is shared as per the agreed profit sharing ratio of the pool and the weightages assigned to these investments.

4.4 Investments (Applicable before January 1, 2024)

4.4.1 Investments in subsidiaries are stated at cost less provision for impairment, if any.

4.4.2 Other investments are classified as follows:

Held-for-trading

These are securities, which are either acquired for generating profit from short-term fluctuation in market prices, interest rate movements, dealers margin or are securities included in a portfolio in which a pattern of short-term trading exists.

Held-to-maturity

These are securities with fixed or determinable payments and fixed maturities that are held with the positive intention and ability to hold till maturity.

Bai Muajjal transactions undertaken with the Government of Pakistan are disclosed as investments.

Available-for-sale

These are investments except from those made in subsidiary companies and that do not fall under the held-for trading or held-to-maturity categories.

4.4.3 Initial Measurement

Investments (other than held-for-trading) include transaction costs associated with the investments. In case of held-for-trading transaction costs are charged to profit and loss account when incurred.

All “regular way” purchases and sales of investments are recognised on the trade date, i.e., the date that the Bank commits the purchase or sell the asset. Regular way purchases or sales are purchases or sales of investments that require delivery of assets within the time frame generally established by regulation or convention in the market place.

Subsequent Measurement

Held-for-trading

Investments classified as held-for-trading are subsequently measured at fair value. Any unrealised surplus / deficit arising on the revaluation of the Bank's held-for-trading investment portfolio is taken to the profit and loss account.

Held-to-maturity

Investments classified as held-to-maturity are carried at amortised cost.

Available-for-sale

Quoted securities classified as available-for-sale are subsequently measured at fair value. Any unrealised surplus / deficit arising on revaluation of quoted securities classified as available for sale is kept in a separate account shown in equity. Surplus / deficit arising on these securities is taken to the profit and loss account when actually realised upon disposal or when the investment is considered to be impaired. Unquoted equity securities are valued at the lower of cost and break-up value. Break-up value of these securities is calculated as per the latest available audited financial statements. Investments in other unquoted securities are valued at cost less impairment losses, if any.

Impairment

Provision for diminution in the value of term finance certificates and sukuk certificates are made as prescribed under Prudential Regulation issued by the SBP.

Provision for impairment in the value of available-for-sale and held-to-maturity securities (other than Federal Government securities, term finance certificates and sukuk certificates) is made after considering objective evidence of impairment, if any, in their value (as a result of one or more events that may have an impact on the estimated future cash flows of the investments). A significant or prolonged decline in the fair value of an equity investment below its cost is also considered an objective evidence of impairment. Impairment losses are taken to profit and loss account.

4.5 Advances (Applicable before January 1, 2024)

4.5.1 Loans and advances

Loans and advances and net investments in finance lease are stated net of provision for loan losses against non-performing advances. Provision for loan losses is made in accordance with the Prudential Regulations issued by the SBP and is charged to profit and loss account. The Bank also maintains general provision in addition to the requirements of the Prudential Regulations on the basis of management's assessment of credit risk characteristics and general banking risk such as nature of credit, collateral type, industry sector and other relevant factors. Advances are written-off in line with the Bank's policy when there are no realistic prospects of recovery.

4.5.2 Finance lease receivables

Leases where the Bank transfers substantially all the risks and rewards incidental to ownership of an asset to the lessee are classified as finance lease. A receivable is recognised at an amount equal to the present value of the minimum lease payments including guaranteed residual value, if any. Finance lease receivables are included in advances to the customers.

4.5.3 Islamic finance and related assets

Ijarah

Ijarah assets are stated at cost less depreciation and are disclosed as part of 'Islamic financing and related assets'. Rental received / receivable on Ijarah are recorded as income / revenue. The Bank charges depreciation from the date of recognition of Ijarah of respective assets to Lessee (mustajir). Ijarah assets are depreciated over the period of Ijarah using the straight line method. Ijarah rentals outstanding are disclosed in 'other assets' on the Statement of Financial Position at amortised cost.

Diminishing Musharaka

Under diminishing musharaka based financing, the Bank enters into a musharaka based on shirkat-ul-milk for financing an agreed share of fixed asset (e.g. house, land, plant or machinery) with its customers and enters into rental payment agreement for the utilisation of the Bank's musharaka share by the customer. The Bank receives periodic payments from its customers partly for renting its portion of the assets and partly for gradual transfer / sale of its ownership. The rental payments are recognised in profit and loss account whereas transfer / sale payments are applied towards reducing the outstanding principal.

Running Musharaka

Under Running Musharaka, the Bank enters into financing with the customer based on Shirkat-ul-Aqd in the customer's operating business. Under this mechanism the customer can withdraw and return funds to the Bank subject to consumer's running musharakah financing limit during the Musharaka period. At the end of each quarter / half year the customer pays the provisional profit as per the desired profit rate which is subject to final settlement based on the relevant quarterly / half yearly / annual accounts of the customer.

Istisna

Under istisna financing, the Bank places an order to purchase some specific goods / commodities from its customers to be manufactured / delivered to the Bank within an agreed time. The goods are then sold and the amount financed along with profit is paid back to the Bank.

Al-Bai

The product is based on the Islamic mode "musawamah". Under this financing, the Bank purchases the goods from its customers on cash payment basis and after taking the possession by the Bank, the customer on behalf of the Bank sells them. Upon subsequent sale by the customer, the financed amount along with the profit is paid by the customer to the Bank.

Murabaha

In Murabaha transactions, the Bank purchases the goods and after taking the possession, sells them to the customer on cost plus profit basis either in a spot or credit transaction.

Salam

In Salam, the seller undertakes to supply specific goods to the buyer at a future date in exchange of an advanced price fully paid at spot. The payment is at spot but the supply of purchased goods is deferred. The purchased goods by the Bank are then sold by the customer on behalf of the Bank and the financed amount along with profit is paid to the Bank.

4.6 Property and equipment

4.6.1 Capital work-in-progress

Capital work in progress is stated at cost less impairment loss, if any and consists of expenditures incurred and advances made in the course of their construction and installation. Transfers are made to relevant asset category as and when assets are available for intended use.

4.6.2 Property and equipment

Property and equipment are stated at cost, except for land and buildings which are carried at revalued amount, less any applicable accumulated depreciation and accumulated impairment losses, if any. Land and buildings are stated at revalued amount less accumulated depreciation (in case of buildings) and accumulated impairment losses, if any.

Depreciation is calculated on a straight-line basis over the estimated useful life of the asset at the rates specified in note 11.2 to these unconsolidated financial statements. Depreciation on additions during the year is calculated from the date of addition. In case of disposals during the year, the depreciation is charged till the date of disposal.

Subsequent costs are included in the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the unconsolidated profit and loss account.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognised in the profit and loss account in the year the asset is derecognised.

The residual values, useful lives and depreciation methods are reviewed and changes, if any, are treated as change in accounting estimates, at each statement of financial position date.

Land and buildings are revalued by independent professionally qualified valuers with sufficient regularity to ensure that their net carrying amount does not differ materially from their fair value. If an asset's carrying value increases as a result of revaluation, such increase or surplus arising on revaluation is credited to the surplus on revaluation of property and equipment account. If an asset's carrying amount is decreased as a result of a revaluation, the decrease

shall be recognised in the unconsolidated profit or loss account. However, if the increase reverses a deficit on the same asset previously recognised in the unconsolidated profit and loss account, such an increase is also recognised in the unconsolidated profit and loss account to the extent of the previous deficit and thereafter in the surplus on the revaluation of property and equipment account.

In the case of revalued assets, any accumulated depreciation on the date of revaluation is eliminated against the gross carrying amount of the net asset and the net amount restated at the revalued amount of the asset.

Surplus on revaluation of property and equipment (net of any associated deferred tax) to the extent of the incremental depreciation charged on the related assets is transferred to unappropriated profit.

Surplus on revaluation (net of any deferred tax) realised on disposal of land and building is transferred directly to unappropriated profit.

4.6.3 Right-of-use assets and their related lease liabilities

The Bank recognises a right-of-use asset and lease liability (note 4.14) at the lease commencement date. The right-of-use asset is initially measured at amount equal to present value of lease liability, and subsequently at cost less any accumulated depreciation and impairment losses if any, and adjusted for certain remeasurements of the lease liability. The right-of-use asset is depreciated using the straight line method from the commencement date to the earlier of end of the useful life of right-of-use asset or end of the lease term.

4.7 Intangible assets

These are stated at cost less accumulated amortisation and impairment, if any. The cost of intangible assets are amortised from the month when the assets are available for intended use, using the straight line method, whereby the cost of the intangible asset is amortised over its estimated useful life over which economic benefits are expected to flow to the Bank. The useful life and amortisation method is reviewed and adjusted, if appropriate, at each unconsolidated statement of financial position date.

4.8 Non-banking assets acquired in satisfaction of claims

Non-banking assets acquired in satisfaction of claims are initially recorded at cost and subsequently carried at revalued amounts less accumulated depreciation and impairment, if any. These assets are revalued by professionally qualified valuers with sufficient regularity to ensure that their net carrying value does not differ materially from their fair value. A surplus arising on revaluation of property is credited to the 'surplus on revaluation of non-banking assets' account and any deficit arising on revaluation is taken to the unconsolidated profit and loss account directly. Legal fees, transfer costs and direct costs of acquiring title to property is charged to the unconsolidated profit and loss account.

Depreciation on assets (other than land) acquired in satisfaction of claims is charged to the unconsolidated profit and loss account on the same basis as depreciation charged on the Bank's property and equipment.

If the recognition of such assets results in a reduction in non-performing loans, such reductions and the corresponding reductions in provisions held against non-performing loans are disclosed separately.

These assets are generally intended for sale. Gains and losses realised on the sale of such assets are disclosed separately from gains and losses realised on the sale of property and equipment. Surplus on revaluation (net of deferred tax) realised on disposal of these assets is transferred directly to unappropriated profit.

If such an asset is subsequently used by the Bank for its own operations, the asset is transferred to property and equipment along with any related surplus.

4.9 Derivative financial instruments

Derivative financial instruments consist of Forward foreign exchange contracts, which are initially recognised at fair value at the date on which the derivative contract is entered into and are subsequently remeasured at fair value. All derivative financial instruments are carried as asset when fair value is positive and liabilities when fair value is negative. Any change in the value of derivative financial instruments is taken to the unconsolidated profit and loss account.

4.10 Credit loss allowance / Provisions

Expected credit loss allowance against identified off-balance exposure is recognised when intimated and reasonable certainty exists for the Bank to settle the obligation. The loss is charged to the unconsolidated profit and loss account net of expected recovery and is classified under other liabilities.

Other provisions are recognised when the Bank has a legal or constructive obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each unconsolidated statement of financial position date and are adjusted to reflect the current best estimate.

4.11 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the unconsolidated profit and loss account except to the extent that it relates to the items recognised directly in equity, in which case it is recognised in equity.

4.11.1 Current

Provision for current taxation is based on taxable income for the year at the current rates of taxation after taking into consideration available tax credits and rebates. The charge for the current tax also includes adjustments where considered necessary, relating to prior years which arise from assessments framed / finalised during the year.

4.11.2 Deferred

Deferred tax is recognised using the balance sheet liability method on all major temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and amount used for taxation purposes. Deferred tax is measured at the tax rate that are expected to be applied on the temporary differences when they reverse, based on the tax rates that have been enacted or substantially enacted at the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that the future taxable profit will be available against which the asset can be utilised. Deferred tax assets are reviewed at each unconsolidated statement of financial position date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

The Bank also recognises deferred tax asset / liability on deficit / surplus on revaluation of assets and actuarial gain/ losses recognised in unconsolidated statement of other comprehensive income, which is adjusted against the related deficit / surplus.

4.12 Deposits / Borrowings

Deposits / Borrowings are recorded at the amount of proceeds received. The cost of deposits is recognised as an expense on an accrual basis in the period in which it is incurred.

4.13 Employees' benefits

4.13.1 Retirement benefits

Defined benefit plan

The Bank operates an approved funded gratuity scheme for all its permanent employees. Retirement benefits are payable to the members of the scheme on the completion of prescribed qualifying period of service under the scheme. Contribution is made in accordance with the actuarial recommendation. The actuarial valuation is carried out annually as at the unconsolidated statement of financial position date using the "Projected Unit Credit Actuarial Cost Method".

All actuarial gains and losses are recognised in other comprehensive income as they occur and are not reclassified to the unconsolidated profit and loss account in subsequent periods.

Past service cost resulting from changes to defined benefit plan is recognised in the unconsolidated profit and loss accounts in accordance with arterial's valuation and their assessment.

Defined contribution plan

The Bank operates a recognised provident fund scheme for all its regular employees, which is administered by the Board of Trustees. Contributions are made by the Bank and its employees, to the fund at the rate of 10% of basic salary in accordance with the terms of the scheme.

4.13.2 Compensated absences

A provision is made for estimated liability for annual leaves as a result of services rendered by the employees against unavailed leaves, as per term of service contract, up to the unconsolidated statement of financial position date.

The actuarial valuation under the "Projected Unit Credit Actuarial Cost Method" has been carried out by the Bank for the determination of the liability for compensated absences. Liability so determined is fully recognised by the Bank.

4.14 Lease liability against right-of-use assets

The lease liability is initially measured at the present value of the lease payments that are unpaid at the commencement date, discounted using the Bank's incremental borrowing rate as the interest rate implicit in the lease cannot be readily determined. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made.

4.15 Revenue recognition

Revenue is recognised to the extent that the economic benefits will flow to the Bank and the revenue can be reliably measured. These are recognised as follows:

4.15.1 Advances and investments

- Mark-up / return / interest on regular loans / advances and debt securities investments is recognised on a time proportion basis that take into account the effective yield on the asset. Where debt securities are purchased at premium or discount, the same is amortised through the unconsolidated profit and loss account using the effective interest rate method.

-
- Mark-up / return / interest recoverable on classified loans and advances and investments is recognised on receipt basis. Mark-up / return / interest on classified rescheduled / restructured loans and advances and investments is recognised as permitted by the regulations of the SBP.
 - Dividend income is recognised when the Bank's right to receive the dividend is established.
 - Gains and losses on sale of investments are recognised in the unconsolidated profit and loss account.
 - Income on bills discounted are recognised over the period of the bill.

4.15.2 Lease financing / Ijarah contracts

Financing method is used in accounting for income from lease financing. Under this method, the unearned lease income (excess of the sum of total lease rentals and estimated residual value over the cost of leased assets) is deferred and taken to income over the term of the lease period so as to produce a constant periodic rate of return on the outstanding net investment in lease. Unrealised income on classified leases is recognised on receipt basis.

Rental income on these ijarah is recognised in the Bank's unconsolidated profit and loss account on a time proportion basis, while depreciation is calculated on Ijarah assets on a straight line basis over the period of ijarah.

Gains / losses on termination of lease contracts and other lease income are recognised when realised.

4.15.3 Fees, commission and brokerage

The Bank earns fee and commission income from the banking services to retail and corporate customers. Fee and commission income is recognised at an amount that reflects the consideration to which the Bank expects to be entitled in exchange for providing the services.

The Bank recognises fees earned on transaction-based arrangements at a point in time when the Bank has provided the services to the customer. Unearned fee and commission are included under other liabilities.

The fee pertaining to banking services to retail and corporate customers are based on schedule of charges, reviewed periodically by the Bank.

4.16 Off setting

Financial assets and financial liabilities are set off and the net amount is reported in the unconsolidated financial statements when there is a legally enforceable right to set off and the Bank intends to either settle on a net basis, or to realise the assets and to settle the liabilities simultaneously.

4.17 Foreign currencies

4.17.1 Foreign currency transactions and translations

Foreign currency transactions are translated into functional currency of the Bank at the exchange rates prevailing on the date of transaction. Monetary assets and liabilities in foreign currencies are translated into rupees at the exchange rates prevailing at the unconsolidated statement of financial position date. Forward exchange contracts are revalued using forward exchange rates applicable to their respective remaining maturities. Gains or losses on above translation are included in the unconsolidated profit and loss account.

4.17.2 Offshore branch operations

The assets and liabilities of an offshore branch operations are translated into rupees at the exchange rates prevailing at the unconsolidated statement of financial position date. The income and expense are translated into rupees at average rate of exchange prevailing during the year. Exchange gain or loss on such translation is taken to equity through unconsolidated statement of 'other comprehensive income' under 'exchange translation reserve'.

4.17.3 Contingencies and commitments

Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in rupee terms at the rates of exchange ruling on the statement of financial position date. Commitments for outstanding forward foreign exchange contracts disclosed in these unconsolidated financial statements are translated at contracted rates.

4.18 Segment reporting

A segment is a distinguishable component of the Bank that is engaged in providing product or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Bank's primary format of reporting is based on the following business segments.

4.18.1 Business segments

a) Trading and sales

This segment undertakes the Bank's treasury, money market and capital market activities.

b) Retail banking

Retail banking provides services to small borrowers i.e. consumers. It includes loans, deposits and other transactions with retail customers.

c) Commercial banking

This includes loans, deposits and other transactions with corporate and SME customers.

d) Islamic banking

This represents Islamic banking operations of the Bank.

4.18.2 Geographical segments

The Bank conducts all its operations in Pakistan including an offshore branch in Karachi Export Processing Zone.

4.19 Dividend distribution and appropriations

Bonus and cash dividend and other appropriations (except for the appropriations required by law), declared / approved subsequent to the unconsolidated statement of financial position date are considered as non-adjusting event and are

not recorded in these unconsolidated financial statements of the current year. These are recognised in the period in which these are declared / approved.

4.20 Earnings per share

The Bank presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Bank by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares. Diluted earnings per share is not calculated separately, as the Bank does not have any convertible instruments in issue.

4.21 Impairment of non-financial assets (excluding deferred tax asset)

At each unconsolidated statement of financial position date, the Bank reviews the carrying amount of its assets (other than deferred tax asset) to determine whether there is an indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of relevant asset is estimated. Recoverable amount is the greater of the net selling price and value in use. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the assets is reduced to its recoverable amount. The resulting impairment loss is recognised as an expense immediately in the unconsolidated profit and loss account. An impairment loss is reversed if the reversal can be objectively related to an event occurring after the impairment loss was recognised.

Details of the basis of determination of impairment against loans and advances and investments have been discussed in their respective notes.

4.22 Acceptances

Acceptances comprises undertakings by the Bank to pay bill of exchange due on customers. These are recognised as financial liability and the contractual right of reimbursement from the customer is recorded as a financial asset. Therefore, commitments in respect of acceptances have been accounted for as financial assets and financial liabilities in these unconsolidated financial statements.

5. FUNCTIONAL AND PRESENTATION CURRENCY

These unconsolidated financial statements are presented in Pakistani Rupees, which is the Bank's functional currency. Except as indicated, financial information presented in Pakistani Rupees has been rounded to nearest thousand.

11.3 Revaluation of properties

The Bank's land and buildings were revalued by an independent professional valuer, M/S Iqbal A. Nanjee & Co. (Private) Limited as at 30 June 2022. The valuation was performed by the valuer on the basis of an assessment of present market values. The revaluations had resulted in a surplus of Rs. 6,795,965 thousand over the book value. In addition, a non-banking asset transferred to property and equipment previously was revalued by M/S Akbani & Javed Associates on 31 December 2021. During the current year desktop valuation non-banking assets has been carried out by Akbani & Javed Associates and no material difference in fair value has been observed and hence not accounted for in the current year financial statements. Accordingly total revaluation surplus (before incremental depreciation) amounted to Rs. 6,950,158 thousand. Details are as follows:

Revaluation surplus (gross amount without incremental depreciation):	Rupees in '000
Freehold land	1,070,460
Leasehold land	2,488,939
Buildings on Freehold land	404,431
Buildings on Leasehold land	<u>2,986,328</u>
	<u>6,950,158</u>

11.3.1 Surplus on revaluation of property and equipment (net of incremental depreciation) are as follows:

	2024	2023
	Rupees in '000	
Freehold land	1,070,460	1,070,460
Leasehold land	2,488,939	2,488,939
Buildings on Freehold land	301,797	342,783
Buildings on Leasehold land	<u>2,290,640</u>	<u>2,568,981</u>
	<u>6,151,836</u>	<u>6,471,163</u>

11.3.2 Had there been no revaluation the carrying amounts of revalued assets would have been as follows:

	2024	2023
	Rupees in '000	
Freehold land	1,975,330	1,975,330
Leasehold land	1,531,451	1,531,451
Buildings on freehold land	26,487	35,348
Buildings on leasehold land	<u>330,582</u>	<u>362,238</u>
	<u>3,863,850</u>	<u>3,904,367</u>

11.4 The cost of fully depreciated assets still in use includes:

Furniture and fixtures	606,427	500,731
Electrical, office and computer equipment	<u>3,632,624</u>	<u>3,152,659</u>
Vehicles	50,881	41,083
Lease hold improvements	<u>2,860,239</u>	<u>2,661,925</u>

11.5 Details of property and equipment disposed off to employees / ex employees during the year ended 31 December 2024

Stage 3	381,981	185,800
	<u>382,316,798</u>	<u>353,883</u>

20.2 Under the Workers' Welfare Ordinance 1971, the Bank is liable to pay workers' welfare fund (WWF) @ 2% of accounting profit before tax or taxable income, whichever is higher. The Bank has made full provision for WWF based on profit for the respective years.

The Supreme Court of Pakistan vide its order dated November 10, 2016 has held that the amendments made in the law introduced by the Federal Government for the levy of WWF were not lawful. The Federal Board of Revenue has filed review petitions against this order which are currently pending.

Legal advice obtained on the matter indicates that consequent to filing of these review petitions the judgement may not currently be treated as conclusive. Accordingly the Bank maintains its provision in respect of WWF.

20.3 This includes Rs.Nil (2023: Rs. 15,169,499) received by the Bank from a correspondent bank against standby letter of credit claimed by the customer. The honorable High Court of Sindh has passed interim order restraining the Bank to transfer amount pending arbitration.

21. SHARE CAPITAL

Other contingent liabilities	23.3	2,986,394	3,024,648
		<u>933,977,027</u>	<u>640,105,721</u>
23.1 Guarantees			
Financial guarantees		33,303,405	29,705,918
Performance guarantees		55,070,186	55,811,913
Other guarantees		64,252,188	51,801,561
		<u>152,625,779</u>	<u>137,319,392</u>
23.2 Commitments			
Documentary credits and short-term trade-related transactions:			
Letters of credit		229,691,020	132,975,536
Commitments in respect of:			
Forward foreign exchange contracts	23.2.1	547,663,058	365,390,061
Forward lendings	23.2.2	388,000	1,093,000
Commitments for:			
Acquisition of property and equipment		622,776	303,084
		<u>778,364,854</u>	<u>499,761,681</u>
23.2.1 Commitments in respect of forward foreign exchange contracts			
Purchase		260,615,930	190,089,104
Sale		287,047,128	175,300,957
		<u>547,663,058</u>	<u>365,390,061</u>
23.2.2 Commitments in respect of forward lendings			
The Bank has made commitments to extend credit in the normal course of its business, but none of these commitments are irrevocable and do not attract any penalty if the facility is unilaterally withdrawn, except for the following:			
	Note	2024	2023
		Rupees in '000	
Commitments in respect of syndicate financing		<u>388,000</u>	<u>1,093,000</u>
23.3 Other contingent liabilities			
Claims against bank not acknowledged as debt	23.3.1	2,880,338	2,918,592
Foreign Exchange repatriation case	23.3.2	106,056	106,056
		<u>2,986,394</u>	<u>3,024,648</u>

23.3.1 These mainly represent counter claims by borrowers for damages and other claims against the Bank. Management is confident that the matters will be decided in the Bank's favour. Accordingly, no provision has been made in these unconsolidated financial statements.

23.3.2 Foreign exchange repatriation case

While adjudicating foreign exchange repatriation cases of exporters, the foreign exchange Adjudicating Court of the State Bank of Pakistan has adjudicated a penalty of Rs. 106,056 thousand, arbitrarily on the Bank. The Bank has filed appeals before the Appellate Board and Constitutional Petitions in the Honorable High Court of Sindh against the said judgement. The Honorable High Court has granted relief to the Bank by way of interim orders. Based on merits, management is confident that these appeals shall be decided in favor of the Bank and therefore no provision has been made against the impugned penalty.

24. DERIVATIVE FINANCIAL INSTRUMENTS

The Bank deals in derivative financial instruments namely forward foreign exchange contracts and foreign currency swaps with the principal view of hedging the risks arising from its trade business.

As per the Bank's policy, these contracts are reported on their fair value at the statement of financial position date. The gains and losses from revaluation of these contracts are included under "Foreign exchange income". Mark to market gains and losses on these contracts are recorded on the statement of financial position under "other assets / other liabilities".

These products are offered to the Bank's customers to protect from unfavorable movements in foreign currencies. The Bank hedges such exposures in the inter-bank foreign exchange market.

These positions are reviewed on a regular basis by the Bank's Asset and Liability Committee (ALCO).

34.1 Income tax assessments of the Bank have been finalised up to the tax year 2024 (corresponding to the accounting year ended 31 December 2023). Certain appeals are pending with the Appellate Tribunal Inland Revenue (ATIR) and Sindh High Court. However, adequate provisions are being held by the Bank.

34.2 This reflects provision made, on prudent basis, for additional tax imposed by the Federal Board of Revenue (FBR) through its notification dated 21 November 2023 on the foreign exchange income of the banking sector at the rate of 40% for the financial year ended 31 Dec 2021 and 31 Dec 2022. The Bank has challenged the imposition of additional tax before the Sindh High Court which has granted stay against such demand. The matter is currently pending for final adjudication.

38. DEFINED BENEFIT PLAN

38.1 General description

The benefits under the funded gratuity scheme are payable on retirement at the age of 60 or earlier cessation of service. The benefit is equal to one month's last basic salary drawn for each year of eligible service. The minimum qualifying period for eligibility under the plan is five years of continuous service.

	2024	2023
	Number	
38.2 Number of employees under the scheme		
Gratuity fund	<u><u>5,814</u></u>	<u><u>5,713</u></u>

38.3 Principal actuarial assumptions

The latest actuarial valuation was carried out on 31 December 2024 using "Projected Unit Credit Actuarial Cost Method". The main assumptions used for the actuarial valuation were as follows:

	2024	2023
	Adjusted SLIC 2001- 2005	Adjusted SLIC 2001- 2005
	Note	2024
Discount rate - percent per annum	12.00	16.00
Expected rate of return on plan assets - percent per annum	16.00	14.25
Expected long term rate of salary increase - percent per annum	11.50	15.50
Mortality rates (for death in service)	Adjusted SLIC 2001- 2005	Adjusted SLIC 2001- 2005
		Rupees in '000
38.4 Reconciliation of (payable) / receivable to defined benefit plan		
Fair value of plan assets	38.6	<u>2,491,699</u>
Present value of defined benefit obligation	38.5	<u>(2,608,770)</u>
(Payable) / Receivable		<u><u>(117,071)</u></u>
		<u><u>60,450</u></u>

38.5 Movement in defined benefit plan

Obligations at the beginning of the year	2,273,119	2,021,227
Current service cost	319,872	275,132
Past service cost	-	-
Interest cost	344,948	271,786
Benefits due but not paid (payables)	-	(791)
Benefits paid by the Bank	(234,391)	(227,116)
Re-measurement gain	(94,778)	(67,119)
Obligations at the end of the year	<u><u>2,608,770</u></u>	<u><u>2,273,119</u></u>

	Note	2024	2023
		Rupees in '000	
38.6 Movement in fair value of plan assets			
Fair value at the beginning of the year		2,333,569	1,988,918
Interest income on plan assets		354,620	267,239
Contribution by the Bank		60,000	279,679
Benefits paid		(234,391)	(227,116)
Benefits due but not paid		-	(791)
Re-measurements: net return on plan assets over interest income loss	38.8.2	(22,099)	25,640
Fair value at the end of the year		<u>2,491,699</u>	<u>2,333,569</u>
38.7 Movement in (receivable) / payable under defined benefit schemes			
Opening balance		(60,450)	32,309
Charge for the year	38.8.1	310,200	279,679
Contribution by the Bank		(60,000)	(279,679)
Re-measurement gain recognised in OCI during the year	38.8.2	(72,679)	(92,759)
Closing balance		<u>117,071</u>	<u>(60,450)</u>
38.8 Charge for defined benefit plans			
38.8.1 Cost recognised in profit and loss			
Current service cost		319,872	275,132
Net interest on defined benefit asset		(9,672)	4,547
		<u>310,200</u>	<u>279,679</u>
38.8.2 Re-measurements recognised in OCI during the year			
(Gain) / loss on obligation		(19,089)	4,598
- Financial assumptions		4,749	-
- Demographic assumptions		(80,438)	(71,717)
- Experience adjustment		(94,778)	(67,119)
Return on plan assets over interest income		22,099	(25,640)
Total re-measurements recognised in OCI		<u>(72,679)</u>	<u>(92,759)</u>
38.9 Components of plan assets			
PLS Saving Account	38.9.1	164,172	310,643
Term Deposit Certificates	38.9.1	238,485	86,250
Federal Government Securities			
Defense Saving Certificates		1,369,700	1,229,800
Market treasury bills		406,312	456,301
Pakistan Investment Bonds		313,030	250,575
		<u>2,491,699</u>	<u>2,333,569</u>

38.9.1 The amount represents balance which is deposited with the branches of the Bank. Further, the funds primarily invested in Government securities which do not carry any credit risk, however, these are subject to interest rate risk based on market movements and are regularly monitored by the Trustees of the employee funds.

38.10 Sensitivity analysis

Sensitivity analysis has been performed by varying one assumption keeping all other assumptions constant and calculating the impact on the present value of the defined benefit obligations under the various employee benefit schemes. The increase / (decrease) in the present value of defined benefit obligations as a result of change in each assumption is summarized below:

	2024
	Gratuity Fund
	Rupees in '000
1 % increase in discount rate	2,424,077
1 % decrease in discount rate	2,818,458
1% increase in expected future increment in salary	2,821,616
1% decrease in expected future increment in salary	2,417,957
10% increase in expected withdrawal rate	2,608,244
10% decrease in expected withdrawal rate	2,609,137
1% increase in expected mortality rate	2,609,813
1% decrease in expected mortality rate	2,607,804

Although the analysis does not take account of the full distribution of expected cash flows, it does provide an approximation of the sensitivity of the assumptions shown.

38.11 Expected contributions to be paid to the funds in the next financial year

38.12 Expected charge for the next financial year

38.13 Maturity profile

The weighted average duration of the obligation is 9.6 years.

38.14 Funding Policy

The Bank has the policy to make annual contributions to the fund based on actuarial report.

38.15 Significant risk associated with the staff retirement benefit schemes include:

Asset volatility	The risk of the investment underperforming and being not sufficient to meet the liabilities.
Changes in bond yields	The duration of the liabilities is 9.6 Years. Based on the weighted average duration of this plan and guidance from Pakistan Society of Actuaries ("PSOA"), the discount rate used for the calculations is 16.00% per annum.
Inflation risk	The risk that the final salary at the time of cessation of service is greater than what we assumed. Since the benefit is calculated on the final salary (which will closely reflect inflation and other macroeconomic factors), the benefit amount increases as salary increases.
Mortality rate	The risk that the actual mortality experience is different than the assumed mortality. This effect is more pronounced in schemes where the age and service distribution is on the higher side.
Withdrawal rate	The risk of actual withdrawals experience is different from assumed withdrawal probability. The significance of the withdrawal risk varies with the age, service and the entitled benefits of the beneficiary.

39. DEFINED CONTRIBUTION PLAN AND COMPENSATED ABSENCES

39.1 Provident fund

The Bank operates a contributory provident fund scheme for permanent employees. The employer and employee each contribute 10% of the basic salary to the funded scheme every month.

Number of the members participating in the fund at the end of the year 30 June 2024 as per accounts are 5,221 (30 June 2023: 5,080).

39.2 Compensated absences

The Bank maintains a non-funded scheme for compensated absences. These can be accumulated up to 60 days. Liability as of the year-end was Rs. 356,536 thousand (2023: Rs. 325,877 thousand) and was determined through an actuarial valuation carried out under the 'Projected Unit Credit Method'. Valuation was carried out by a qualified actuary. Charge for the year amounting to Rs. 149,266 thousand (2023: Rs. 164,748 thousand) has been recognised to the profit and loss account.

40. COMPENSATION OF DIRECTORS AND KEY MANAGEMENT PERSONNEL

40.1 Total compensation expense

41. FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than investment in subsidiaries and those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

The fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since they are either short-term in nature or, in the case of customer advances, deposits and certain long term borrowings are frequently repriced.

41.1 Fair value of financial assets

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the assets or liabilities that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorized:

On balance sheet financial instruments	2024			
	Fair value

41.3 Valuation techniques used in determination of fair valuation of financial instruments within level 2

Federal government debt securities	The fair value of government securities are valued using PKRV, PKFRV, PKISRV and PSX rates.
Debt securities other than federal government securities	The fair value is determined using the prices / rates available on Mutual Funds Association of Pakistan (MUFAP) / Reuters website and PSX.
Forward contracts	The fair values are derived using forward exchange rates applicable to their respective remaining maturities.
Mutual funds	The fair value is determined based on the net asset values published at the close of each business day.

Valuation techniques used in determination of fair values of non-financial assets within level 2

Property and equipment and non-banking assets acquired in satisfaction of claim	<p>Property and equipment and non-banking assets are valued by professionally qualified valuators. The valuation is based on their assessment of the market value of the assets. In determining the valuation for land and building the valuer refers to numerous independent market inquiries from local estate agents / realtors in the vicinity to establish the present market value. The fair valuation of land and building are considered to represent a level 2 valuation based on significant non-observable inputs being the location and condition of the assets.</p> <p>The fair value is subject to change owing to changes in input. However, management does not expect there to be a material sensitivity to the fair value arising from the non-observable inputs.</p>

45. CAPITAL ADEQUACY, LEVERAGE RATIO & LIQUIDITY REQUIREMENTS

	2024	2023
	Rupees in '000	
Minimum Capital Requirement (MCR):		
Paid-up capital (net of losses)	<u>10,478,315</u>	<u>10,478,315</u>
Capital Adequacy Ratio (CAR):		
Eligible common equity tier 1 (CET 1) Capital	99,689,869	88,120,035
Eligible additional tier 1 (ADT 1) Capital	-	-
Total eligible tier 1 capital	99,689,869	88,120,035
Eligible tier 2 capital	17,619,301	8,686,109
Total eligible capital (Tier 1 + Tier 2)	117,309,170	96,806,144
Risk Weighted Assets (RWAs):		
Credit risk	455,454,722	414,494,946
Market risk	8,395,647	2,228,918
Operational risk	144,429,169	113,309,274
Total	608,279,538	530,033,138
Common equity tier 1 capital adequacy ratio	16.39%	16.63%
Tier 1 capital adequacy ratio	16.39%	16.63%
Total capital adequacy ratio	19.29%	18.26%
Minimum capital requirements prescribed by SBP		
Common equity tier 1 capital adequacy ratio	6.00%	6.00%
Tier 1 capital adequacy ratio	7.50%	7.50%
Total capital adequacy ratio	11.50%	11.50%
Banks uses simple, maturity method and basic indicator approach for credit risk, market risk and operational risk exposures respectively in the capital adequacy calculation.		
Leverage Ratio (LR):		
Eligible tier-1 capital	99,689,869	88,120,035
Total exposures	1,943,057,316	1,843,597,631
Leverage ratio	5.13%	4.78%
Liquidity Coverage Ratio (LCR):		
Total high quality liquid assets	719,857,270	582,822,433
Total net cash outflow	330,851,160	315,797,792
Liquidity coverage ratio	218%	185%
Net Stable Funding Ratio (NSFR):		
Total available stable funding	955,276,822	987,276,461
Total required stable funding	538,749,940	504,533,465
Net stable funding ratio	177%	196%

45.1 The full disclosures on the capital adequacy, leverage ratio & liquidity requirements as per SBP instructions issued from time to time are placed on the bank's website. The link to the full disclosures is available at <https://www.habibmetro.com/financials/#basel-statements>.

46. RISK MANAGEMENT

Risk management aspects are embedded in the Bank's strategy, organization structure and processes. The Bank has adopted a cohesive risk management structure for credit, market, liquidity and operational risk with an integrated approach to strengthen the process and system as controls are more effective and valuable when built into the process. Effective risk management is considered essential in the preservation of the assets and long-term profitability of the Bank. Clear guidelines and limits, which are under regular review, are backed by a system of internal controls and independent audit inspections. Internal reporting / MIS are additional tools for measuring and controlling risks. Separation of duties is also embedded in the Bank's system and organization.

46.1 Credit Risk

Credit risk arises from the possibility that the counterparty in a transaction may default. It arises principally in relation to the lending and trade finance business carried out by the Bank.

As per Basel II methodology the gross credit risk weighted exposure incorporating relevant credit conversion factor is Rs. 455,454,722 thousand (2023:Rs. 414,494,946 thousand) as depicted in note 44.

The Bank's strategy is to minimize credit risk through a strong pre-disbursement credit analysis, approval and risk measurement process added with product, geography and customer diversification. The Bank, as its strategic preference, extends trade and working capital financing, so as to keep the major portion of exposure (funded and non-funded) on a short-term, self-liquidating basis. Major portion of the Bank's credit portfolio is priced on flexible basis with pricing reviewed on periodic basis.

With the expansion of the Consumer lending portfolio, the Credit Review & Administration efforts have been accordingly enhanced by inducting specialized consumer credit risk analysts and processing specialists.

Centralized Credit and Trade processing centre staffed with experienced resource provide strength to post-disbursement aspect of credit risk management.

The Bank's credit policy / manual defines the credit extension criteria, the credit approval and monitoring process, the loan classification system and provisioning policy.

The Bank continually assesses and monitors credit exposures. The Bank follows both objective and subjective criteria of SBP regarding loans classification. The subjective assessment process is based on management's judgement with respect to the borrower's character, activity, cash flow, capital structure, security, quality of management and delinquency.

The Bank uses the 'Standardised Approach' in calculation of credit risk and capital requirements.

The Bank uses reputable and SBP approved rating agencies for deriving risk weight to specific credit exposures. These are applied consistently across the Bank credit portfolio for both on-balance sheet and off-balance sheet exposures. The methodology applied for using External Credit Assessment Institutions (ECAI's) inclusive of the alignment of alpha numeric scale of each agency used with risk bucket is as per SBP guidelines as is given below:

Types of exposures and ECAI's used

Exposures	2024				
	JCR-VIS	PACRA	S & P	Fitch	Moody's

Unrated		274,872,634	51,545,290	223,327,344	225,155,520	47,092,171	178,063,349

The forms of collateral that are deemed eligible under the 'Simple Approach' to credit risk mitigation as per SBP guidelines are used by the Bank and primarily includes cash, government, equity investment in blue chip companies and rated debt securities.

The Bank applies SBP specified haircut to collateral for credit risk mitigation. Collateral management is embedded in the Bank's risk taking and risk management policy and procedures. A standard credit granting procedure exists which has been well-disseminated down the line, ensuring proper pre-sanction evaluation, adequacy of security, pre-examination of charge / control documents and monitoring of each exposure on an ongoing basis.

Collateral information is recorded diligently in the Bank's main processing systems by type of collateral, amount of collateral against relevant credit exposures. A cohesive accounting / risk management system facilitates effective collateral management for Basel II reporting.

Particulars of bank's significant on-balance sheet and off-balance sheet credit risk in various sectors are analysed as follows:

46.1.1 Lendings to financial institutions

Credit risk by public / private sector	Gross lendings		Non-performing lendings		Credit loss allowance held

46.1.7 Incorporation of forward-looking information in ECL

The assessment of Expected Credit Loss (ECL) calculation incorporates forward looking information. Forward-looking aspect introduces an extra dimension, which is often captured by relating expected losses to the macro-economic variables. The incorporation of macroeconomic factors increases the accuracy of the results produced and makes it more reliable to predict estimate future results more accurately.

The Bank uses historic and forecasted data to determine the impact of macroeconomic factors to estimate Probability of Default (PD) and Loss Given Default (LGD) etc. Further, statistical models based on historical correlation is performed to identify most significant macro-economic variable(s) that have been recognized as contributors to the default performance of the portfolio. The macro-economic variables (including KSE 100 Index, Consumer Price Index and Crude Oil Price) used in the ECL calculation are fetched from the World Bank, International Monetary Fund (IMF) and State Bank of Pakistan (SBP) database and the relevant macro-economic variables are selected based on sensitivity of each of the portfolios to specific macro-economic variables. Three macroeconomic scenarios have been developed base, best, and worst with assigned scenario probability weightings of 70%, 15%, and 15% respectively.

The Bank conducted a sensitivity analysis on macro-economic indicators which are utilized for forward-looking calculations. As of December 31, 2024, when the macro-economic indicators in the base scenario was adjusted upwards or downwards by 10%, the ECL showed the following variation:

Segment	Upwards	Downwards
Corporate	-9.59%	15.34%
SME	-5.69%	8.64%
Retail	-30.93%	37.05%

46.1.8 Sensitivity of ECL to future economic conditions

The ECL are sensitive to judgements and assumption made regarding formulation of forward-looking scenarios and how much such scenarios are incorporated into calculations. The Bank performs sensitivity analysis on the ECL recognised on each of its segments.

The table below shows the loss allowance on each segment assuming each forward-looking scenario (e.g. Base, worst and best) were weighted 100% instead of applying scenario probability across the three scenarios.

Segment	2024						
	Base			Worst		Best	
	Total ECL as per FS	Total ECL after sensitivity analysis	Increase / decrease in %	Total ECL after sensitivity analysis	Increase / decrease in %	Total ECL after sensitivity analysis	Increase / decrease in %

46.2 Market risk

Market Risk is the risk of loss in earnings and capital due to adverse changes in interest rates, foreign exchange rates, and equity prices as well as their correlations and volatilities. Market Risk performs risk measurement, monitoring, and control functions through the use of various risk procedures and tools.

The Bank has a comprehensive Board approved market risk management policy wherein the governance structure for managing market risk, methods to control market risk, measurement tools used, the market risk exposure limits and the tolerance levels have been addressed. The Bank's strategy for managing market risk is to relate the level of risk exposures to their risk appetite and the capital base. This structure is reviewed, adjusted and approved periodically.

The Board of Directors oversees the Bank's strategy for market risk exposures. The Bank's Market Risk Management governance structure consists of the Risk & Compliance Committee (BR&CC) of the Board, Investment Committee and Asset & Liability Committee (ALCO) and is assisted by the independent Market Risk function with reporting line to the Risk Management Division.

The asset and Liability Committee (ALCO) which comprises senior management oversees the financial position of the Bank, assesses the impact of the interest rate change on the Bank's investment portfolio through sensitivity analysis, duration and performs an oversight function to ensure sound asset quality, liquidity and pricing considering the current interest rate environment. The investment policy amongst other aspects covers the Bank asset allocation guidelines.

Market Risk function seeks to facilitate efficient risk/return management decisions, reduce volatility in operating performance and provide transparency into the Bank's market risk profile for senior management, the Board of Directors, and regulators.

In line with the regulatory requirements, Bank performs the impact of changes in the market factors on the Bank's earnings through regular stress testing and Internal Capital Adequacy Assessment Processes .

46.2.2 Foreign exchange risk

Foreign exchange risk is the probability of loss resulting from adverse movement in exchange rates.

The Bank's business model for foreign exchange risk is to serve trading activities of its clients in an efficient and cost effective manner. The Bank is not in the business of actively trading and market making activities and all FX exposures are backed by customers' trade transaction. A conservative risk approach backed by Bank's business strategy to work with export oriented clients gives the ability to meet its foreign exchange needs.

46.2.3 Equity position risk

Equity position risk arises due to adverse movements in equity prices. The Bank's policy is to take equity position in high dividend yield scripts. The bank as a policy does not enter into any kind of proprietary equity trades. Equity position risk of the Bank is mitigated through portfolio and scrip limits advised by the Board of Directors and are reviewed by the ALCO. The investment in equities and mutual funds is also managed within the statutory limits as prescribed by the State Bank of Pakistan.

46.2.4 Yield / interest rate risk in the banking book (IRRBB)-Basel II specific

Interest rate risk is the risk that the value of the financial instrument will fluctuate due to changes in the market interest rates. Interest rate risk is also controlled through flexible credit pricing mechanism and variable deposit rates. Duration analysis and stress testing are being carried out regularly to estimate the impact of adverse changes in the interest rates on banks' fixed income portfolio. Optimization of yield is achieved through the Bank's investment strategy which aims on attaining a balance between yield and liquidity under the strategic guidance of the ALCO. The advances and deposits of the Bank are repriced on a periodic basis based on interest rates scenario.

46.3 Operational Risk

The Bank operates in a controlled manner and operational risk is managed effectively. With the evolution of operational risk management (ORM) into a separate distinct discipline, the Bank's strategy is to further strengthen operational risk management system along new industry standards.

The Bank's ORM strategy takes guidance from Basel - II, the SBP guidelines and best industry practices.

The Bank's ORM framework includes Risk Control Self-Assessment (RCSA), Key Risk Indicators (KRIs), Operational Risk Events Management, Change Risk Assessment and Risk Assessment of Outsourcing arrangement. The ORM unit engages with Bank's business/support units and regularly collaborates in determining and reviewing the inherent operational risks, and assessment of residual risk leading to improved quality of control infrastructure and further strengthening of the processes & management information. Moreover, Bank wide policies, procedures, frameworks and product programs are also being evaluated from operational risk perspective aiming to beef up control environment.

The Bank's business continuity plan includes risk management strategies to mitigate inherent risk and prevent interruption of mission critical services caused by disaster event. The Business Continuity Management function with the support of the senior management remained extremely active during the pandemic to ensure that stakeholders remained safe, all critical services and processes of the bank remain operational and any contingency arising is dealt appropriately. The Bank's operational risk management governance has been further strengthened through the establishment of a separate operational risk and control committee.

The Bank uses Basic Indicator Approach (BIA) for regulatory capital at risk calculation for operational risk. Under BIA the capital charge for operational risk is a fixed percentage of average positive annual gross income of the Bank over the past three years. Figures of capital charge of operation risk for the year is Rs. 11,554,334 thousand (2023: Rs. 9,064,742 thousand).

46.4 Liquidity Risk

Liquidity risk is the risk that the Bank will not be able to raise funds to meet its commitments.

Governance of Liquidity risk management

The ALCO continuously monitors the liquidity position and the Bank is confident that the current liquidity buffer is sufficient to cater to any adverse movement in the maturity profile.

Liquidity and related risks are managed through standardized processes established in the Bank. The management of liquidity risk within the Bank is undertaken within limits and other parameters set by the BoD. The Bank's treasury function has the primary responsibility for assessing, monitoring and managing the Bank's liquidity and funding strategy while overall compliance is monitored and coordinated by the ALCO. Board and senior management are apprised of the Bank's liquidity profile to ensure proactive liquidity management. Treasury Middle Office being part of the risk management division is responsible for the independent identification, monitoring and analysis of intrinsic risks of treasury business. The Bank has in place duly approved Treasury investment policy and strategy along with liquidity risk tolerance / appetite levels. These are communicated at various levels so as to ensure effective liquidity management for the Bank.

Habib Metro's strong deposit base backed by continued customer confidence and holding of government securities has enabled the bank to maintain a robust liquidity profile, also depicted through a strong LCR ratio.

Funding Strategy

The Bank's liquidity model is based on "self-reliance" with an extensive branch network to diversify the Bank deposit base. Further, the Bank can also generate liquidity from Interbank market against government securities to fund its short term requirement, if any. The Bank as a policy invests significantly in highly liquid government securities that can be readily converted into cash to meet unforeseen liquidity requirements, besides yielding attractive returns.

Liquidity Risk Mitigation techniques

Various tools and techniques are used to measure and evaluate the possible liquidity risk. These include regular monitoring of different liquidity ratios against approved triggers and communication to senior management and the ALCO. Further, Bank also prepares the maturity profile of assets and liabilities to keep track of liquidity gaps over different time buckets. The Bank also ensures that statutory cash and liquidity requirements are maintained at all times.

Liquidity Stress Testing

As per the SBP BSD Circular No. 1 of 2012, Liquidity stress testing is being conducted under well-defined stress scenarios. Results of same are escalated at the senior level so as to enable the senior management to take proactive actions to avoid liquidity crunch for the Bank.

Contingency Funding Plan

Contingency Funding Plan (CFP) is a part of liquidity management framework of the Bank which defines and identifies the factors that can instigate a liquidity crisis and the actions to be taken to manage the crisis. The Bank has a comprehensive liquidity contingency funding plan in place, which highlights liquidity management strategy to be followed under stress conditions. Contingency Event Management parameters and responsibilities are also incorporated in order to tackle the liquidity crisis. Moreover, CFP highlights possible funding sources focusing on self-reliance, in case of a liquidity crisis.

10. Pool management

Pools maintained by the Bank's Islamic Banking Division (IBD), their key features and risk and reward characteristics

The Bank operates general and special pools for deposits and inter-bank funds accepted / acquired under Modaraba and Musharakah modes. Under the general deposits pools, the Bank accepts funds on Modaraba basis from depositors (Rabb-ul-Maal) where the Bank acts as Manager (Mudarib) and invests the funds in Shariah Compliant modes of financing, investments and placements. IERS and other pools (special pools) are operated for funds acquired / accepted from the State Bank of Pakistan and other banks for Islamic Export Refinance to the Bank's customers and liquidity management respectively under the Musharakah / Modaraba modes. Further, the Bank also contributes its equity and becomes the capital provider, wherein required.

Following pools are being managed by IBD:

- General pool for local and foreign currencies for depositors
- Islamic export refinance scheme musharaka pool
- Special pool

All the Modaraba based remunerative deposits shall be considered as an investment from Rabbul Maal in the pool, along with IBD's own share of equity, which is also commingled in the pool. The applications of these funds are on islamic financing and related assets, Investments, and Placements for generating profits to be shared among the depositors as per the Weightage system.

The IERS Pool caters the 'Islamic Export Refinance' requirements based on the guidelines issued by the SBP.

Profits are calculated on the basis of weightages assigned to different tiers and tenors. These weightages are announced at the beginning of the period, while considering weightages emphasis shall be given to the quantum, type and the period of risk assessed by applying following factors:

- Contracted period, nature and type of deposit / fund.
- Payment cycle of profit on such deposit / fund, i.e. monthly, quarterly or on maturity
- Magnitude of risk

Any change in profit sharing weightages of any category of deposit / fund providers shall be applicable from the next month (where applicable).

Avenues/sectors of economy/business where modaraba based deposits have been deployed.

- Agriculture, forestry, hunting and fishing
- Automobile and transportation equipment
- Chemicals and pharmaceuticals
- Electronic and electrical appliances
- Financial
- Production and transmission of energy
- Footwear and leather garments
- Textile
- Cement
- Others

Parameters used for allocation of profit, charging expenses and provisions etc.

The direct expenditure shall be charged to respective pool, while indirect expenses including the establishment cost shall be borne by Habib Metro IBD as Mudarib. The direct expenses to be charged to the pool may include depreciation of ijarah assets, insurance / takaful expenses of pool assets, stamp fee or documentation charges, brokerage fee for purchase of securities, impairment / losses due to physical damages to specific assets in pools etc. Provisions for non-performing accounts are borne by the mudarib. However, write-off of non-performing accounts is charged to the respective pool. However, this is not an exhaustive list; Habib Metro IBD pool management framework and the respective pool creation memorandum may identify and specify these and other similar expenses to be charged to the pool.

The Bank managed the following general and specific pools during the year:

General Remunerative / Specific Depositor's Pools	Profit rate and weightage announcement period	Profit rate return earned	Profit sharing ratio Mudarib Share / Fee	Profit sharing ratio Rabbul Maal Share	Mudarib share	Profit rate return distributed to remunerative deposits (savings)	Percentage of Mudarib share transferred through Hiba	Amount of Mudarib Share transferred through Hiba

CONSOLIDATED FINANCIAL STATEMENTS

INDEPENDENT AUDITOR'S REPORT

To the Members of Habib Metropolitan Bank Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the annexed consolidated financial statements of Habib Metropolitan Bank Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2024, and the consolidated profit and loss account and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policy information.

In our opinion, consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2024 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of the Chartered Accountants of Pakistan (the Code), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the Key audit matter:

S. No.	Key Audit Matter	How the matter was addressed in our audit
1	Credit loss allowance against advances and off-balance sheet items: (Refer note 10.6 & 20.1 to the consolidated financial statements)	<p>As at 31 December 2024, the Bank's Credit loss allowance against advances and off-balance sheet items amounted to Rs. 30,475 million and Rs. 354 million, respectively.</p> <p>As per the BPRD Circular No. 07 of 2023, the Bank adopted requirements of IFRS 9 along with the Application Instructions issued by State Bank of Pakistan (SBP) (hereafter referred as "application instruction of IFRS 9") from 1 January 2024 which requires the Bank to recognise Expected Credit Losses (ECL) on advances and off-balance sheet items. The estimation of ECL, involves judgement and complexity.</p> <p>Our audit procedures, amongst others, included the following:</p> <ul style="list-style-type: none">□ Performing risk assessment procedures over the credit loss allowance against advances and off-balance sheet exposure within the Bank's consolidated financial statement. As part of these risk assessment procedures, identifying the elements associated with risk of material misstatement on application including those arising from judgements over the estimation of ECL either due to, methods / models, assumptions or data.□ Assessing the design, implementation and operating effectiveness of key controls established by the Bank over measurement of ECL and provision calculated as per PR.

S. No.	Key Audit Matter	How the matter was addressed in our audit
	<p>The key areas which are subject to complexity and judgement in the estimation of ECL are:</p> <ul style="list-style-type: none"> ▫ Model estimations - judgmental modelling and assumptions are used to estimate ECL which involves determining Probability of Default (PD), Loss Given Default (LGD), and Exposure at Default (EAD). Respective model's assumptions are key driver of uncertainty, and are required in the application of these model for calculation of the ECL estimate. ▫ Economic scenarios - IFRS 9 requires the Bank to measure ECL on an unbiased forward-looking basis reflecting a range of future economic conditions. Complex Statistical methodology is applied in determining the forward-looking economic scenarios used as an input to calculate ECL, the associated scenario probability weightings, and the key economic variables that drive the scenarios. ▫ Qualitative criteria - the criteria selected to identify a SICR involves judgment and can lead to unreliable ECL recognised for certain portfolios. <p>In line with the application instructions of IFRS 9, the Bank must compare the ECL for Stage 3 with the provision determined under the Prudential Regulations (PR) issued by the SBP. The PR requires specific provisioning against the advances on the basis of time-based criteria which should be supplemented by a Bank's subjective evaluation of credit worthiness of customers. The determination of provision, therefore, involves use of management's judgement, on a case-to-case basis, taking into account factors such as the economic and business conditions, borrowers' repayment behaviors and realizability of collateral held by the Bank.</p> <p>Because of the high degree of estimation uncertainty and complexity involved in the calculation of ECL we considered the area of ECL as a key audit matter.</p>	<ul style="list-style-type: none"> ▫ We involved in-house specialist who assisted in the following: <ul style="list-style-type: none"> - Evaluating the Bank's ECL model methodologies for compliance with application instructions of IFRS 9 - Assessing the reasonableness of the Bank's methodology for determining the economic scenarios used and the probability weightings applied to them by independently validating and challenging the assumption, methodologies, and outputs of the models; - Assessing the reasonableness of macro-economic variables and economic forecasts by comparing these to external sourced data extracted; and - Performing independent testing of the Expected Credit Loss (ECL) allowance on a sample basis. ▫ Assessing the appropriateness of SICR criteria applied by the Bank by ensuring that the SICR criteria and staging methodology are consistent with the application instructions of IFRS 9. ▫ Ensuring relevance and completeness of the key inputs into the ECL calculations with their respective sub-ledgers and general ledgers. ▫ Performing testing on sample basis over key inputs into the ECL calculations with their respective source documents. ▫ Performing sensitivity analysis on the key assumption, that is probability weighted economic scenarios, to assess reasonableness and the risk of biasness by changing weights assigned to each economic scenario. ▫ In accordance with the PR, we sampled at least sixty percent of the total advances outstanding exposure and performed credit reviews through the following substantive procedures: <ul style="list-style-type: none"> - verifying repayments of advances / interest installments and checked that non-performing advances have been correctly classified and categorised based on the number of days overdue; - examining watch list accounts and, based on review of the individual facts and circumstances, discussions with management and our assessment of financial conditions of the borrowers, formed a judgement as to whether classification of these accounts as performing was appropriate; and

S. No.	Key Audit Matter	How the matter was addressed in our audit
		<ul style="list-style-type: none"> – assessing the accuracy of specific provision made against non-performing advances in accordance with the criteria prescribed under the PRs by performing recalculation. □ Assessing the appropriateness of ECL categorised as Stage 3 by performing a comparison of ECL computed, through the use of methodology and models with the provision required to be computed as required under the PR to ensure that an amount which is higher of the ECL and PR requirements is appropriately recognized for these stage 3 customers pursuant to the requirement of application instructions of IFRS 9. □ Evaluating the adequacy of the financial statement disclosures, including disclosures of key assumptions, judgements and sensitivities.

Information Other than the Unconsolidated and Consolidated Financial Statements and Auditor's Reports Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated and unconsolidated financial statements and our auditor's reports thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and the Board of Directors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan and the Companies Act, 2017 and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if,

individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Zeeshan Rashid.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2024

1. STATUS AND NATURE OF BUSINESS

The Group comprises of Habib Metropolitan Bank Limited (the holding company), Habib Metropolitan Financial Services Limited and Habib Metropolitan Modaraba Management Company (Private) Limited (wholly owned subsidiary companies) and First Habib Modaraba (managed by Habib Metropolitan Modaraba Management Company (Private) Limited) and HABIBMETRO Exchange Services (Private) Limited.

1.1 Holding Company

Habib Metropolitan Bank Limited (the Bank) was incorporated in Pakistan on 3 August 1992, as a public limited company, under the repealed Companies Ordinance, 1984 (now Companies Act, 2017) and is engaged in commercial banking and related services. Its shares are listed on the Pakistan Stock Exchange. The Bank operates 551 (2023:525) branches, including 223 (2023: 117) Islamic banking branches, an offshore branch (Karachi Export Processing Zone branch) and 1 (2023:1) sub branch in Pakistan. The Bank is a subsidiary of Habib Bank AG Zurich - Switzerland (the holding company with 51% shares in the Bank) which is incorporated in Switzerland.

1.2 Subsidiary Companies

1.2.1 Habib Metropolitan Financial Services Limited - 100% holding

Habib Metropolitan Financial Services Limited was incorporated in Pakistan on 28 September 2007 as a public limited company under the repealed Companies Ordinance, 1984 (now Companies Act, 2017). The registered office of the subsidiary company is located at 1st Floor, GPC 2, Block 5, Khekashan Clifton, Karachi. The subsidiary company is a corporate member of the Pakistan Stock Exchange Limited and engaged in equity brokerage services.

1.2.2 Habib Metropolitan Modaraba Management Company (Private) Limited - 100% holding

Habib Metropolitan Modaraba Management Company (Private) Limited (Modaraba management company) was incorporated in Pakistan on 01 June 2015 as a private limited under the Companies Ordinance, 1984 (now Companies Act, 2017) and Modaraba Companies and Modaraba (Floatation and Control) Ordinance, 1980. The registered office of the subsidiary company is located at 6th Floor, HBZ Plaza, I.I. Chundrigar Road, Karachi. The Company is the Modaraba Management Company of First Habib Modaraba.

1.2.3 First Habib Modaraba - 15.43% holding

First Habib Modaraba (FHM) is a perpetual, multi-purpose modaraba having its registered office at 6th Floor, HBZ Plaza, I.I. Chundrigar Road, Karachi. It is listed on the Pakistan Stock Exchange and engaged in the business of leasing (ijarah), Musharaka, Murabaha financing and other related business.

1.2.4 HABIBMETRO Exchange Services Limited - 100% holding

HABIBMETRO Exchange Services Limited, a wholly owned subsidiary of Habib Metropolitan Bank Limited, is incorporated in Pakistan with the objective of dealing in foreign exchange and facilitating remittances. The Company has its registered office at Ground Floor Al Manzoor Building, I.I. Chundrigar Road, Karachi.

2. BASIS OF PRESENTATION

2.1 These consolidated financial statements represent separate financial statements of the Group. The consolidated financial statements of the Bank and its subsidiary companies are being separately issued.

In accordance with the directives of the Federal Government regarding the shifting of the banking system to Islamic mode, the State Bank of Pakistan (SBP) has issued various circulars from time to time. Permissible forms of trade related modes of financing include purchase of goods by banks from their customers and immediate resale to them at appropriate profit in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these financial statements as such, but are restricted to the amount of facility actually utilized and the appropriate portion of profit thereon.

Key financial figures of the Islamic banking branches are disclosed in Annexure II to these consolidated financial statements.

- 2.2** The Group believes that there is no significant doubt on the Group's ability to continue as a going concern. Therefore, the consolidated financial statements continue to be prepared on the going concern basis.

2.3 Statement of Compliance

These consolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP), as are notified under the Companies Act, 2017;
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP) from time to time.

Whenever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of the IFRS or IFAS, requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.

- 2.3.1** SBP has deferred the applicability of International Accounting Standard (IAS) 40, 'Investment Property' for Banking Companies in Pakistan through BSD Circular Letter No. 10 dated 26 August 2002 till further instructions. Also, SECP has deferred the applicability of IFRS 7, 'Financial Instruments: Disclosures' through its notification S.R.O 411 (I) / 2008 dated 28 April 2008. Accordingly, the requirements of these standards have not been considered in the preparation of these consolidated financial statements.
- 2.3.2** The disclosures requirements of IFAS 3, 'Profit and Loss Sharing on Deposits' for Islamic Banking Institutions (IBIs) relating to annual and quarterly financial statements have been based on a format prescribed by SBP vide BPRD Circular Letter No. 02 dated 09 February 2023.
- 2.3.3** The disclosures made in these consolidated financial statements have been based on a format prescribed by SBP vide BPRD Circular No. 02 dated 09 February 2023 with further addition made vide BPRD Circular Letter No. 13 of 2024, dated 01 July 2024 and accounting and financial reporting standards as applicable in Pakistan.
- 2.3.4** IFRS 10, 'Consolidated Financial Statements' was made applicable from period beginning on or after 01 January 2015 vide S.R.O 633 (I) / 2014 dated 10 July 2014 by SECP. However, SECP has directed through S.R.O 56 (I) / 2016 dated 28 January 2016 that the requirement of consolidation under section 228 of the Companies Act, 2017 and IFRS 10, 'Consolidated Financial Statements' is not applicable in case of investment by companies in mutual funds established under trust structure.

-
- 2.3.5** The State Bank of Pakistan (SBP) adopted IFRS 9 through BPRD Circular No. 07 of 2023, dated April 13, 2023, but deferred certain requirements. Similarly, the requirement to carry unquoted securities at fair value has been deferred until January 1, 2025. Furthermore, Islamic banking institutions may follow IFAS 1 & 2 where applicable and continue existing accounting practices for other Islamic products until further instructions. Moreover, Banks have received exemption of recording income at Effective interest rate. Consequently, these deferred requirements of IFRS 9 have not been considered in the preparation of these financial statements. Furthermore, Banks are required to apply modification accounting retrospectively however it will be applied only on the loans modified on or after 1st January 2020 as allowed by SBP.

2.4 Standards, interpretations of and amendments to published approved accounting standards that are effective in the current year

As directed by SBP via BPRD Circular letter no. 7 of 2023 dated 13 April 2023 of IFRS 9, (Financial Instruments) is effective in Pakistan for periods beginning on or after January 1, 2024. In addition, due to the application of IFRS 9, SBP vide BPRD Circular No. 02 dated February 9, 2023, has also amended the format of the annual financial statements. Details regarding the aforementioned adoption and amendment, including the impact thereof, are discussed in more detail in note 4.1 to these consolidated financial statements.

Except for the above, there are certain other interpretations and amendments that are mandatory for the Group's accounting periods beginning January 1, 2024. However, these are not considered to be relevant or do not have any significant effect on the Group's operations and therefore have not been detailed in these consolidated financial statements.

2.5 Standards, interpretations of and amendments to existing accounting and reporting standards that are not yet effective

- 2.5.1** Certain requirements of IFRS 9 were deferred by SBP and they are disclosed in the statement of compliance.
- 2.5.2** Furthermore, following standards, interpretations of and amendments to approved accounting and reporting standards will be effective from the dates (for the accounting periods) as stated below against the respective standards, interpretations of and amendments to:

Standards and amendments	Effective date (annual periods beginning on or after)
Lack of Exchangeability - Amendments to IAS 21	1 January 2025
IFRS S1 - General Requirements for Disclosure of Sustainability - related Financial Information	1 January 2025
IFRS S2 - Climate - related Disclosures	1 January 2025
Amendments to the Classification and Measurement of Financial Instruments - Amendments to IFRS 9 & IFRS 7	1 January 2025
Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments to IFRS 10 and IAS 28	Not yet finalized

The amendments in IFRS 9 will have a significant impact on the Group's financial statements while the management of the Group is assessing the impact of the changes in the other mentioned standards on the Group's financial statements.

2.6 Critical Accounting Estimates and Judgments

The preparation of these consolidated financial statements in conformity with accounting and reporting standards as applicable in Pakistan requires the use of certain accounting estimates. It also requires the management to exercise judgement in the process of applying the Group's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances. These estimates affect the reported amounts of assets, liabilities, income, and expenses. The areas where various assumptions and estimates are significant to the Group's consolidated financial statements or where judgement was exercised in the application of accounting policies are as follows:

- i) Classification, Valuations and impairment of investments (note 4.4)
- ii) Provision against non-performing loans and advances (note 4.5.1)
- iii) Depreciation (note 4.6.2) and Amortisation (note 4.7)
- iv) Valuation of Property and equipment (4.6.2) and Non-banking assets acquired in satisfaction of claims (note 4.8)
- v) Taxation (note 4.11)
- vi) Defined benefit plan (note 4.13.1)
- vii) Compensated Absences (note 4.13.2)
- viii) Right-of-use assets (note 4.6.3) and related lease liability (note 4.14)
- ix) Impairment of non-financial assets (excluding deferred tax asset) (note 4.21)

Rewards to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period, or in the period of revision and future periods, if the revision affects both current and future periods.

3. BASIS OF MEASUREMENT

Accounting convention

These consolidated financial statements have been prepared under the historical cost convention except for certain fixed assets and non-banking assets acquired in satisfaction of claims which have been carried at evaluated amounts, certain investments and derivative contracts which have been marked to market and are carried at fair value, obligations in respect of staff retirement benefits and lease liabilities which have been carried at present value and right-of-use assets which are initially measured at an amount equal to the corresponding lease liabilities (adjusted for any lease payments and costs) and depreciated over the respective lease terms.

4. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies adopted in the preparation of these consolidated financial statements are consistent with those followed in the preparation of the consolidated financial statements for the year ended December 31, 2023, except as disclosed in note 4.1 below.

4.1 Changes in accounting policies

4.1.1 Revised format of consolidated financial statements

SBP through its BPRD Circular No. 02 dated February 9, 2023, has amended the format of annual financial statements of banks. All banks are required to prepare their annual financial statements on the revised format effective from accounting year starting from January 1, 2024. Accordingly, the Group has prepared these annual financial statements on the new format prescribed by the SBP. The adoption of the new format contains additional

disclosures and certain changes in the financial statements' presentation, primarily due to the implementation of IFRS 9 as applicable in Pakistan. However, the corresponding figures continue to be classified and disclosed in accordance with the previous financial accounting and reporting framework.

Adoption of revised financial statements format has also resulted in following material changes (due to which the corresponding presentations have also been changed):

- Right-of-use-assets (note 12) amounting to Rs 8,654,445 thousands (December 31, 2023: Rs 7,625,010 thousands) which were previously shown as part of property and equipment (note 11) are now shown separately on the Consolidated Statement of Financial Position.
- Lease liabilities (note 18) amounting to Rs 10,519,685 thousands (December 31, 2023: Rs 9,086,176 thousands) which were previously shown as part of other liabilities (note 20) are now shown separately on the Consolidated Statement of Financial Position.

4.1.2 IFRS 9 - Financial Instruments

During the period, as directed by the SBP vide its BPRD Circular No. 07 of 2023 dated April 13, 2023, IFRS 9: 'Financial Instruments' (the Standard) became applicable to the Group.

BPRD Circular No. 03 of 2022 issued by SBP provides detailed instructions on implementation of IFRS 9 (the Application Instructions) for ensuring smooth and consistent implementation of the standard across banks. Furthermore, SBP wide its BPRD Circular Letter No. 16 of 2024 and SBP wide BPRD Circular Letter No. 01 of 2025 has made further amendments in the application instructions issued. All deferments made through these amendments are disclosed in statement of compliance.

The standard addresses recognition, classification, measurement and derecognition of financial assets and financial liabilities. The standard has also introduced a new impairment model for financial assets which requires recognition of impairment charge based on 'expected credit losses' (ECL) approach rather than 'incurred credit losses' approach as previously followed. The ECL has impact on all the assets of the Group which are exposed to credit risk.

The Group has adopted IFRS 9 in accordance with the Application Instructions from January 1, 2024, using the modified retrospective approach and has not restated comparatives for the 2023 reporting period and the differences in carrying amount of financial assets and financial liabilities resulting from the adoption of IFRS 9 are recognised in retained earnings and reserves as at 1 January 2024, as permitted under the specific transitional provisions in the Standard. Accordingly, the information presented for 2023 does not reflect the requirements of IFRS 9 and therefore is not comparable to the information presented for 2024 under IFRS 9.

4.1.2.1 Impact on the statement of financial position

The effect of this change in accounting policy is as follows:

Financial Asset / Liabilities	Note	Classification under IFRS 9	Balances as of December 31, 2023 (e)	Impact due to						Taxation	Total impact - net of tax	Balances as of January 01, 2024
				Change in classification	Remeasurements	Recognition of expected credit loss (ECL)	Reversal of Provision held	Total Impact	Rupees in '000			
Assets												
Cash and balances with treasury banks		Amortised cost	91,467,062	-	-	(2,486)	-	(2,486)	-	(2,486)	91,464,576

- a) Certain non-trading debt securities are held by the Bank in separate portfolios and are managed with an objective of realising cash flows through sale. The Bank primarily focuses on fair value information and uses that information to assess the securities' performance and to make decisions. In addition, certain asset-backed securities have contractual cash flows that are not SPPI. These assets are therefore measured at FVTPL under IFRS 9.
- b) Certain debt securities are held by the Bank in separate portfolios to meet everyday liquidity needs. The Bank seeks to minimise the costs of managing these liquidity needs and therefore actively manages the return on the portfolio. That return consists of collecting contractual payments as well as gains and losses from the sale of financial assets. The investment strategy often results in sales activity that is significant in value. The Bank considers that under IFRS 9 these securities are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. Moreover, certain equity investments held by the Bank for strategic purposes have been designated under IFRS 9 as at FVOCI.
- c) Corporate debt securities that were previously classified as held-to-maturity are now classified at amortised cost. The Bank intends to hold the assets to maturity to collect contractual cash flows and these cash flows consist solely of payments of principal and interest on the principal amount outstanding. (HTM to AC).
- d) Advances except for Temporary Economic Refinance Facility (TERF), staff loans and modified loans are stated at cost, whereas TERF scheme and staff loans are stated at amortised cost.
- e) The above balances includes the balance of subsidiaries on which IFRS 9 became applicable in prior years. Accordingly, the above impact only includes the impact on the Bank balances only.

4.1.2.2 Impact on regulatory capital

The introduction of IFRS 9 has resulted in reduction in regulatory capital of The Groups, which has reduced their lending capacity and ability to support their clients. In order to mitigate the impact of ECL models on capital, SBP has determined that it may be appropriate for The Groups to introduce a transitional arrangement for the impact on regulatory capital from the application of ECL accounting. Annexure B of the 'Application Instructions' issued by SBP has detailed the transitional arrangement.

The transitional arrangement applies only to provisions for stage 1 and stage 2 financial assets. The transitional arrangement must adjust CET1 capital. Where there is a reduction in CET1 capital due to new provisions, net of tax effect, upon adoption of an ECL accounting model, the decline in CET1 capital (the "transitional adjustment amount") must be partially included (i.e., added back) to CET1 capital over the "transition period" of five years.

Moreover, the SBP has allowed to adjust the amount of Stage 1 and Stage 2 provisions in Tier 2 Capital that have not been added back to CET 1 and vice versa as per Annexure-A of BPRD Circular no 16 of 2024 dated July 29, 2024.

Had IFRS 9 not been applied then CAR would have been higher by 18 bps from 18.88% to 19.06%.

4.1.2.3 Classification and measurement

Under the new standard, classification and measurement of financial assets depends on how these are managed based on business model and their contractual cash flow characteristics. Financial assets that do not meet the Solely Payment of Principal and Interest (SPPI) criteria are required to be measured at fair value through profit and loss (FVTPL) regardless of the business model in which they are held.

Recognition and initial measurement

Debt securities issued are initially recorded when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at transaction price. The fair value of a financial asset on initial recognition is generally its transaction price. If The Group determines that the fair value on initial recognition differs from the transaction price then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently, that difference is recognised in consolidated profit and loss account on an appropriate basis over the life of the asset but no later than when the valuation is wholly supported by observable market data, or the transaction is closed out. Advances other than Temporary Economic Refinance Facility (TERF), staff loans and modified loans are initially measured at transaction price, i.e., the amount of loan disbursed at disbursement date.

Staff loans and Temporary Economic Refinance Facility (TERF) loans are recognised at fair value at the time of disbursement. The fair value is determined by discounting the expected future cash flows using the prevailing market rates for instruments. The difference between the disbursed amount and the fair value at initial recognition is recorded as "Deferred staff loan impact" for Staff loans under other assets and "Deferred grant income - TERF" for TERF loans under other liabilities.

Classification

Financial Assets

On initial recognition, a financial asset is classified as either amortised cost, FVOCI, or FVTPL where as Advances except for staff financing, the Temporary Economic Refinance Facility (TERF), and modified financing, are carried at cost.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI.

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cashflows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI.

On initial recognition of an equity investment that is not held for trading, The Group may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

Advances are carried at cost, net of expected credit loss allowances, except for Temporary Economic Refinance Facility (TERF), staff loans and modified loans which are measured at amortised cost.

Financial assets are not reclassified subsequent to their initial recognition unless The Group changes its business models for managing financial assets, in which cases all affected financial assets are reclassified on the first day of the first reporting period following changes in the business model.

IFRS 9 allows entities to irrevocably designate, at initial recognition, a financial asset as measured at FVTPL if doing so eliminates or significantly reduces any 'accounting mismatch' that would otherwise arise from measuring assets or liabilities or recognizing gains and losses on them on different basis. The SBP instructions state that banks may apply the fair value option if, in addition to the IFRS 9 criterion, (a) it is consistent with a documented risk management strategy, and (b) fair values are reliable at inception and throughout life of the instrument.

Under IFRS 9, derivatives embedded in contracts where the host is a financial asset in scope of the standard are never bifurcated. Instead, the whole hybrid instrument is assessed for classification.

Financial Liabilities

Financial liabilities are either classified as fair value through profit and loss account (FVTPL), when they are held for trading purposes, or at amortised cost. Financial liabilities classified as FVTPL are measured at fair value and all the fair value changes are recognised in the consolidated profit and loss account. Financial liabilities classified at amortised cost are initially recorded at their fair value and subsequently measured using the effective interest rate method. Markup expense and foreign exchange gain and losses are recognised in consolidated profit and loss account. Any gain or loss on derecognition is also recognised in consolidated profit and loss account.

4.1.2.4 Business model assessment

A financial asset is classified as either Held to collect, Held to collect and sale and Others based on Business model assessment. The Group makes an assessment of the objective of a business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to the management. The assessment requires judgement based on facts and circumstances on the date of assessment. The assessment considers the policies and objectives for the portfolio of financial assets, risk affecting, performance evaluation, business manager's compensation and historical sales information.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

4.1.2.5 Assessment of whether contractual cash flows are solely payments of principal and interest (SPPI)

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as interest margin.

In assessing whether the contractual cash flows are SPPI, The Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, The Group considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit The Group's claim to cash flows from specified assets (e.g. non-recourse loans); and
- features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

A prepayment feature aligns with SPPI if it mainly represents unpaid principal and profit, including reasonable compensation for early termination.

4.1.2.6 Subsequent measurement

The following accounting policies apply to the subsequent measurement of financial assets:

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any markup or dividend income, are recognised in consolidated profit and loss account.

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Markup, foreign exchange gains and losses and impairment are recognised in the consolidated profit and loss account.

Debt investments at FVOCI

These assets are subsequently measured at fair value and is assessed for impairment under the new ECL model. Markup income is calculated using the effective interest method and includes amortisation of premiums and accretion of discount, foreign exchange gains and losses and

impairment are recognised in the consolidated profit and loss account. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to the consolidated profit and loss account.

Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognised as income in profit and loss account unless the dividend clearly represents a recovery of part of the cost of the investment, in which case they are adjusted from the carrying value of investment. Other net gains and losses are recognised in OCI and are never reclassified to profit and loss account.

Advances

Advances are carried at cost, net of expected credit loss allowances, except for Temporary Economic Refinance Facility (TERF) and staff financing, modified financing which are carried at amortised cost, net of expected credit loss allowances.

4.1.2.7 Amortised cost and gross carrying amount

The 'amortised cost' of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any expected credit loss allowance (or impairment allowance before 1 January 2024).

The 'gross carrying amount of a financial asset' is the amortised cost of a financial asset before adjusting for any expected credit loss allowance.

4.1.2.8 Calculation of markup income and expense

Income on financial assets, comprising performing advances and debt securities and other financial assets, of the domestic operations is recognised on a time proportion basis as per the terms of the contract. However, where debt securities, classified as investments in the financial statements, are purchased at premium or discount, such premium / discount including the transaction cost is amortised through the consolidated Profit and Loss account over the remaining maturity of the debt security using the effective interest rate method. Similarly, under the local regulatory requirement, income recoverable on classified advances and investments (debt securities), is recognised on a receipt basis.

Income on rescheduled / restructured advances and investments is recognised as permitted by SBP regulations.

Markup expense on financial liabilities (comprising deposits, subordinated debts, and borrowings) is recognised on an accrual basis in the period in which it is incurred, based on their contractual rates.

Islamic Banking Institutions (IBIs) are allowed to follow Islamic Financial Accounting Standards (IFAS) 1 & 2 where applicable and continue the existing accounting methodology on other Islamic products until issuance of further instruction in this regard.

4.1.2.9 Derecognition

The Group derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire; or

-
- it transfers the rights to receive the contractual cash flows in a transaction in which either:
 - substantially all of the risks and rewards of ownership of the financial asset are transferred; or
 - The Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised), and the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in OCI is recognised in the consolidated profit and loss account, except that in case of the derecognition of equity securities held at FVOCI, cumulative gains or losses are transferred to unappropriated profit.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

4.1.2.10 Modification

Financial assets

The Group sometimes renegotiates or otherwise modifies the contractual cash flows of to its customers. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised and a new financial asset is recognised at fair value plus any eligible transaction costs. Any fees received as part of the modification are accounted for as follows:

- fees that are considered in determining the fair value of the new asset and fees that represent reimbursement of eligible transaction costs are included in the initial measurement of the asset; and
- other fees are included in profit and loss account as part of the gain or loss on derecognition.

If cash flows are modified when the borrower is in financial difficulties, then the objective of the modification is usually to maximise recovery of the original contractual terms rather than to originate a new asset with substantially different terms. If The Group plans to modify a financial asset in a way that would result in forgiveness of cash flows, then it first considers whether a portion of the asset should be written off before the modification takes place. This approach impacts the result of the quantitative evaluation and means that the derecognition criteria are not usually met in such cases.

Where derecognition of financial assets is appropriate, the newly recognised residual loans are assessed to determine whether the assets should be classified as purchased or originated credit-impaired assets (POCI).

If the modification of a financial asset measured at amortised cost or FVOCI does not result in derecognition of the financial asset, then The Group first recalculates the gross carrying amount of the financial asset using the original effective interest rate of the asset and recognise the resulting adjustment as a modification gain or loss in profit and loss account. Any costs or fees incurred, and fees received as part of the modification adjust the gross carrying amount of the modified financial asset and are amortised over the remaining term of the modified financial asset.

If such a modification is carried out because of financial difficulties of the borrower then the gain or loss is presented together with impairment losses. In other cases, it is presented as markup income calculated using the effective interest rate method.

Financial liabilities

The Group derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability recognised and consideration paid is recognised in profit and loss account. Consideration paid includes non-financial assets transferred, if any, and the assumption of liabilities, including the new modified financial liability.

If the modification of a financial liability is not accounted for as derecognition, then the amortised cost of the liability is recalculated by discounting the modified cash flows at the original effective interest rate and the resulting gain or loss is recognised in profit and loss account. For floating-rate financial liabilities, the original effective interest rate used to calculate the modification gain or loss is adjusted to reflect current market terms at the time of the modification. Any costs and fees incurred are recognised as an adjustment to the carrying amount of the liability and amortised over the remaining term of the modified financial liability by re-computing the effective interest rate on the instrument.

4.1.2.11 Impairment

The impairment requirements apply to financial assets measured at amortised cost and FVOCI (other than equity instruments), lease receivables, and certain loan commitments and financial guarantee contracts. At initial recognition, an impairment allowance (or provision in the case of commitments and guarantees) is required for expected credit losses ('ECL') resulting from default events that are possible within the next 12 months ('12-month ECL'). In the event of a significant increase in credit risk, a provision is required for ECL resulting from all possible default events over the expected life of the financial instrument ('lifetime ECL').

Restructured financial assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognised and ECL are measured as follows:

- If the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- If the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective interest rate of the existing financial asset.

Financial assets where 12-month ECL is recognised are in 'Stage 1'; financial assets that are considered to have experienced a significant increase in credit risk are in 'Stage 2'; and financial assets for which there is objective evidence of impairment, so are considered to be in default or otherwise credit impaired, are in 'Stage 3'.

Non-Performing financial assets

At each reporting date, The Group assesses whether financial assets carried at amortised cost and debt financial assets carried at FVOCI, and finance lease receivables are credit_impaired (referred to as 'Stage 3 financial assets'). A financial asset is 'non-performing' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the restructuring of a loan by The Group on terms that The Group would not consider otherwise;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

A loan that has been renegotiated due to a deterioration in the borrower's condition is usually considered to be credit-impaired unless there is evidence that the risk of not receiving contractual cash flows has reduced significantly and there are no other indicators of impairment. In addition, a retail loan that is overdue for 90 days or more is considered credit-impaired.

Under the IFRS 9 Application instructions, The Group is not required to compute ECL on Government Securities and on Government guaranteed credit exposure in local currency. The Group is required to calculate ECL on its non-performing financial assets as higher of provision under Prudential Regulations (PR) and ECL under IFRS 9.

For Stage 3, The Group calculates the ECL against corporate, commercial & SME loan portfolios as higher of PR and ECL under IFRS 9 at borrower / facility level, whereas against the retail borrowers The Group calculates the ECL at higher of PR and ECL under IFRS 9 at segment/product basis as instructed under Annexure-A of BPRD Circular no 16 of 2024.

ECL is the probability weighted estimate of expected cash shortfalls which is determined by multiplying the probability of default (PD) with the loss given default (LGD) with the expected exposure at the time of default (EAD). Based on the requirements of IFRS 9 and Application Instructions, The Group has performed an ECL assessment considering the following key elements:

– Probability of default (PD):

The Probability of Default represents the likelihood that a counterparty will default within a specific timeframe, such as 12 months (12-month ECL for Stage 1) or the lifetime of the financial instrument (lifetime ECL for Stage 2). The Group calculates PD on advances which is further bifurcated into retail and non retail portfolios. Following is the methodology through which non retail and retail PD are calculated:

– Non-Retail PD:

The Group utilizes its internal risk rating system to assign Obligor Risk Ratings (ORR) to borrowers. The Group has used a statistical method called Markov Chain, also known as Transition Matrices/Migration matrices, for the estimation of TTC PDs associated with each of its Obligor Risk Rating (ORR).

– Retail PD:

The Group has used market benchmark PDs for retail segments. The Group has recently started developing its retail portfolio and does not have sufficient data to develop PD and LGD Models. In the absence of required data and after discussing with consultants, management has decided to use the market benchmark PDs and BASEL prescribed 45% LGD for retail segment. Moreover, the Group has used its internal data to develop the TTC- PD models using Pluto and Tasche technique for the calculation of Expected Credit Loss (ECL) on Investments, Balances with other banks (BWOB) and Lending to FIs. TTC-PD were converted into PiT PDs by applying Macro Economic variable with Vasicek approach.

– Incorporation of forward-looking information:

Forward looking information is incorporated to convert TTC PD to Point in Time Probability of Default (PiT) PD. The Group has estimated the PiT PDs using the Vasicek framework in its PD Model. For this purpose, The Group incorporated 5-year forecasts obtained from the Macro Economic Variable (MEV) database of the International Monetary Fund (IMF). The MEVs used in the Model are the Consumer Price Index (CPI) and Gross Domestic Product (GDP) etc.

– Exposure at Default (EAD):

The Group has defined EAD for financial assets carried at an amortised cost equal to principal plus accrued markup at the default date. Each repayment date is assumed to be a default point in the model, and the ECL is calculated on the EAD at each repayment date and discounted at the effective interest rate to arrive at the discounted ECL under three scenarios, i.e, base, worst, and best-case scenarios. The unutilized exposures are multiplied with Credit Conversion Factors (CCFs) to compute the EAD of revolving facilities. For non revolving facilities, CCF is only applied to unutilized exposures when The Group doesn't have unconditional right to revoke the undrawn portion. Additionally, cash and cash equivalent collateral The Group holds against non-retail facilities are adjusted from the EAD, and ECL is calculated on the net amount. The Group has developed CCF models for its revolving and non revolving facilities based on the historical utilization of credit limits which are currently being applied to the revolving portfolio.

– Loss Given Default:

Loss Given Default (LGD) represents the forecasted economic loss in the event of default, calculated independently of credit quality and applied consistently across all stages. LGD is determined as the percentage of loss expected in case of borrower default, incorporating historical data, cash recovery experience (including settlements), costs and time of recoveries, collateral realizations, and recovery projections. For non-collateralized portfolios, The Group estimates LGD based on actual recoveries from defaulted accounts over a historical period of 8 years prior to the assessment date. Forward-looking information is incorporated into the LGD calculation to reflect the impact of macroeconomic factors on the expected recoveries. The Group uses a statistical approach, specifically the Jacob Frye model, to estimate Point-in-Time (PiT) LGD. This model accounts for forward-looking information, including macroeconomic variables, to estimate LGD for all credit segments.

Purchase or Originated Credit Impaired Financial Assets

Purchase or Originated Credit Impaired (POCI) financial assets are assets that are credit-impaired on initial recognition. Expected credit loss for these assets is not recognised in a separate loss provision on initial recognition, as the lifetime expected credit loss is inherent within the gross carrying amount of the instruments. Consequently, POCI assets do not carry an impairment allowance on initial recognition. The amount recognised as a loss allowance after initial recognition is equal to the changes in lifetime ECL since the initial recognition of the asset.

Presentation of allowance for Expected Credit Loss in the Statement of Financial Position

Loss allowances for ECL are presented in the Consolidated Statement of Financial Position as follows:

- financial assets measured at amortised cost: as a deduction from the gross carrying amount of the assets.
- loan commitments and financial guarantee contracts: as a provision in Other Assets / Liabilities.

-
- where a financial instrument includes both a drawn and an undrawn component, and The Group does not identify the ECL on the loan commitment component separately from those on the drawn component and instead presents a combined loss allowance for both components. The combined amount is presented as a deduction from the gross carrying amount of the drawn component. Any excess of the loss allowance over the gross amount of the drawn component is presented as a provision; and
 - debt instruments measured at FVOCI: no loss allowance is recognised in the statement of financial position because the carrying amount of these assets is their fair value. However, the loss allowance is disclosed and is recognised in retained earnings.

4.1.2.12 Significant increase in credit risk (SICR)

A SICR is assessed in the context of an increase in the risk of a default occurring over the life of the financial instrument when compared to that expected at the time of initial recognition. It is not assessed in the context of an increase in the ECL. The Group used several qualitative and quantitative measures in assessing SICR. Quantitative measures relate to deterioration of Obligor Risk Ratings (ORR) or where principal and / or markup payments are 60 & 120 days past due for advances and trade bills respectively. Qualitative factors include the Watchlist and restructured/rescheduled.

As required by the Application Instructions, financial assets may be reclassified out of stage 3 if they meet the requirements of PR issued by SBP. Financial assets in stage 2 may be reclassified to stage 1 if the conditions that led to a SICR no longer apply. However, a minimum period of 06 months from the end of downgrade reason is required before any facility is moved back to Stage 1 from Stage 2. For a facility to move back from Stage 3 to Stage 2, it should meet the criteria defined under the respective Prudential Regulations for declassification of account / facility and after observing of 03 months cooling off period. An exposure cannot be upgraded from Stage 3 to Stage 1 directly and should be upgraded to Stage 2 initially.

IFRS 9 includes a rebuttable presumption that a default does not occur later than 90 days past due and it also presumes that there is SICR if credit exposure is more than 30 days past due. In order to bring consistency, SBP has allowed the backstop to the rebuttable presumption of days past due of credit portfolio against a specific credit facility and its stage allocation under IFRS 9 as mentioned in Annexure-C of BPRD Circular no 3 of 2022. However, banks are free to choose more stringent days past due criteria.

4.1.2.13 Write-offs

Financial assets are written off (either partially or in full) when there is no reasonable expectation of recovering a financial asset in its entirety or a portion thereof. This is generally the case when The Group determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. This assessment is carried out at the individual asset level.

Recoveries of amounts previously written off are included in 'impairment losses on financial instruments' in the statement of profit and loss account and OCI.

Financial assets that are written off could still be subject to enforcement activities in order to comply with The Group's procedures for recovery of amounts due.

4.1.2.14 Off-setting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, The Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

4.1.2.15 Undrawn loan commitments and guarantees

Financial guarantees' are contracts that require The Group to make specified payments to reimburse the holder for a loss that it incurs because a specified debtor fails to make payment when it is due in accordance with the terms of a debt instrument.'Loan commitments' are firm commitments to provide credit under pre-specified terms and conditions.

When estimating lifetime ECL for undrawn loan commitments, The Group estimates the expected portion of the loan commitment that will be drawn down over its expected life. The ECL is then based on the present value of the expected cash flows if the loans are drawn down, based on a probability-weighting of the three scenarios.

4.1.2.16 Governance, ownership and responsibilities

The Group has adopted a governance framework requiring the Risk, Finance, Operations, Internal Audit and IT functions to effectively work together to ensure input from all business lines. IFRS 9 requires robust credit risk models that can predict Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD).

The Group's Risk Management Division has developed Models/ methodologies for PD, LGD and Credit Conversion Factors (CCF). These models are validated on annual basis considering the following aspects:

- Quantitative Validation: Expected credit loss (ECL) model design validation, data quality validation and benchmarking with external best practices.
- Quantitative Validation: Calibration testing which ensures the accuracy of the observed PDs.

The Risk Department defines the staging criteria for the new impairment model and take ownership of all models, methodologies and the ECL calculation approach. Additionally, the Risk department also take the ownership of the impact of ECL on bank's capital.

Risk Management division of the Group is responsible for the implementation of IFRS 9. Further the Group has engaged a consultant for the calculation of ECL on a quarterly basis. The same is provided to the Risk Management Division which reviews and assesses the ECL and submits to the same to Finance Division for financial reporting requirements.

Finance Division then uses the financial information for preparing the financial statements and related financial ratios.

Risk Management Division prepares and submits the analysis to board risk committee on a quarterly basis. Further financial statements prepared on the basis of IFRS-9 is then submitted to the Board Audit Committee on a quarterly basis.

The IT Department provides support to all the stakeholders for preparing and extracting the data required for the risk parameters modelling. IT department also provides support to project owners for system development and upgrades.

4.2 Cash and cash equivalents

For the purpose of the consolidated cash flow statement, cash and cash equivalents include cash and balances with treasury banks, balances with other banks and national prize bonds less overdrawn nostro balances.

4.3 Lendings to / borrowings from financial institutions

The Group enters into transactions of borrowing (repo) from and lending (reverse repo) to financial institutions, at contracted rates for a specified period of time. These are recorded as under:

Purchase under resale agreement (reverse repo)

Securities purchased with a corresponding commitment to resell at a specified future date (reverse repos) are not recognised in these consolidated statement of financial position and instead amounts paid under these arrangements are included in lendings to financial institutions. The difference between purchase and resale price is accrued as markup income on a pro-rata over the term of the agreement.

Sale under repurchase agreement (repo)

Securities sold with a simultaneous commitment to repurchase at a specified future date (repos) continue to be recognised in these consolidated statement of financial position and are measured in accordance with accounting policies for investments and amount received under these agreements are recorded as repurchase agreement borrowings. The difference between sale and repurchase price is accrued as markup expense on a pro-rata basis over the term of the repo agreement.

Bai muajjal

In Bai Muajjal, The Group sells sukuk on credit to other financial institutions. The sale / purchase price is agreed at the time of sale and such proceeds are received at the end of the credit agreed period. The sukuk sold under bai muajjal transaction are derecognised on the date of disposal. Receivable against such sale is recognised at the agreed sale price. The difference between the sale price and the carrying value on the date of disposal is taken to income on straight line basis.

Musharaka / Modaraba

In Musharaka / Modaraba, The Group invests in the Shariah compliant business pools of the financial institutions at the agreed profit sharing ratio. Loss, if any will be shared between the parties as per the investment.

Musharaka from the SBP under Islamic Export Refinance Scheme (IERS)

Under IERS, The Group accepts funds from the SBP under Shirkat-ul-aqd to constitute a pool for investment in islamic export refinance portfolio of The Group under the guidelines issued by the SBP. The profit of the pool is shared as per the agreed weightages between the partners.

Modaraba investment from the SBP under various long term Islamic refinance schemes

Under various long term Islamic refinance schemes of the SBP, The Group accepts funds from the SBP which are received on Modaraba basis for investment in the pool of The Group. The profit of the pool is shared as per the agreed profit sharing ratio of the pool and the weightages assigned to these investments.

Certificates of Investment (Musharakah)

Certificates of Investment (COI's) are carried at principal amount in these consolidated financial statements. FHM and HMM invest the amount received from COI holders on the basis of full participation in the profit and loss. The profit is allocated between COI holders and certificate holders as per agreed ratio. Certificate holder's share of profit is recognised as financial expense in the period of its occurrence. On the basis of projected rate of profit, profit on musharakah finance

is determined. After determination of the actual rate, the effect of any difference between actual and projected rate of profit is accounted for, at the end of each quarter.

4.4 Investments (Applicable before 01 January 2024)

4.4.1 Investments in subsidiaries are stated at cost less provision for impairment, if any.

4.4.2 Other investments are classified as follows:

Held-for-trading

These are securities, which are either acquired for generating profit from short-term fluctuation in market prices, interest rate movements, dealers margin or are securities included in a portfolio in which a pattern of short-term trading exists.

Held-to-maturity

These are securities with fixed or determinable payments and fixed maturities that are held with the positive intention and ability to hold till maturity.

Bai Muajjal transactions undertaken with the Government of Pakistan are disclosed as investments.

Available-for-sale

These are investments that do not fall under the held-for-trading or held-to-maturity categories.

4.4.3 Initial Measurement

Investments (other than held-for-trading) include transaction costs associated with the investments. In case of held-for-trading transaction costs are charged to profit and loss account when incurred.

All "regular way" purchases and sales of investments are recognised on the trade date, i.e., the date that the Group commits the purchase or sell the asset. Regular way purchases or sales are purchases or sales of investments that require delivery of assets within the time frame generally established by regulation or convention in the market place.

Subsequent Measurement

Held-for-trading

Investments classified as held-for-trading are subsequently measured at fair value. Any unrealised surplus / deficit arising on the revaluation of the Group's held-for-trading investment portfolio is taken to the profit and loss account.

Held-to-maturity

Investment securities carried till their maturity are carried at amortised cost.

Available-for-sale

Quoted securities classified as available-for-sale are subsequently measured at fair value. Any unrealised surplus / deficit arising on revaluation of quoted securities classified as available for sale is kept in a separate account shown in equity. Surplus / deficit arising on these securities is taken to the profit and loss account when actually realised upon disposal or when the investment is considered to be impaired. Unquoted equity securities are valued at the lower of cost and break-up value. Break-up value of these securities is calculated as per the latest available audited financial statements. Investments in other unquoted securities are valued at cost less impairment losses, if any.

Impairment

Provision for diminution in the value of term finance certificates and sukuk certificates are made as prescribed under Prudential Regulation issued by the SBP.

Provision for impairment in the value of available-for-sale and held-to-maturity securities (other than Federal Government securities, term finance certificates and sukuk certificates) is made after considering objective evidence of impairment, if any, in their value (as a result of one or more events that may have an impact on the estimated future cash flows of the investments). A significant or prolonged decline in the fair value of an equity investment below its cost is also considered an objective evidence of impairment. Impairment losses are taken to profit and loss account.

4.5 Advances including net investment in finance lease and ijarah arrangements (Applicable before 01 January 2024)

4.5.1 Loans and advances

Loans and advances and net investments in finance lease are stated net of provision for loan losses against non-performing advances. Provision for loan losses is made in accordance with the Prudential Regulations issued by the SBP and the SECP and is charged to profit and loss account. The Group also maintains general provision in addition to the requirements of the Prudential Regulations on the basis of management's assessment of credit risk characteristics and general banking risk such as nature of credit, collateral type, industry sector and other relevant factors. Advances are written-off in line with the Group's policy when there are no realistic prospects of recovery.

4.5.2 Finance lease receivables

Leases where the holding company transfers substantially all the risks and rewards incidental to ownership of an asset to the lessee are classified as finance lease. A receivable is recognised at an amount equal to the present value of the minimum lease payments including guaranteed residual value, if any. Finance lease receivables are included in advances to the customer.

4.5.3 Islamic finance and related assets

Ijarah

Ijarah assets are stated at cost less depreciation and are disclosed as part of 'Islamic financing and related assets'. Rental received / receivable on Ijarah are recorded as income / revenue. The Group charges depreciation from the date of recognition of Ijarah of respective assets to Lessee (mustajir). Ijarah assets are depreciated over the

period of Ijarah using the straight line method. Ijarah rentals outstanding are disclosed in 'other assets' on these consolidated statement of financial position at amortised cost.

Diminishing Musharaka

Under diminishing musharaka based financing, the Group enters into a musharaka based on shirkat-ul-milk for financing an agreed share of fixed asset (e.g. house, land, plant or machinery) with its customers and enters into rental payment agreement for the utilization of the Group's musharaka share by the customer. The Group receives periodic payments from its customers partly for renting its portion of the assets and partly for gradual transfer / sale of its ownership. The rental payments are recognised in profit and loss account whereas transfer / sale payments are applied towards reducing the outstanding principal.

Running Musharaka

Under Running musharaka, the Group enters into financing with the customer based on Shirkatul Aqd in the customer's operating business. Under this mechanism the customer can withdraw and return funds to the Group subject to his Running musharaka Financing limit during the Musharaka period. At the end of each quarter / half year the customer pays the provisional profit as per the desired profit rate which is subject to final settlement based on the relevant quarterly / half yearly / annual accounts of the customer.

Istisna

Under istisna financing, the holding company places an order to purchase some specific goods / commodities from its customers to be manufactured / delivered to the holding company within an agreed time. The goods are then sold and the amount financed along with profit is paid back to the holding company.

Al-Bai

The product is based on the Islamic mode "musawamah". Under this financing, the holding company purchases the goods from its customers on cash payment basis and after taking the possession by the holding company, the customer on behalf of the holding company sells them. Upon subsequent sale by the customer, the financed amount along with the profit is paid by the customer to the holding company.

Murabaha

Under Murabaha based financing, The Group purchases the goods and after taking the possession, sells them to the customer on cost plus profit basis either in a spot or credit transaction.

Salam

In Salam, the seller undertakes to supply specific goods to the buyer at a future date in exchange of an advanced price fully paid at spot. The payment is at spot but the supply of purchased goods is deferred. The purchased goods by the holding company are then sold by the customer on behalf of the holding company and the financed amount along with profit is paid to the holding company.

4.6 Property and equipment

4.6.1 Capital work-in-progress

Capital work in progress is stated at cost less impairment loss, if any and consists of expenditures incurred and advances made in the course of their construction and installation. Transfers are made to relevant asset category as and when assets are available for intended use.

4.6.2 Property and equipment

Property and equipment are stated at cost, except for land and buildings which are carried at revalued amount, less any applicable accumulated depreciation and accumulated impairment losses, if any. Land and buildings are stated at revalued amount less accumulated depreciation (in case of buildings) and accumulated impairment losses, if any.

Depreciation is calculated on a straight-line basis over the estimated useful life of the asset at the rates specified in note 11.2 to these consolidated financial statements. Depreciation on additions during the year is calculated from the date of addition. In case of disposals during the year, the depreciation is charged till the date of disposal.

Subsequent costs are included in the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to The Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the consolidated profit and loss account.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognised in the profit and loss account in the year the asset is derecognised.

The residual values, useful lives and depreciation methods are reviewed and changes, if any, are treated as change in accounting estimates, at each statement of financial position date.

Land and buildings are revalued by independent professionally qualified valuers with sufficient regularity to ensure that their net carrying amount does not differ materially from their fair value. If an asset's carrying value increases as a result of revaluation, such increase or surplus arising on revaluation is credited to the surplus on revaluation of property and equipment account. If an asset's carrying amount is decreased as a result of a revaluation, the decrease shall be recognised in the consolidated profit or loss account. However, if the increase reverses a deficit on the same asset previously recognised in the consolidated profit and loss account, such an increase is also recognised in the consolidated profit and loss account to the extent of the previous deficit and thereafter in the surplus on the revaluation of property and equipment account.

In the case of revalued assets, any accumulated depreciation on the date of revaluation is eliminated against the gross carrying amount of the net asset and the net amount restated at the revalued amount of the asset.

Surplus on revaluation of property and equipment (net of any associated deferred tax) to the extent of the incremental depreciation charged on the related assets is transferred to unappropriated profit.

Surplus on revaluation (net of any deferred tax) realized on disposal of land and building is transferred directly to unappropriated profit.

4.6.3 Right-of-use assets and their related lease liabilities

The Group recognises a right-of-use asset and lease liability (note 4.14) at the lease commencement date. The right-of-use asset is initially measured at amount equal to present value of lease liability, and subsequently at cost less any accumulated depreciation and impairment losses if any, and adjusted for certain remeasurements of the lease liability. The right-of-use asset is depreciated using the straight line method from the commencement date to the earlier of end of the useful life of right-of-use asset or end of the lease term.

4.7 Intangible assets

These are stated at cost less accumulated amortisation and impairment, if any. The cost of intangible assets are amortised from the month when the assets are available for intended use, using the straight line method, whereby the cost of the intangible asset is amortised over its estimated useful life over which economic benefits are expected to flow to The Group. The useful life and amortisation method is reviewed and adjusted, if appropriate, at each consolidated statement of financial position date.

4.8 Non-banking assets acquired in satisfaction of claims

Non-banking assets acquired in satisfaction of claims are initially recorded at cost and subsequently carried at revalued amounts less accumulated depreciation and impairment, if any. These assets are revalued by professionally qualified valuers with sufficient regularity to ensure that their net carrying value does not differ materially from their fair value. A surplus arising on revaluation of property is credited to the 'surplus on revaluation of non-banking assets' account and any deficit arising on revaluation is taken to the consolidated profit and loss account directly. Legal fees, transfer costs and direct costs of acquiring title to property is charged to the consolidated profit and loss account.

Depreciation on assets (other than land) acquired in satisfaction of claims is charged to the consolidated profit and loss account on the same basis as depreciation charged on The Group's property and equipment.

If the recognition of such assets results in a reduction in non-performing loans, such reductions and the corresponding reductions in provisions held against non-performing loans are disclosed separately.

These assets are generally intended for sale. Gains and losses realised on the sale of such assets are disclosed separately from gains and losses realised on the sale of property and equipment. Surplus on revaluation (net of deferred tax) realised on disposal of these assets is transferred directly to unappropriated profit.

If such an asset is subsequently used by The Group for its own operations, the asset is transferred to property and equipment along with any related surplus.

4.9 Derivative financial instruments

Derivative financial instruments consist of Forward foreign exchange contracts, which are initially recognised at fair value at the date on which the derivative contract is entered into and are subsequently remeasured at fair value. All derivative financial instruments are carried as asset when fair value is positive and liabilities when fair value is negative. Any change in the value of derivative financial instruments is taken to the consolidated profit and loss account.

4.10 Credit loss allowance / Provisions

Expected credit loss allowance against identified off-balance exposure is recognised when intimated and reasonable certainty exists for The Group to settle the obligation. The loss is charged to the consolidated profit and loss account net of expected recovery and is classified under other liabilities.

Other provisions are recognised when The Group has a legal or constructive obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each consolidated statement of financial position date and are adjusted to reflect the current best estimate.

4.11 Taxation

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the consolidated profit and loss account except to the extent that it relates to the items recognised directly in equity, in which case it is recognised in equity.

4.11.1 Current

Provision for current taxation is based on taxable income for the year at the current rates of taxation after taking into consideration available tax credits and rebates. The charge for the current tax also includes adjustments where considered necessary, relating to prior years which arise from assessments framed / finalised during the year.

4.11.2 Deferred

Deferred tax is recognised using the balance sheet liability method on all major temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and amount used for taxation purposes. Deferred tax is measured at the tax rate that are expected to be applied on the temporary differences when they reverse, based on the tax rates that have been enacted or substantially enacted at the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that the future taxable profit will be available against which the asset can be utilised. Deferred tax assets are reviewed at each consolidated statement of financial position date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

The Group also recognises deferred tax asset / liability on deficit / surplus on revaluation of assets and actuarial gain / losses recognised in consolidated statement of other comprehensive income, which is adjusted against the related deficit / surplus.

4.12 Deposits / Borrowings

Deposits / Borrowings are recorded at the amount of proceeds received. The cost of deposits is recognised as an expense on an accrual basis in the period in which it is incurred.

4.13 Employees' benefits

4.13.1 Retirement benefits

Defined benefit plan

The Group operates an approved funded gratuity scheme for all its permanent employees. Retirement benefits are payable to the members of the scheme on the completion of prescribed qualifying period of service under the scheme. Contribution is made in accordance with the actuarial recommendation. The actuarial valuation is carried out annually as at these consolidated statement of financial position date using the "Projected Unit Credit Actuarial Cost Method".

All actuarial gains and losses are recognised in other comprehensive income as they occur and are not reclassified to the consolidated profit and loss account in subsequent periods.

Past service cost resulting from changes to defined benefit plan is recognised in the consolidated profit and loss accounts in accordance with actuarial's valuation and their assessment.

Defined contribution plan

The Group operates a recognised provident fund scheme for all its regular employees, which is administered by the Board of Trustees. Contributions are made by The Group and its employees, to the fund at the rate of 10% of basic salary in accordance with the terms of the scheme.

4.13.2 Compensated absences

A provision is made for estimated liability for annual leaves as a result of services rendered by the employees against unavailed leaves, as per term of service contract, up to these consolidated statement of financial position date.

The actuarial valuation under the "Projected Unit Credit Actuarial Cost Method" has been carried out by The Group for the determination of the liability for compensated absences. Liability so determined is fully recognised by The Group.

4.14 Lease liability against right-of-use assets

The lease liability is initially measured at the present value of the lease payments that are unpaid at the commencement date, discounted using The Group's incremental borrowing rate as the interest rate implicit in the lease cannot be readily determined. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payments made.

4.15 Revenue recognition

Revenue is recognised to the extent that the economic benefits will flow to The Group and the revenue can be reliably measured. These are recognised as follows:

4.15.1 Advances and investments

- Mark-up / return / interest on regular loans / advances and debt securities investments is recognised on a time proportion basis that take into account the effective yield on the asset. Where debt securities are purchased at premium or discount, the same is amortised through the consolidated profit and loss account using the effective interest rate method.
- Mark-up / return / interest recoverable on classified loans and advances and investments is recognised on receipt basis. Mark-up / return / interest on classified rescheduled / restructured loans and advances and investments is recognised as permitted by the regulations of the SBP.
- Dividend income is recognised when The Group's right to receive the dividend is established.
- Gains and losses on sale of investments are recognised in the consolidated profit and loss account.
- Income on bills discounted are recognised over the period of the bill.

4.15.2 Lease financing / Ijarah contracts

Financing method is used in accounting for income from lease financing. Under this method, the unearned lease income (excess of the sum of total lease rentals and estimated residual value over the cost of leased assets) is deferred and taken to income over the term of the lease period so as to produce a constant periodic rate of return on the outstanding net investment in lease. Unrealised income on classified leases is recognised on receipt basis.

Rental income on these ijarah is recognised in The Group's consolidated profit and loss account on a time proportion basis, while depreciation is calculated on ijarah assets on a straight line basis over the period of ijarah.

Gains / losses on termination of lease contracts and other lease income are recognised when realised.

4.15.3 Fees, commission and brokerage

The Group earns fee and commission income from the banking services to retail and corporate customers. Fee and commission income is recognised at an amount that reflects the consideration to which The Group expects to be entitled in exchange for providing the services.

The Group recognises fees earned on transaction-based arrangements at a point in time when The Group has provided the services to the customer. Unearned fee and commission are included under other liabilities.

The fee pertaining to banking services to retail and corporate customers are based on schedule of charges, reviewed periodically by The Group.

4.16 Off setting

Financial assets and financial liabilities are set off and the net amount is reported in these consolidated financial statements when there is a legally enforceable right to set off and The Group intends to either settle on a net basis, or to realise the assets and to settle the liabilities simultaneously.

4.17 Foreign currencies

4.17.1 Foreign currency transactions and translations

Foreign currency transactions are translated into functional currency of The Group at the exchange rates prevailing on the date of transaction. Monetary assets and liabilities in foreign currencies are translated into rupees at the exchange rates prevailing at these consolidated statement of financial position date. Forward exchange contracts are revalued using forward exchange rates applicable to their respective remaining maturities. Gains or losses on above translation are included in the consolidated profit and loss account.

4.17.2 Offshore branch operations

The assets and liabilities of an offshore branch operations are translated into rupees at the exchange rates prevailing at these consolidated statement of financial position date. The income and expense are translated into rupees at average rate of exchange prevailing during the year. Exchange gain or loss on such translation is taken to equity through consolidated statement of 'other comprehensive income' under 'exchange translation reserve'.

4.17.3 Contingencies and commitments

Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in rupee terms at the rates of exchange ruling on the statement of financial position date. Commitments for outstanding forward foreign exchange contracts disclosed in these consolidated financial statements are translated at contracted rates.

4.18 Segment reporting

A segment is a distinguishable component of The Group that is engaged in providing product or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Group's primary format of reporting is based on the following business segments.

4.18.1 Business segments

- a) Trading and sales

This segment undertakes The Group's treasury, money market and capital market activities.

- b) Retail banking

Retail banking provides services to small borrowers i.e. consumers. It includes loans, deposits and other transactions with retail customers.

- c) Commercial banking

This includes loans, deposits and other transactions with corporate and SME customers.

- d) Islamic banking

This represents islamic banking operations of The Group.

4.18.2 Geographical segments

The Group conducts all its operations in Pakistan including an offshore branch in Karachi Export Processing Zone.

4.19 Dividend distribution and appropriations

Bonus and cash dividend and other appropriations (except for the appropriations required by law), declared / approved subsequent to these consolidated statement of financial position date are considered as non-adjusting event and are not recorded in these consolidated financial statements of the current year. These are recognised in the period in which these are declared / approved.

4.20 Earnings per share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of The Group by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares. Diluted earnings per share is not calculated separately, as The Group does not have any convertible instruments in issue.

4.21 Impairment of non-financial assets (excluding deferred tax asset)

At each consolidated statement of financial position date, The Group reviews the carrying amount of its assets (other than deferred tax asset) to determine whether there is an indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of relevant asset is estimated. Recoverable amount is the greater of the net selling price and value in use. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the assets is reduced to its recoverable amount. The resulting impairment loss is recognised as an expense immediately in the consolidated profit and loss account. An impairment loss is reversed if the reversal can be objectively related to an event occurring after the impairment loss was recognised.

Details of the basis of determination of impairment against loans and advances and investments have been discussed in their respective notes.

4.22 Acceptances

Acceptances comprises undertakings by The Group to pay bill of exchange due on customers. These are recognised as financial liability and the contractual right of reimbursement from the customer is recorded as a financial asset. Therefore, commitments in respect of acceptances have been accounted for as financial assets and financial liabilities in these consolidated financial statements.

4.23 Business Combination under Common Control

Business combination under common control is carried out under the Predecessor method, under which assets acquired and liabilities assumed is recognised by the surviving entity at the carrying amounts as reported by the transferred entity and the difference between the consideration paid and the carrying amounts of net assets acquired is recognised in equity. No new goodwill recognised (nor any adjustment is required for different accounting policies for similar nature of transactions).

5. FUNCTIONAL AND PRESENTATION CURRENCY

These consolidated financial statements are presented in Pakistani Rupees, which is The Group's functional currency. Except as indicated, financial information presented in Pakistani Rupees has been rounded to nearest thousand.

11.3 Revaluation of properties

The Holding Company's land and buildings were revalued by an independent professional valuer, M/S Iqbal A. Nanjee & Co. (Private) Limited as at 30 June 2022. The valuation was performed by the valuer on the basis of an assessment of present market values. The revaluations had resulted in a surplus of Rs. 6,795,965 thousand over the book value. In addition, a non-banking asset transferred to property and equipment in the year 2022 was revalued by M/S Akbani & Javed Associates on 31 December 2021. Cumulated surplus on that asset amounted to Rs. 154,193 thousand and was also revalued on the basis of present market value. Accordingly total revaluation surplus (before incremental depreciation) amounted to Rs. 6,950,158 thousand. Details are as follows:

Revaluation surplus (gross amount without incremental depreciation):	Rupees in '000
Freehold land	1,070,460
Leasehold land	2,488,939
Buildings on Freehold land	404,431
Buildings on Leasehold land	<u>2,986,328</u>
	<u>6,950,158</u>

11.3.1 Surplus on revaluation of property and equipment (net of incremental depreciation) are as follows:

	2024	2023
	Rupees in '000	
Freehold land	1,070,460	1,070,460
Leasehold land	2,488,939	2,488,939
Buildings on Freehold land	301,797	342,783
Buildings on Leasehold land	<u>2,290,640</u>	<u>2,568,981</u>
	<u>6,151,836</u>	<u>6,471,163</u>

11.3.2 Had there been no revaluation the carrying amounts of revalued assets would have been as follows:

	2024	2023
	Rupees in '000	
Freehold land	1,975,330	1,975,330
Leasehold land	1,531,451	1,531,451
Buildings on freehold land	26,487	35,348
Buildings on leasehold land	<u>330,582</u>	<u>362,238</u>
	<u>3,863,850</u>	<u>3,904,367</u>

11.4 The cost of fully depreciated assets still in use includes:

Furniture and fixtures	616,198	507,359
Electrical, office and computer equipment	<u>3,654,602</u>	<u>3,177,133</u>
Vehicles	50,928	41,128
Lease hold improvements	<u>2,880,520</u>	<u>2,666,778</u>

11.5 Details of fixed assets disposed off to employees/ex employees during the year ended 31 December 2024

Stage 3	381,981	185,800
	<u>382,316,798</u>	<u>353,883</u>

20.2 Under the Workers' Welfare Ordinance 1971, the holding company is liable to pay workers' welfare fund (WWF) @ 2% of accounting profit before tax or taxable income, whichever is higher. The holding company has made full provision for WWF based on profit for the respective years.

The Supreme Court of Pakistan vide its order dated November 10, 2016 has held that the amendments made in the law introduced by the Federal Government for the levy of WWF were not lawful. The Federal Board of Revenue has filed review petitions against this order which are currently pending.

Legal advice obtained on the matter indicates that consequent to filing of these review petitions the judgement may not currently be treated as conclusive. Accordingly the holding company maintains its provision in respect of WWF.

20.3 This includes Rs.Nil (2023: Rs. 15,169,499) received by the Bank from a correspondent bank against standby letter of credit claimed by the customer. The honorable High Court of Sindh has passed interim order restraining the Bank to transfer amount pending arbitration.

Other contingent liabilities	23.3	2,986,394	3,941,041
		<u>935,532,027</u>	<u>642,048,114</u>

23.1 Guarantees

Financial Guarantees	33,303,405	29,705,918
Performance Guarantees	55,070,186	55,811,913
Other guarantees	64,252,188	51,801,561
	<u>152,625,779</u>	<u>137,319,392</u>

23.2 Commitments

Documentary credits and short-term trade-related transactions:

Letters of credit	229,691,020	132,975,536
Commitments in respect of:		
Forward foreign exchange contracts	23.2.1	547,663,058
Forward lendings	23.2.2	1,943,000
Commitments in respect of;		
Acquisition of property and equipment		622,776
		550,228,834
		<u>779,919,854</u>
		<u>500,787,681</u>

23.2.1 Commitments in respect of forward foreign exchange contracts

Purchase	260,615,930	190,089,104
Sale	287,047,128	175,300,957
	<u>547,663,058</u>	<u>365,390,061</u>

23.2.2 Commitments in respect of forward lendings

The Group has made commitments to extend credit in the normal course of its business, but none of these commitments are irrevocable and do not attract any penalty if the facility is unilaterally withdrawn, except for:

	Note	2024	2023
		Rupees in '000	
Commitments in respect of syndicate financing		388,000	1,093,000
Commitments in respect of other financing		1,555,000	1,026,000
		<u>1,943,000</u>	<u>2,119,000</u>

23.3 Other contingent liabilities

Claims against holding company not acknowledged as debt	23.3.1	2,880,338	3,834,985
Foreign Exchange repatriation case	23.3.2	106,056	106,056
		<u>2,986,394</u>	<u>3,941,041</u>

23.3.1 Commitments in respect of forward lendings

These mainly represent counter claims by borrowers for damages and other claims against the Group. Management is confident that the matters will be decided in the holding company's favour. Accordingly, no provision has been made in these consolidated financial statements.

23.3.2 Foreign exchange repatriation case

While adjudicating foreign exchange repatriation cases of exporters, the foreign exchange Adjudicating Court of the State Bank of Pakistan has adjudicated a penalty of Rs. 106,056 thousand, arbitrarily on the holding company. The holding company has filed appeals before the Appellate Board and Constitutional Petitions in the Honorable High Court of Sindh against the said judgement. The Honorable High Court has granted relief to the holding company by way of interim orders. Based on merits, management is confident that these appeals shall be decided in favor of the holding company and therefore no provision has been made against the impugned penalty.

23.4 Income tax related contingencies are disclosed in note 34.2 to these consolidated financial statements.

24. DERIVATIVE FINANCIAL INSTRUMENTS

The holding company deals in derivative financial instruments namely forward foreign exchange contracts and foreign currency swaps with the principal view of hedging the risks arising from its trade business.

As per the holding company's policy, these contracts are reported on their fair value at the statement of financial position date. The gains and losses from revaluation of these contracts are included under "Foreign exchange income". Mark to market gains and losses on these contracts are recorded on the statement of financial position under "other assets / other liabilities".

These products are offered to the holding company's customers to protect from unfavorable movements in foreign currencies. The holding company hedges such exposures in the inter-bank foreign exchange market.

These positions are reviewed on a regular basis by the holding company's Asset and Liability Committee (ALCO).

34.1 Income tax assessments of the Group have been finalised up to the tax year 2024 (corresponding to the accounting year ended 31 December 2023). Certain appeals are pending with the Commissioner of Inland Revenue (Appeal) and Appellate Tribunal Inland Revenue (ATIR). However, adequate provisions are being held by the Group.

34.2 This reflects provision made, on prudent basis, for additional tax imposed by the Federal Board of Revenue (FBR) through its notification dated 21 November 2023 on the foreign exchange income of the banking sector at the rate of 40% for the financial year ended 31 Dec 2021 and 31 Dec 2022. The Group has challenged the imposition of additional tax before the Sindh High Court which has granted stay against such demand. The matter is currently pending for final adjudication.

38. DEFINED BENEFIT PLAN

38.1 General description

The benefits under the funded gratuity schemes are payable on retirement at the age of 60 or earlier cessation of service. The benefit is equal to one month's last basic salary drawn for each year of eligible service subject to a maximum of 24 last drawn basic salary. The minimum qualifying period for eligibility under the plan is five years of continuous service.

This benefit is being operated by the Bank and two subsidiaries.

	2024	2023
	Number	
38.2 Number of employees under the scheme		
Gratuity funds	<u>5,899</u>	<u>5,797</u>

38.3 Principal actuarial assumptions

The latest actuarial valuation was carried out on 31 December 2022 using "Projected Unit Credit Actuarial Cost Method". The main assumptions used for the actuarial valuation were as follows:

	2024	2023
Discount rate - percent per annum	12.00	16.00
Expected rate of return on plan assets - percent per annum	16.00	14.25
Expected long term rate of salary increase - percent per annum	11.50	15.50
Mortality rates (for death in service)	Adjusted SLIC 2001- 2005	Adjusted SLIC 2001- 2005

38.4 Reconciliation of (payable) / receivable to defined benefit plan

	Note	2024	2023
		Rupees in '000	
Fair value of plan assets	38.6	2,553,027	2,381,816
Present value of defined benefit obligation	38.5	<u>(2,674,048)</u>	<u>(2,326,802)</u>
(Payable) / Receivable		<u>(121,021)</u>	<u>55,014</u>

38.5 Movement in defined benefit plan

Obligations at the beginning of the year	2,326,802	2,062,510
Current service cost	325,721	279,585
Past service cost	-	-
Interest cost	353,585	277,888
Benefits due but not paid (payables)	-	(790)
Benefits paid by the Group	(239,463)	(231,790)
Re-measurement gain	(92,597)	(60,601)
Obligations at the end of the year	<u>2,674,048</u>	<u>2,326,802</u>

	Note	2024	2023
		Rupees in '000	
38.6 Movement in fair value of plan assets			
Fair value at the beginning of the year		2,381,816	2,027,436
Interest income on plan assets		362,433	272,962
Contribution by the Group - net		70,406	283,342
Benefits paid		(239,463)	(231,790)
Benefits due but not paid		-	(790)
Re-measurements: Net return on plan assets over interest income loss	38.8.2	(22,165)	30,656
Fair value at the end of the year		<u>2,553,027</u>	<u>2,381,816</u>
38.7 Movement in payable under defined benefit schemes			
Opening balance		(55,014)	35,074
Charge for the year		316,872	284,511
Contribution by the Group - net		(70,406)	(283,342)
Re-measurement gain recognised in OCI during the year	38.8.2	(70,432)	(91,257)
Closing balance		<u>121,020</u>	<u>(55,014)</u>
38.8 Charge for defined benefit plans			
38.8.1 Cost recognised in profit and loss			
Past service cost		-	-
Current service cost		325,721	279,585
Net interest on defined benefit asset		(8,848)	4,926
		<u>316,873</u>	<u>284,511</u>
38.8.2 Re-measurements recognised in OCI during the year			
Loss / (gain) on obligation - Financial assumptions		(17,257)	11,116
- Demographic assumptions		4,749	-
- Experience adjustment		(80,089)	(71,717)
		<u>(92,597)</u>	<u>(60,601)</u>
Return on plan assets over interest income		22,165	(30,656)
Total re-measurements recognised in OCI		<u>(70,432)</u>	<u>(91,257)</u>
38.9 Components of plan assets			
Bank balance in profit and loss sharing account	38.9.1	202,499	336,319
Term deposit certificate		238,485	86,250
Federal Government securities			
Defence Saving Certificates		1,369,700	1,229,800
Market Treasury Bills		406,312	456,301
Pakistan Investment Bonds		313,030	250,575
Special saving Certificates		-	-
Non government debt securities		23,002	22,571
		<u>2,553,028</u>	<u>2,381,816</u>

38.9.1 The above amount represents balance which is deposited or placed with the branches of the holding company. Further, the funds primarily invest in Government securities which do not carry any credit risk. These are subject to interest rate risk based on market movements. These risks are regularly monitored by the Trustees of the employee funds.

38.10 Sensitivity analysis

Sensitivity analysis has been performed by varying one assumption keeping all other assumptions constant and calculating the impact on the present value of the defined benefit obligations under the various employee benefit schemes. The increase / (decrease) in the present value of defined benefit obligations as a result of change in each assumption is summarized below:

	2024
	Rupees in '000
1 % increase in discount rate	2,475,531
1 % decrease in discount rate	2,879,359
1% increase in expected future increment in salary	2,882,419
1% decrease in expected future increment in salary	2,469,415
10% increase in expected withdrawal rate	2,608,244
10% decrease in expected withdrawal rate	2,609,137
1% increase in expected mortality rate	2,609,813
1% decrease in expected mortality rate	2,607,804

Although the analysis does not take account of the full distribution of expected cash flows, it does provide an approximation of the sensitivity of the assumptions shown.

38.11 Expected contributions to be paid to the funds in the next financial year

205,032

38.12 Expected charge for the next financial year

205,032

38.13 Maturity profile

The weighted average duration of the obligation is 9.6 years.

38.14 Funding Policy

The Group has the policy to make annual contributions to the fund based on actuarial report.

38.15 Significant risk associated with the staff retirement benefit schemes include:

Asset volatility	The risk of the investment underperforming and being not sufficient to meet the liabilities.
Changes in bond yields	The duration of the liabilities is 9.6 Years. Based on the weighted average duration of this plan and guidance from Pakistan Society of Actuaries ("PSOA"), the discount rate used for the calculations is 16.00% per annum.
Inflation risk	The risk that the final salary at the time of cessation of service is greater than what we assumed. Since the benefit is calculated on the final salary (which will closely reflect inflation and other macroeconomic factors), the benefit amount increases as salary increases.
Mortality rate	The risk that the actual mortality experience is different than the assumed mortality. This effect is more pronounced in schemes where the age and service distribution is on the higher side.
Withdrawal rate	The risk of actual withdrawals experience is different from assumed withdrawal probability. The significance of the withdrawal risk varies with the age, service and the entitled benefits of the beneficiary.

39. DEFINED CONTRIBUTION PLAN AND COMPENSATED ABSENCES

39.1 Provident fund

The Group (the Bank and two subsidiaries) operates contributory provident fund schemes for permanent employees. The employer and employee each contribute 10% of the basic salary to the funded schemes every month.

Number of the members participating in the funds at the end of the year 31 December 2024 as per audited accounts are 5,305 (2023: 5,614).

39.2 Compensated absences

The holding company maintains a non-funded scheme for compensated absences. These can be accumulated up to 60 days. Liability as of the year-end was Rs. 356,536 thousand (2023: Rs. 325,877 thousand) and was determined through an actuarial valuation carried out under the 'Projected Unit Credit Method'. Valuation was carried out by a qualified actuary. Charge for the year amounting to Rs. 149,266 thousand (2023: Rs. 164,748 thousand) has been recognised to the profit and loss account.

40. COMPENSATION OF DIRECTORS AND KEY MANAGEMENT PERSONNEL

41. FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than investment those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

The fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since they are either short-term in nature or, in the case of customer advances, deposits and certain long term borrowings are frequently repriced.

41.1 Fair value of financial assets

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the assets or liabilities that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

On balance sheet financial instruments	2024			
	Fair value			
	Level 1	Level 2	Level 3	Total

	<u>—</u>	<u>14,675,370</u>	<u>—</u>	<u>14,675,370</u>

41.3 Valuation techniques used in determination of fair valuation of financial instruments within level 2

Federal government debt securities	The fair value of government securities are valued using PKRV, PKFRV, PKISRV and PSX rates.
Debt securities other than federal government securities	The fair value is determined using the prices / rates available on Mutual Funds Association of Pakistan (MUFAP) / Reuters website and PSX.
Forward contracts	The fair values are derived using forward exchange rates applicable to their respective remaining maturities.
Mutual funds	The fair value is determined based on the net asset values published at the close of each business day.

Valuation techniques used in determination of fair values of non-financial assets within level 2

Property and equipment and non-banking assets acquired in satisfaction of claim	<p>Property and equipment and non-banking assets are valued by professionally qualified valuers. The valuation is based on their assessment of the market value of the assets. In determining the valuation for land and building the valuer refers to numerous independent market inquiries from local estate agents / realtors in the vicinity to establish the present market value. The fair valuation of land and building are considered to represent a level 2 valuation based on significant non-observable inputs being the location and condition of the assets.</p> <p>The fair value is subject to change owing to changes in input. However, management does not expect there to be a material sensitivity to the fair value arising from the non-observable inputs.</p>

	Rupees in '000	
Minimum Capital Requirement (MCR)		
Paid-up capital (net of losses)	<u>10,478,315</u>	<u>10,478,315</u>
Capital Adequacy Ratio (CAR):		
Eligible common equity tier 1 (CET 1) capital	100,906,644	89,001,463
Eligible additional tier 1 (ADT 1) capital	51,609	38,306
Total eligible tier 1 capital	100,958,253	89,039,769
Eligible tier 2 capital	18,293,582	8,940,628
Total eligible capital (Tier 1 + Tier 2)	<u>119,251,835</u>	<u>97,980,397</u>
Risk Weighted Assets (RWAs)		
Credit risk	474,510,547	428,865,561
Market risk	9,158,527	2,408,671
Operational risk	147,822,438	115,752,388
Total	<u>631,491,512</u>	<u>547,026,620</u>
CET 1 capital adequacy ratio	<u>15.98%</u>	<u>16.27%</u>
Tier 1 capital adequacy ratio	<u>15.99%</u>	<u>16.28%</u>
Total capital adequacy ratio	<u>18.88%</u>	<u>17.91%</u>
Minimum capital requirements prescribed by SBP		
CET 1 capital adequacy ratio	6.00%	6.00%
Tier 1 capital adequacy ratio	7.50%	7.50%
Total capital adequacy ratio	11.50%	11.50%
The Group uses simple, maturity method and basic indicator approach for credit risk, market risk and operational risk exposures respectively in the capital adequacy calculation.		
Leverage Ratio (LR):		
Eligible Tier-1 capital	100,958,253	89,039,769
Total exposures	1,974,617,349	1,860,804,377
Leverage ratio	<u>5.11%</u>	<u>4.79%</u>

45.1 The full disclosures on the capital adequacy, leverage ratio & liquidity requirements as per the SBP instructions issued from time to time are placed on the website. The link to the full disclosures is available at <https://www.habibmetro.com/financials/#basel-statements>.

46. RISK MANAGEMENT

Risk management aspects are embedded in the holding company's strategy, organization structure and processes. The holding company has adopted a cohesive risk management structure for credit, market, liquidity and operational risk with an integrated approach to strengthen the process and system as controls are more effective and valuable when built into the process. Effective risk management is considered essential in the preservation of the assets and long-term profitability of the holding company. Clear guidelines and limits, which are under regular review, are backed by a system of internal controls and independent audit inspections. Internal reporting / MIS are additional tools for measuring and controlling risks. Separation of duties is also embedded in the holding company's system and organization.

46.1 Credit Risk

Credit risk arises from the possibility that the counterparty in a transaction may default. It arises principally in relation to the lending and trade finance business carried out by the holding company.

As per Basel II methodology the gross credit risk weighted exposure incorporating relevant credit conversion factor is Rs. 474,510,547 thousand (2023: Rs. 428,865,561 thousand) as depicted in note 42.

The Group's strategy is to minimize credit risk through a strong pre-disbursement credit analysis, approval and risk measurement process added with product, geography and customer diversification. The holding company, as its strategic preference, extends trade and working capital financing, so as to keep the major portion of exposure (funded and non-funded) on a short-term, self-liquidating basis. Major portion of the holding company's credit portfolio is priced on flexible basis with pricing reviewed on periodic basis.

With the expansion of the Consumer lending portfolio, the Credit Review & Administration efforts have been accordingly enhanced by inducting specialized consumer credit risk analysts and processing specialists.

Centralized Credit and Trade processing centres staffed with experienced resource provide strength to post-disbursement aspect of credit risk management.

The Group's credit policy / manual defines the credit extension criteria, the credit approval and monitoring process, the loan classification system and provisioning policy.

The Group continually assesses and monitors credit exposures. The group follows both objective and subjective criteria of SBP regarding loans classification. The subjective assessment process is based on management's judgement with respect to the borrower's character, activity, cash flow, capital structure, security, quality of management and delinquency.

The Group uses the 'Standardised Approach' in calculation of credit risk and capital requirements.

The Group uses reputable and the SBP approved rating agencies for deriving risk weight to specific credit exposures. These are applied consistently across the Group credit portfolio for both on-balance sheet and off-balance sheet exposures. The methodology applied for using External Credit Assessment Institutions (ECAI's) inclusive of the alignment of alpha numeric scale of each agency used with risk bucket is as per the SBP guidelines as is given below:

Types of exposures and ECAI's used

Exposures	2024				
	JCR-VIS	PACRA	S & P	Fitch	Moody's
Corporate	□	□	-	-	-
Banks	□	□	□	□	□
Sovereigns	-	-	-	-	-

Unrated		286,178,289	51,545,290	234,632,999	231,893,034	47,092,171	184,800,863

The forms of collateral that are deemed eligible under the 'Simple Approach' to credit risk mitigation as per the SBP guidelines are used by the Group and primarily includes cash, government, equity investment in blue chip companies and rated debt securities.

The Group applies the SBP specified haircut to collateral for credit risk mitigation. Collateral management is embedded in the Group's risk taking and risk management policy and procedures. A standard credit granting procedure exists which has been well-disseminated down the line, ensuring proper pre-sanction evaluation, adequacy of security, pre-examination of charge / control documents and monitoring of each exposure on an ongoing basis.

Collateral information is recorded diligently in the Group's main processing systems by type of collateral, amount of collateral against relevant credit exposures. A cohesive accounting / risk management system facilitates effective collateral management for Basel II reporting.

Particulars of group's significant on-balance sheet and off-balance sheet credit risk in various sectors are analysed as follows:

46.1.1 Lendings to financial institutions

46.1.7 Incorporation of forward-looking information in ECL

The assessment of Expected Credit Loss (ECL) calculation incorporates forward looking information. Forward-looking aspect introduces an extra dimension, which is often captured by relating expected losses to the macroeconomic variables. The incorporation of macroeconomic factors increases the accuracy of the results produced and makes it more reliable to predict estimate future results more accurately.

The Group uses historic and forecasted data to determine the impact of macroeconomic factors to estimate Probability of Default (PD) and Loss Given Default (LGD) etc. Further, statistical models based on historical correlation is performed to identify most significant macro-economic variable(s) that have been recognised as contributors to the default performance of the portfolio. The macro-economic variables (including KSE 100 Index, Consumer Price Index and Crude Oil Price) used in the ECL calculation are fetched from the World Bank, International Monetary Fund (IMF) and State Bank of Pakistan (SBP) database and the relevant macro-economic variables are selected based on sensitivity of each of the portfolios to specific macro-economic variables. Three macroeconomic scenarios have been developed base, best, and worst with assigned scenario probability weightings of 70%, 15%, and 15% respectively.

The Group conducted a sensitivity analysis on macro-economic indicators which are utilized for forward-looking calculations. As of December 31, 2024, when the macro-economic indicators in the base scenario was adjusted upwards or downwards by 10%, the ECL showed the following variation:

Segment	Upwards	Downwards
Corporate	-9.59%	15.34%
SME	-5.69%	8.64%
Agriculture	-30.93%	37.05%

46.1.8 Sensitivity of ECL to future economic conditions

The ECL are sensitive to judgements and assumption made regarding formulation of forward-looking scenarios and how much such scenarios are incorporated into calculations. The Group performs sensitivity analysis on the ECL recognised on each of its segments.

The table below shows the loss allowance on each segment assuming each forward-looking scenario (e.g. Base, worst and best) were weighted 100% instead of applying scenario probability across the three scenarios.

Segment	2024							
	Base			Worst			Best	
	Total ECL as per FS	Total ECL after sensitivity analysis	Increase / decrease in %	Total ECL after sensitivity analysis	Increase / decrease in %	Rupees in '000	Total ECL after sensitivity analysis	Increase / decrease in %

46.2 Market risk

Market Risk is the risk of loss in earnings and capital due to adverse changes in interest rates, foreign exchange rates, and equity prices as well as their correlations and volatilities. Market Risk performs risk measurement, monitoring, and control functions through the use of various risk procedures and tools.

The Holding Company has a comprehensive Board approved market risk management policy wherein the governance structure for managing market risk, methods to control market risk, measurement tools used, the market risk exposure limits and the tolerance levels have been addressed. The holding company's strategy for managing market risk is to relate the level of risk exposures to their risk appetite and the capital base. This structure is reviewed, adjusted and approved periodically.

The Board of Directors oversees the holding company's strategy for market risk exposures. The Bank's Market Risk Management governance structure consists of the Risk & Compliance Committee (BR&CC) of the Board, Investment Committee and Asset & Liability Committee (ALCO) and is assisted by the independent Market Risk function with reporting line to the Risk Management Division.

The asset and Liability Committee (ALCO) which comprises senior management oversees the financial position of the holding company, assesses the impact of the interest rate change on the holding company's investment portfolio through sensitivity analysis, duration and performs an oversight function to ensure sound asset quality, liquidity and pricing considering the current interest rate environment. The investment policy amongst other aspects covers the holding company asset allocation guidelines.

Market Risk function seeks to facilitate efficient risk/return management decisions, reduce volatility in operating performance and provide transparency into the Bank's market risk profile for senior management, the Board of Directors, and regulators.

In line with the regulatory requirements, the holding company performs the impact of changes in the market factors on the holding company's earnings through regular stress testing and Internal Capital Adequacy Assessment Processes .

46.2.2 Foreign exchange risk

Foreign exchange risk is the probability of loss resulting from adverse movement in exchange rates.

The holding company's business model for foreign exchange risk is to serve trading activities of its clients in an efficient and cost effective manner. The holding company is not in the business of actively trading and market making activities and all FX exposures are backed by customer's trade transaction. A conservative risk approach backed by holding company's business strategy to work with export oriented clients gives the ability to meet its foreign exchange needs.

46.2.3 Equity position risk

Equity position risk arises due to adverse movements in equity prices. The Group's policy is to take equity position in high dividend yield scripts. The Group as a policy does not enter into any kind of proprietary equity trades. Equity position risk of the Group's is mitigated through portfolio and script limits advised by the BoD and are reviewed by the ALCO. The investment in equities and mutual funds is also managed within the statutory limits as prescribed by the SBP.

46.2.4 Yield / interest rate risk in the holding company's book (IRRBB) - Basel II Specific

Interest rate risk is the risk that the value of the financial instrument will fluctuate due to changes in the market interest rates. Interest rate risk is also controlled through flexible credit pricing mechanism and variable deposit rates. Duration analysis and stress testing are being carried out regularly to estimate the impact of adverse changes in the interest rates on bank's fixed income portfolio. Optimization of yield is achieved through the Group's investment strategy which aims on attaining a balance between yield and liquidity under the strategic guidance of the ALCO. The advances and deposits of the Group are repriced on a periodic basis based on interest rates scenario.

46.3 Operational Risk

The Group operates in a controlled manner and operational risk is managed effectively. With the evolution of operational risk management (ORM) into a separate distinct discipline, the Group's strategy is to further strengthen operational risk management system along new industry standards.

The holding company's ORM strategy takes guidance from Basel - II, the SBP guidelines and best industry practices.

The holding company's ORM framework includes Risk Control Self-Assessment (RCSA), Key Risk Indicators (KRIs), Operational Risk Events Management, Change Risk Assessment and Risk Assessment of Outsourcing arrangement. The ORM unit engages with the holding company's business/support units and regularly collaborates in determining and reviewing the inherent operational risks, and assessment of residual risk leading to improved quality of control infrastructure and further strengthening of the processes & management information. Moreover, group wide policies, procedures , frameworks and product programs are also being evaluated from operational risk perspective aiming to beef up control environment.

The Group's business continuity plan includes risk management strategies to mitigate inherent risk and prevent interruption of mission critical services caused by disaster event. The Business Continuity Management function with the support of the senior management remained extremely active during the pandemic to ensure that stakeholders remained safe, all critical services and processes of the Group remain operational and any contingency arising is dealt appropriately. The Group's operational risk management governance has been further strengthened through the establishment of a separate Operational Risk and Control Committee.

The Group uses Basic Indicator Approach (BIA) for regulatory capital at risk calculation for operational risk. Under BIA the capital charge for operational risk is a fixed percentage of average positive annual gross income of the Bank over the past three years. Figures of capital charge of operation risk for the year is Rs. 11,825,795 thousand (2023: Rs. 9,260,191 thousand).

46.4 Liquidity Risk

Liquidity risk is the risk that the Group will not be able to raise funds to meet its commitments.

Governance of Liquidity risk management

The ALCO continuously monitors the liquidity position and the Group is confident that the current liquidity buffer is sufficient to cater to any adverse movement in the maturity profile.

Liquidity and related risks are managed through standardized processes established in the Group. The management of liquidity risk within the Group is undertaken within limits and other parameters set by the BoD. The holding company's treasury function has the primary responsibility for assessing, monitoring and managing the holding company's liquidity and funding strategy while overall compliance is monitored and coordinated by the ALCO. Board and senior management are apprised of the Group's liquidity profile to ensure proactive liquidity management. Treasury Middle Office being part of the risk management division is responsible for the independent identification, monitoring and analysis of intrinsic risks of treasury business. The Group has in place duly approved Treasury investment policy and strategy along with liquidity risk tolerance/appetite levels. These are communicated at various levels so as to ensure effective liquidity management for the Group.

Liquidity position of the Group remained strong in spite of approving deferment requests of principal & restructured loan, in line with the SBP directives. The holding company's strong deposit base backed by continued customer confidence and holding of government securities has enabled the Group to maintain a robust liquidity profile, also depicted through a strong LCR ratio.

Funding Strategy

The Group's liquidity model is based on "self-reliance" with an extensive branch network to diversify the holding company deposit base. Further, the holding company can also generate liquidity from Interbank market against government securities to fund its short term requirement, if any. The holding company as a policy invests significantly in highly liquid government securities that can be readily converted into cash to meet unforeseen liquidity requirements, besides yielding attractive returns.

Liquidity Risk Mitigation techniques

Various tools and techniques are used to measure and evaluate the possible liquidity risk. These include regular monitoring of different liquidity ratios against approved triggers and communication to senior management and the ALCO. Further, the Group also prepares the maturity profile of assets and liabilities to keep track of liquidity gaps over different time buckets. The holding company also ensures that statutory cash and liquidity requirements are maintained at all times.

Liquidity Stress Testing

As per the SBP BSD Circular No. 1 of 2012, Liquidity stress testing is being conducted under well-defined stress scenarios. Results of same are escalated at the senior level so as to enable the senior management to take proactive actions to avoid liquidity crunch.

Contingency Funding Plan

Contingency Funding Plan (CFP) is a part of liquidity management framework of the Group which defines and identifies the factors that can instigate a liquidity crisis and the actions to be taken to manage the crisis. The Group has a comprehensive liquidity contingency funding plan in place, which highlights liquidity management strategy to be followed under stress conditions. Contingency Event Management parameters and responsibilities are also incorporated in order to tackle the liquidity crisis. Moreover, CFP highlights possible funding sources focusing on self-reliance, in case of a liquidity crisis.

10. Pool management

Pools maintained by the Bank's Islamic Banking Division (IBD), their key features and risk and reward characteristics

The Bank operates general and special pools for deposits and inter-bank funds accepted / acquired under Modaraba and Musharakah modes. Under the general deposits pools, the Bank accepts funds on Modaraba basis from depositors (Rabb-ul-Maal) where the Bank acts as Manager (Mudarib) and invests the funds in Shariah Compliant modes of financing, investments and placements. IERS and other pools (special pools) are operated for funds acquired / accepted from the State Bank of Pakistan and other banks for Islamic Export Refinance to the Bank's customers and liquidity management respectively under the Musharakah / Modaraba modes. Further, the Bank also contributes its equity and becomes the capital provider, wherein required.

Following pools are being managed by IBD:

- General pool for local and foreign currencies for depositors
- Islamic export refinance scheme musharaka pool
- Special pool

All the Modaraba based remunerative deposits shall be considered as an investment from Rabbul Maal in the pool, along with IBD's own share of equity, which is also commingled in the pool. The applications of these funds are on Islamic financing and related assets, Investments, and Placements for generating profits to be shared among the depositors as per the Weightage system.

The IERS Pool caters the 'Islamic Export Refinance' requirements based on the guidelines issued by the SBP.

Profits are calculated on the basis of weightages assigned to different tiers and tenors. These weightages are announced at the beginning of the period, while considering weightages emphasis shall be given to the quantum, type and the period of risk assessed by applying following factors:

- Contracted period, nature and type of deposit / fund.
- Payment cycle of profit on such deposit / fund, i.e. monthly, quarterly or on maturity
- Magnitude of risk

Any change in profit sharing weightages of any category of deposit / fund providers shall be applicable from the next month (where applicable).

Avenues/sectors of economy/business where modaraba based deposits have been deployed.

- Agriculture, forestry, hunting and fishing
- Automobile and transportation equipment
- Chemicals and pharmaceuticals
- Electronic and electrical appliances
- Financial
- Production and transmission of energy
- Footwear and leather garments
- Textile
- Cement
- Others

Parameters used for allocation of profit, charging expenses and provisions etc.

The direct expenditure shall be charged to respective pool, while indirect expenses including the establishment cost shall be borne by Habib Metro IBD as Mudarib. The direct expenses to be charged to the pool may include depreciation of ijarah assets, insurance / takaful expenses of pool assets, stamp fee or documentation charges, brokerage fee for purchase of securities, impairment / losses due to physical damages to specific assets in pools etc. Provisions for non-performing accounts are borne by the mudarib. However, write-off of non-performing accounts is charged to the respective pool. However, this is not an exhaustive list; Habib Metro IBD pool management framework and the respective pool creation memorandum may identify and specify these and other similar expenses to be charged to the pool.

The Bank managed the following general and specific pools during the year:

General Remunerative / Specific Depositor's Pools	Profit rate and weightage announcement period	Profit rate return earned	Profit sharing ratio Mudarib Share / Fee	Profit sharing ratio Rabbul Maal Share	Mudarib share	Profit rate return distributed to remunerative deposits (savings)	Percentage of Mudarib share transferred through Hiba	Amount of Mudarib Share transferred through Hiba

5 فریضہ اور صلاحیت کی تحریک

سال کے دران 5,549 اضافے نے ان باؤس پر اگرا جو ہمیں ترقیتی سیمئز اور اچھے رنگ کا دلیل کے ذریعے سے اسلامی بینکنگ ریٹنگز میں شرکت کی۔ شرکت کنندگان میں اسلامی بینکنگ برائج، اسلامی بینکنگ و نوڈز کے اضافے سیمیٹ بلینچن چپ نیوز، پورٹ فنکشنز اور دیگر شامل تھے۔

شروع یورڈ کی رائے

شروع یورڈ قریم ورک کے مطابق یورڈ آف ڈائریکٹرز اور میجمنٹ اس امر کو تلقینی بنانے کے لئے ذمہ دار ہیں کہ بینک کے آپریٹھڑاں طرح سے انجام دیئے جائیں کہ تمام اوقات میں شرعی اصولوں پر کامل مددراہ آمد ہو سکے، جبکہ ہمارے لیے بینک کے مجموعی شرعی اصولوں کے مطابق ہونے پر ایک روپورٹ پیش کرنا مطلوب ہے۔

ہماری رائے کو تقویت دینے کیلئے، جیسا کہ اس روپورٹ میں اظہار کیا گیا ہے، ہم نے شروع یورڈ کی میٹنگ اور ایکسٹریل شریعت آٹھ کی روپیٹ کا جائزہ لیا۔ جنہوں نے مختلف دستاویزی میں اور پرہیز فلوز کے ساتھ فراز بکشنزی ہر ایک کاس کیلئے میجمنٹ چیک کی بنیاد پر اپنے جائزے اور آٹھ کو انجام دیا تھا۔

مذکورہ بالا تصویب کی بنیاد پر ہماری رائے درج ذیل ہے کہ:

- I بینک نے شروع یورڈ کی جانب سے جاری کردہ قوانینی، احکام اور تنہائی ایامت کی روشنی میں شریعت کے قوانین اور اصولوں کی پاسداری کی ہے۔
- II بینک نے اٹھیت بینک آف پاکستان کی شروع یورڈ اور زیریں کیلئے کا احکام کے مطابق اٹھیت بینک کی جانب سے جاری کردہ شروع یورڈ کی میٹنگ سے مختلف احکام، پروایا، ہدایات اور اصولوں کی پاسداری کی ہے۔
- III بینک اپنے تمامہ آپریٹھڑاں میں شرعی اصولوں پر کامل راہگوئی تلقینی بنانے کے لئے ایک جامن نظام کا حال ہے۔
- IV بینک میں ایک انجمنی اٹھیت کیمیٹریم میں موجود ہے جو مقام پر غیر شرعی وزارع سے حاصل شدہ قسم جائزہ کا کوئی میں اتحاد کے جائزے کا کوئی تلقینی بناتا ہے۔
- V بینک نے افعن و نقصان کی تفصیل اور پول میجمنٹ کے سلسلے میں اٹھیت بینک کی ہدایات کی مناسب طور پر پاسداری کی ہے۔
- VI لریک ایڈیٹ ڈوپلٹ پیارٹ اور میجمنٹ نے مازوں میں کی صلاحیتوں میں اضافے کے لئے مختلف اسلامی بینکنگ سیمئز کا اہتمام کیا اور اسلامی بینکنگ سیمئز کے ماحول کے لئے مستقل عمل میں ہے۔ اس سلسلے میں پروکاری اور پرمیسہ میں شرعی اصولوں کی میٹنگ کی بہانے میں بینک کی میجمنٹ اور یورڈ کی حمایت اور صلاحیت قابل قبول ہے۔
- VII شروع یورڈ کو اس کی ذمہ داریوں کی ادائیگی کے لئے وسائل فراہم کیے گئے ہیں تاہم کام کے جنم میں اضافے کو مد نظر رکھتے ہوئے شروع یورڈ میں اضافی افرادی قوت، بینک میں شروع یورڈ کی میٹنگ سے ناشکن کو جزویہ مختار کرے گی۔

تجاویز

درج بالا جائزے کی بنیاد پر ہم تجویز کرتے ہیں کہ بینک کو:

- 1 آئین پاکستان اور اٹھیت بینک آف پاکستان کے اسٹریچ ڈیانڈ میٹنگ پا ان کو مد نظر رکھتے ہوئے تو پہلی براہمی اور اسی طرح بھی اسلامی بینکنگ برائج کو کوئی کوئی اپنے ذمہ داری کی ہر سلسلہ پر گرفتاری کی نہیں۔
- 2 اٹھیت بینک کی ہدایات کے مطابق اتنی اصطلاح اسلامی بینکنگ اضافے تمام مختلف میلے اور صارفین کیلئے اسلامی بینکاری کی تربیت، ریفری شریستھر، اوپرہیں شریستھر اور اسلامی بینکنگ کی طائفہ ذہن سازی کیلئے بینک کے اتفاقیات جاری رکھتے چاہیے۔
- 3 تمام ترمیثات پورہ اسلامی بینکاری کی پروڈکس اور سرویزی پروڈوشن اور مارکیٹ کو ہر یہ فرود ڈینے کا سلسلہ جاری رکھنا چاہیے۔
- 4 قومی ترجیحات اور عالمی ہمہ زمین طریقوں کے مطابق اسلامی بینکنگ پروڈکٹس کے ذریعے پانیدا اور قیمتی اہداف اور گزین بینکنگ کو فروخت دینا چاہیے۔

اور اللہ تعالیٰ و تعالیٰ ہمتر جاتا ہے

اللہ تعالیٰ جاری رکھنے کو قبول فرمائیں اور ہم اس کے مطلوب امور کی تکمیل کرنے کی تفہیق عطا فرمائیں، جاری نظیروں کو معاف فرمائیں اور ہم دنیا اور آخرت میں بھی کامیابی سے ہمکار فرمائیں، ہم یہی دعا کرتے ہیں کہ اللہ تعالیٰ کی رہنمائی اور اس کی کرم نوازی اسلامی بینکنگ کو ہر یہ ذرائع اور اسکا حفاظ فرمائیں۔ آمين

3 شریعہ کیا انس اور شریعہ آئٹ

سال کے دوران، شریعہ کیا انس اور شریعہ آئٹ میزہنے مختلف رکنی بیرونی اور پا قاعدہ جائزہ اور آڈیس میں مختلف ملائقوں کے پورٹ فولیو، اسلامی فناںگ، پیپل اس (انجی و نقصان کی قسم)، اسلامی برائے کیشن اسلامی برائے کیشن اور درک اور مسٹر پرائنس شاہی تھے۔ سال کے دوران ۱۷ پرائنس جاری کی گئیں، جن کا شریعہ بورڈ کی جانب سے جائزہ لیا گیا اور حسب ضرورت درست اقدامات فراہم کیے گئے۔

4 خیراتی رقم

کم خوری 2024 کو خیراتی رقم کا اپنگ بلنس ۴۰۲,۲۴۷/- ۳۵۶,۲۷۲ روپے تھا۔ سال کے دوران چیزیں کا کوتلت میں ۳۰۱,۰۰۹ روپے حجن کروائے گئے، جس میں صارفین کی جانب سے تاخیر سے ادا گئیں کے باعث، شرعی اصولوں پر عدم عملدرآمد اور دیگر اساب کی وجہ سے وصول کردہ رقم شامل تھی۔ ۳۰۱,۰۰۹ روپے کی رقم غلط خیراتی اداروں کے لیے استعمال کی گئی اور بھی خیراتی رقم منظور شدہ خیراتی اور اسلامی بہبود کے اداروں میں حصہ کی جائے گی۔

انٹر آڈٹ

حبيب میڑو ایک موثر بورڈ آڈٹ کمیٹی کا حامل ہے جو سکوئر شیز اینڈ ایچیجن کمیشن آف پاکستان کی جانب سے طے کردہ اور اسٹیٹ بینک آف پاکستان کی جانب سے مرود جلد کمپنیز (کوڈ آڈٹ کار پوریٹ گورننس) ریگولیشن، 2019ء کے تحت کام کرتی ہے۔ بورڈ کی آڈٹ کمیٹی آزاد ائر کیٹریز پر مشتمل ہے اور اس کی سربراہی ایک آزاد ائر کیٹریز کے پرداز ہے۔

بورڈ آڈٹ کمیٹی کو برداشت رپورٹ کرتے ہوئے، انٹر آڈٹ فنال طور پر باریخوں کے آڈٹ، اپر شیز اور بینک کی اہم سرگرمیوں کیلئے خطرات پرمنی مکمل نظر کا استعمال کرتا ہے اور اس کی تاخیح ضرورت کے تحت اصلاحی اقدامات اور کنٹرول کی خامیوں کے تدارک پر خصوصی توجہ دیتا ہے۔

انٹر آڈٹ حبيب میڑو کی تیرسری دفعائی لائی گئی تھیت سے، بینک کے مجموعی کنٹرول کے ماحول میں بنیادی غصہ ہے۔ جو کہ انتظامیہ اور بورڈ کو بینک کے انٹر کنٹرول سسٹم کا جائزہ لیکر غیر جائز دار یقین دہانی فراہم کرتا ہے۔ انٹر آڈٹ ایک مخصوص مدلت کے اندر بینک کی پالیسی، افعال، سکھر اور کنٹرول کا جائزہ لیتا ہے تاکہ بورڈ آڈٹ کمیٹی کے لیے مناسب یقین دہانی فراہم کی جائے اور بینک کی جانب سے خطرات کے تدارک کی کوششوں کے ضمن میں طریقوں کا اشناز یافتہ جائے۔

مستقبل پر ایک نظر

پاکستان کی معیشت عالی بجرانوں مثلاً تجارت کی بجائی اور جو پہنچنکل غیر تینی صورتحال کے باوجود قابل قدر گروہ تھا ہر کروڑی ہے۔ بہنچائی، میں کی شرح سود میں سہولت اور اشیائے صرف کی محکم قیتوں کے ساتھ سرماہی کاری اور خی شعبجی کی توسعے کے لیے ماحول اس وقت موزوں ہے۔ تاہم مسائل جیسا کہ اسٹرپھر میں عدم توازن، مایاںی ختنی اور بلند تر سرماہی قرضوں کو جاری اصلاحات کی ضرورت ہے۔

معاشری مظہر نامہ مستحکم ہوتی ہوئی سینکڑواکھاں کی صورتحال، کلیدی شعبوں میں بنیادی اور بہترین بھائی کے ساتھ جو حلہ افراد ہے۔ مہنگائی آنے والی سماں یوں میں اوس طاسات فیصلہ کی طویل مدتی بنیاد پر مستحکم رہنے، معاشری سرگرمیوں کو فروغ ملنے اور پالیسی ریٹ میں مزید کمی کی توقع ہے، جس کے نتیجے میں قرضوں کے اخراجات کم ہون گے جس سے سرماہی کاری اور معاشری بجائی بالخصوص لا رنج اسکیل میتوں پرچم جگ اور خدمات، جو اس برس گر توہن کے کلیدی شعبے ہیں، کو مزید فروغ حاصل ہوگا۔

تجاری محکمات بہتر ہونے کے امکانات ہیں اس کے ساتھ برآمدات اور درآمدات کو سبق تکمیل اقتصادی سرگرمی سے معاونت ملے گی۔ زر تسلیات کی آمد بڑھنے کے مستقل امکانات موجود ہیں جو یہ ورنی اکاؤنٹ کو مستحکم کرنے اور گھر بیوی اشیائے صرف کو فروغ دینے میں شرکا کر رہے ہیں۔ قرضوں کے کم ہوتے اخراجات مالی احتکام کو بڑھائیں گے اور سرماہی فنازر مضمبوط ہوں گے، جس سے معاشری بجائی کے اقدامات کے لیے راستہ ہموار ہو گا۔ یہ رحاتات بے روڑگاری میں بڑے بیانے پر کمی لانے کا موجب ہیں کیونکہ اقتصادی سرگرمیاں تیزی سے بڑھیں گی۔ پانچ سالہ اصلاحات اور پنچ سالہ پاکستان کی معیشت بہترین احتکام اور خوشحالی کے راستے پر گامزد ہے۔

اظہار شکر

آخر میں ہم وزارت خزانہ، اسٹیٹ بینک آف پاکستان اور سکوئر شیز اینڈ ایچیجن کمیشن آف پاکستان کے ان کی مستقل معاونت کیلئے بے حد شکرگزار ہیں۔ ہم اپنے معزز شیز ہولدرز اور صارفین کا بھی ان کے اعتماد کیلئے شکریہ ادا کرتے ہیں جبکہ بورڈ آڈٹ ائر کیٹریز کے ان کی رہنمائی اور حبيب میڑو کے اساف کے ان کی اتحاد محنت اور لگن کے بھی ملکوں ہیں جس سے ہمیں مضبوط سے مضبوط تر بننے کی صلاحیت فراہم کی ہے۔

منجانب بورڈ

محمد علی آر جیب

صدر و چیف ایگزیکٹو فائسر

گرافی: 19 فروری 2025ء

بھیت ریڈ اور نیک، پابندی کی حامل ریاز بیشتر کی روک تھام کو بھی بانے کیلئے کہاں پہنچ سی پونٹ کی جانب سے اسکرین شدہ اور پہلے سے مظہور شدہ ہوتی ہیں۔ بینک نے ریڈ بیڈ می لائف رنگ سے مختلف خطرات کے تدارک کیلئے اضافی اقدامات کیے ہیں، اس میں تمام ریڈ ریاز بیشتر کی باقاعدہ نگرانی انجام دینا اور تجارتی صارفین کی ریڈ کے والی اسی اسکرپٹ پرو فائل کو اپڈیٹ کرنا، کاؤنٹر پارٹیز اور سامان، مسلسل، بینک وغیرہ کی اسکرینگ شامل ہے۔ بینک ریڈ ریاز بیشتر کے ساتھ ملک ایم ایل ایف خطرات کے تدارک کے لیے ایک معروف بینک ان لوگی پر محض طریقہ کارہا بھی حاصل ہے۔ اسکرینگ کے علاقہ سُم وہرے استعمال کی اشیا کی شاخت کرتا ہے اور موجودہ کنٹرول کو زیرِ حکم کرنے کے لیے دسمبوک بڑیک کرتا ہے۔

علاوہ ازیں ایک وقت کردہ ہی ایف الیک بھی مخفی کی گئی ہے جو بینک کے اندر فی ایف کے خطرات کو کم کرنے پر خصوصی توجہ دیتی ہے۔ یا اسی قراردادوں پر عملدرآمد کے حصہ میں اور بینک کی سرو مرکزیہ افراد اور اداروں تک محدود رکھنے کے حصہ میں وقاوف قاتا سُم کے تمام افعال اور نگرانی کے نظام کو نیٹ اور اپ گرید کیا جاتا ہے۔

ایم ایل ایف اپی ایف خطرات اور ان کے تدارک پر اضافہ کی تربیت پر سال بھر خصوصی توجہ مرکوز رکھی گئی مختلف زبانوں کے ای رنگ ماڈیل اضافہ کی جانب سے عمل کیے گئے اور مختلف فیس تو فیس سیشن بھی منعقد کیے گئے تاکہ میران تازہ ترین خطرات، مذکالت اور اس شبجے میں ہوئے، والی پیشافت سے آگاہ رہیں۔

آپ کا بینک الیور ایک فارن فاٹل انسٹی ٹوشن (ایف ایف آئی) شرکت کا حامل ہے اور فارن اکاؤنٹس بینک کیلائے ایک (FATCA) کی، اس امر کا تعین کرنے کیلئے کہ مکمل کاکاؤنٹس امر کی بینک رپورٹنگ ذمہ دار ہوں کا حامل ہے یا نہیں، ان سے اضافی معلومات اور مستاویات کے حصول کے ذریعے پوری طرح قابل کرتا ہے۔ FATCA ایک امر کی قانون ہے جس کا مقصد امر کی شہریوں اور بینکوں کی عدم ادائیگی کی وجہ سے روک تھام ہے اور جو کم جولائی 2014ء سے تاذہ ہو چکا ہے FATCA قانون کی قابل کرتا ہے۔

کامن رپورٹنگ اسٹینڈرڈ (CRS) ایک عالمی معیار ہے جو اقتصادی تعاون و ترقی کی تنظیم (اوائی سی ڈی) کو نسل سے مظہور شدہ ہے اور حکومت پاکستان ملکی قوانین کے قوام سے اکٹ بینک آرڈیننس ہجرہ 2001ء کے 166(1) کی روشنی میں اس کی تعریف کرتی ہے۔ بینک CRS قوانین پر عمل چراہے اور اس مقصد کیلئے بینک کے کھاتوں کی جاتی ہے تاکہ ان کی بینک ریڈیٹی کے بارے میں فیدرل بورڈ آف ریونکو ہر پورٹ دی جائے۔

حقیقی اور انتیازی کوششوں پر خصوصی توجہ کے ساتھ کپلا انسٹکشن اپی اضافہ کی پیشہ و رانہ بہتری و ترقی اور معمولات کی انجام دہی کو محکم بانے کے ذریعے خود کو ہوش بناتا رہے گا۔

کنٹرولر

ادارے میں عمومی کنٹرول کلپر خصوصاً رک کے نقطہ نظر سے نافذ کرنے میں رک سمجھت فناشن گی ہر ممکن کوشش شامل ہے۔ مزید رہاں انٹرل کنٹرول (ICU) بینک کی رک سمجھت نہیں کا حصہ ہے، موثر آپ بیشتر، قانونی تقاضوں کی قابل اعتماد مالیاتی رپورٹنگ کو بھی بانے کیلئے آپریشنل انٹرل کنٹرول کے ایک موثر سُم کے قیام اور عملدرآمد کا ذمہ دار ہے۔ یہ کوششیں کپلا انسٹکشن اپیٹیشن، قانونی ضروریات کی قابل اور فاٹل رپورٹنگ میں عمومی طور پر اضافی کنٹرول میں مہارت کا حصہ ہیں۔ بینک کے عمومی مقاصد کے حصول میں ناکامی کے خطرات کی شاخت اور ان کو کم کرنے کیلئے سمجھت کی طرف سے موزوں سُم، پر اس اور کنٹرول رانگ کے گئے ہیں۔

بینک کا قلبی ڈھانچہ اور احصاری کے مراحل واضح ہیں اور بینک میں نافذ تمام پر اس بورڈ سے مظہور شدہ پالیسیوں اور طریقہ ہائے کار کے تابع ہیں۔ موجودہ پالیسیوں اور طریقہ ہائے کار کا مستقل بنیادوں پر جائزہ لیا جاتا ہے اور حسب ضرورت وقاوف قانون میں بہتری لائی جاتی ہے۔ بورڈ نے عمومی رک سمجھت فرمیم ورک کی نظر غافل کیلئے ذمیں کیمیاں تکمیل دی ہیں جو موزوں گورنر کو بھی بانے کیلئے باقاعدگی سے ملتی ہیں۔

ہر پر دس اور فناشن میں موجود کنٹرول کے وہ تمام پہلو جو پالیسیوں اور طریقہ ہائے کار کے تابع ہیں، بینک کے آپریٹنگ نظام میں موجود ہیں، اور ان کنٹرول کی قابل اور موثر ہونے کی تصدیق غیر جائزہ ایجاد کرتا ہے جو بورڈ آٹھ کمیٹی کو بلا واسطہ طور پر جواب دہے۔

اسٹیٹ بینک آف پاکستان کی انٹرل کنٹرول رہنماء ملیات بینک کی اختیاری سے انٹرل کنٹرول کے موثر ہونے کی جانچ پر اس کا تقدیر کرتی ہے۔ سمجھت کو بھیں ہے کہ بینک کا موجودہ انٹرل کنٹرول کا نظام مناسب اندرا میں ذمیں کیا گیا ہے اور اس پر موثر اندرا میں عملدرآمد اور نگرانی کی جاتی ہے۔

بینک کے مقابل ڈیجیٹری چیل کے بڑھتے ہوئے استعمال کے ساتھ ایف آر ایم یونٹ ڈیجیٹل بینکنگ ٹرانزیکشن کی گمراہی، عمومی ٹرانزیکشن کے برکس سرگرمی اور رہنمائی فراہم کے خطرات کی شاختت کے لئے 24/7 کام کرتا ہے۔ بینک صنعت کے بہترین انعام کو رانج کرنے اور امنیت کے پارائز کے تعاون کے ذریعے اپنے کشمکش کو کسی دھوکہ دہی کی سرگرمی سے بچنے کی بھروسہ کرتا ہے۔

برنس کنھیوٹی رسک

بینک مستقل طور پر ایک موثر کار و باری تسلیم کے فریم ورک کے ذریعے اپنے آپریشن اور کار کر گئی کو بہتر بنانے پر کام کرتا ہے کام صورتحال کا سامنا کرنے کے لئے یہ فریم ورک رسک اور اس کے اثرات کے جام جائزہ کی بیناد پر تیار کرو دیا جائیں اور پلان پیشوں غصل کروار، ذمہ داریاں اور ایکشن پلان پر مشتمل ہے۔ یہ ریگولیٹری فریم ورک اور صنعت کی بہترین پریشانی پر عمل کرتا ہے اور باقاعدہ جائزہ اور آؤٹس سے مشروط ہے۔ محدود آمد کے نقطہ نظر سے ایک کراس اس میجنٹ یہ سیکریٹی ناقابلی کی جانب سے تکمیل دی گئی ہے جو کسی بھی خطرناک صورتحال درپیش آنے پر معاملات کی گمراہی اور فحیلہ کرتی ہے۔

کسی ہنگامی صورتحال کے چیزوں نظر بینک نے اساف کے لئے ملی بی بی نی سائنس کی تکمیل اور گھر بیٹھنے کا کام کرنے کی ہدایت دی ہے۔ اسی صورتحال میں اساف کی تیاری کو بینک آگاہی اور جانچ پرستی کو شمول کے ذریعے لیتھی ہیا گیا ہے۔ یہ تمام تروشیں اس مقصد کے لئے کی گئی ہیں کہ ادارے میں آپریشن کا تسلیم اور خدمات کی بالقطع فراہمی ترجیحی بیناد پر ہو۔

انفارمیشن سیکورٹی رسک

انفارمیشن سیکورٹی ڈیپارٹمنٹ (آئی ایم ڈی) بینک کے رسک میجنٹ ڈویژن کا ایک حصہ ہے اور بینک کے انفارمیشن سیٹم کے دفاع کی دوسری صفحہ کے طور پر کار فرماء رہتا ہے۔ ہمارے صارفین کو سروہمی فرائیمی میں بینکنا لوگی کے بڑھتے ہوئے استعمال کے ساتھ انفارمیشن سیکورٹی ڈیپارٹمنٹ کا مقدمہ صارف کی مالیاتی وسائلی معلومات اور اس کی سالمیت کے تحفظ کو تینی بناتے ہوئے انفارمیشن سیکورٹی رسک کو کام کرتا ہے۔ بینک کے خطرات کی حدود میں رہتے ہوئے انفارمیشن اور بینکنا لوگی کے خطرات پر قابو پانے کے حقیقی بہاف کے پیش نظر انفارمیشن سیکورٹی فرائیمی مختلف مخفف سرگرمیوں میں خطرات کی جانچ، جائزہ، تشخیص و مانیزگ انجام دیتا ہے۔ یہ انفارمیشن سیکورٹی کے خطرات اور ان کے تدارک کو بھجتے اور آگاہی کی طرح کو بڑھانے کیلئے بھی سرگرم ہے۔

کمپلائنس

آپ کے بینک نے سال کے دوران اپنے نیت ورک پر کمل گمراہی کو محکم رکھا جس میں شامل اپنے صارفین کو پیچائے (کے وائی ای / ایٹھی منی لانڈرگ) (اے ایم ایل) / دہشت گردی کیلئے سرمایہ ایف فی / کوہنگک پر واپریشن فانگ (سی بی ایف) اور ریگولیٹری کمپلائنس کی آگاہی شامل ہے۔ کمپلائنس ایٹھی نے کمپلائنس اور ریگولیٹری امور پر اعتمادی اور اساف اور مشاورت فراہم کی۔ تمام خلیلیں اور طریقہ بائے کار، اقدامات، پروڈکٹس، سروہمی کار و باری طریقہ بائے کار و غیرہ کا کمپلائنس اے ایم ایل / ای ایف فی / اسی پی ایف کے ظریعے سے جائزہ اور ریگولیٹری حکام کے ساتھ تعلقات کا رقم کرخانا اس یونٹ کے فرائض میں شامل ہے۔ ایک خود کار کمپلائنس رسک میجنٹ (سی آر ایم) سسٹم بھی شامل ہے جس میں ایک ریگولیٹری اسکریپٹ دی گئی ہے جس میں ایٹھی بینک آف پاکستان اور دیگر متعلقہ ریگولیٹری حکام کی جانب سے جاری کردہ سرکلر شامل ہیں۔ اس کے علاوہ ایٹھی بینک آف پاکستان اور اس کی آن ساخت اسکیلیشن ٹیموں کے ساتھ ہوول کاری اور وابا اس یونٹ کے ذریعے کلیدی کردار ادا کرتے ہیں اور ایٹھی بینک آف پاکستان اسکیلیشن کے سائل طریقہ کار کو لیتھی ہاتھے ہیں۔ قانون نافذ کرنے والے اداروں (LEAs) سے انکار اور بھی کمپلائنس نافذ کے ذریعے توجہ دی جاتی ہے۔

اجنبی ٹیلینج اور متعدد عالمی اے ایم ایل / ای ایف فی اور ایٹھی منی ایٹھی لانڈرگ کے ساتھ بینک کا فناش کرائیں کمپلائنس نافذ کے اعلیٰ ترین معیار کے نظاذ اور ان اسٹینڈرڈ کو اعتمادیہ اور ملازمین کیلئے لیتھی ہاتھے کیلئے پر عزم ہے۔ بینک ایک AML/CFT/CP اتصور کے ساتھ اپنے ڈی ایاروں کی گمراہی بھی جاری رکھتا ہے۔

بینک کا جدید ترین ٹرانزیکشن مانیزگ سسٹم (آئی ایم ایس) منی لانڈرگ کی ان سرگرمیوں کی مانیزگ میں مدد دیتا ہے جن کا تعقیل بینک جنکنگ، پروڈکٹس اور خدمات کے ذریعے منی لانڈرگ (اے ایم ایل) اور دھنگردی کے لئے سرمایہ (اے ایف) سے ہو سکتا ہے۔ آئی ایم ایس غیر معمولی مشکلیوں کی گمراہی اور اس میں موجود شیرز و عشقی اے ایم ایل / ای ایف فی صورت حال کے ذریعے بینک کے سسٹم میں ٹرانزیکشنز کی مخفف سرگرمیوں کا جائزہ دیتا ہے۔ بینک نے اور میکل کی سرپریتی کے حامل معروف تحریڑ پارٹی اے ایم ایس ساف ویس جو "فناش کرائیں ایٹھی کمپلائنس میجنٹ" کے نام سے معرف ہے، حاصل کیا اور سیاس وقت لاگو کرنے کے مرحلے میں ہے۔ مزید برآں بینک نے ایک فناش کمپریوٹر پیس (سی ڈی ڈی) پوس کا بھی حاصل ہے جو بینک کو صارف کے ہر ایک دستاویز / ہر ایک پروفائل کو اپ زدیت کرنے کی صلاحیت فراہم کرتا ہے اور قانونی خواہاب کے مطابق جائزی ڈی ڈی کا اہتمام کرتا ہے۔ بینک باقاعدگی سے مشتبہ مشکلیوں کی روپوں (ایم ای آر) اور کرنی کی منتقلی کی روپوں (سی ای آر) کرنی ٹرانزیکشن روپوٹ گواے ایم ایل (goAML) پورل کے ذریعہ فناش یونٹ (اے ایم ایو) کو ارسال کرتا ہے۔

کریٹ رسک

جیب میزو پروڈاکٹ، جغرافی، صنعت اور صارفین کی مختلف اقسام کے ذریعے کریٹ رسک کو کنٹرول کرنے کی حکمت عملی پر کار بند ہے۔ جیک، ایک بڑا حصہ محضہ مدالتی اور سیلف لکیوڈینگ میں رکھتے ہوئے، تجارت اور رنگ کپیل فناںگ کو تو سبق دے رہا ہے۔ جیک کے کریٹ پورٹ فولیو کا ایک بڑا حصہ KIBOR کو بطور ایک حوالہ استعمال کرتے ہوئے فناںگ ریٹ کی بنیاد پر ترقی شدہ ہے جو شرح سود کے خطرات کو کم کرتا ہے۔ کریٹ کی توسعہ میں شامل خطرات کا امکان کریٹ گرافٹ کرتے کے مضبوط طریقہ ہے کار کے ذریعے مزید کام ہو جاتا ہے جو مناسب جائی پر تال، مناسب سکیورٹی اور جاری بنیادوں پر ایکسپریوزر کی مانیٹرینگ کو قیمتی بنانے کیلئے تخلیل دیا گیا ہے۔ ان تمام اقدامات میں مرکزی ترین پورٹ فناںگ اور کریٹ ایئر فٹریشن کے ذریعے مزید اضافہ ہوتا ہے۔

جیب میزو نے IFRS-9 اسٹینڈرڈ روزگار کو کیے ہیں۔ IAS-39 اسٹریٹریٹ: پچھان اور پیائش، کی موجودہ رہنمایاں سے تبدیل کیا گیا ہے۔ اس میں مالیاتی اسٹریٹریٹ کی وجہ بندی اور پیائش، مالیاتی اتفاقیات پر تجذیب کی خاری کیلئے ایک نیا موقع کریٹ خارے کا مادل اور جی سوئی کا وہ مانیٹر فناںگ کی شرافت پر نظر ٹھانی شدہ رکو اسٹریٹریٹ شامل ہیں۔

مارکیٹ/لکیوڈینی رسک

خصوصی طور پر تخلیل دیئے گئے مارکیٹ لکیوڈینی رسک یونٹ کا کروار ایک مطلوب طریقے سے شرح سود، ایکوئی، کرفی یا غیر ملکی زر مبادر کی صورت میں مالیاتی خطرات کے اثرات اور ان کی حدود سے متعلق معاملات کی شناخت، جائی گہرائی اور پورٹ دینا ہے۔ ان تمام خطرات کی مانیٹرینگ کو بورو کی مظہر شدہ مارکیٹ و لکیوڈینی رسک میجنٹ پالیسی کے مطابق قیمتی بنانا چاہتا ہے۔ اتفاقیات اور مالیاتی انتظامی کمیٹی پا کاغذہ ایک طے شدہ مدت کے دوران انتظامی کارروباری ماحول کا جائزہ لیتی ہے اور فاران ایکجی، جنی مارکیٹ اور ایکوئی کسلے حدود کے ساتھ ایکسپریوزر کی سطح پر تجاوزات چیز کرنی ہے۔ یہ حکمت عملی رسک، لکیوڈینی اور منافع جات میں افزان سے متعلق ہوتی ہے۔ مزید آس بورو کی مظہر شدہ اتویٹریٹ پالیسی و مکر پہلوؤں کے ساتھ اتفاقیات مختص کرنے اور آپرینگ گائیڈ لائنس پر توجہ پر زور دیتی ہے۔

اٹریٹس میٹنگ

جیک موثر طور پر اٹریٹس میٹنگ کے طریقے کو پورے ادارے میں رسک کی موجودگی اور پورٹ فولیو کی قدر کی قیمت میں تبدیلی کا جائزہ لینے کیلئے اس وقت استعمال کئے جاتے ہیں جب مختلف لوگوں کے خطرات ظاہر ہوتے ہیں۔ شرح سود، کریٹ، ایکوئی پر اس، شرح مبادر اور لکیوڈینی وہ عنصر ہیں جو اٹریٹس میٹنگ کے ماذر میں استعمال ہوتے ہیں۔ جیک کا اٹریٹس میٹنگ کا طریقہ ہے کار اٹیٹیٹ جیک آف پاکستان کی رہنمایاں پر علمدار مددگاری قیمتی بنانا ہے۔

کپیل میجنٹ

جیک نے بازل ریگلیزمنٹ کی جو ہیں کے مطابق ریگلیزمنٹ کی جانب سے وقاوی مقام جاری کردہ مبادریات اور مقرر کردہ حد سے زائد کپیل ایکوئی رکھا ہے۔ جیک کے پاس بورو سے مظہر شدہ اتفاقیات کپیل ایکوئی اسیستنٹ پر بس اور رسک اسٹریٹ اسٹریٹ اسٹریٹ بھی موجود ہے۔ اتفاقیات کپیل ایکوئی اسیستنٹ کا پر بس (آئی اے اے پی) انجمنی اٹھ ہے اور سالانہ بنیاد پر اس کا جائزہ اپ ڈیٹ کیا جاتا ہے۔

آپریٹریٹ رسک

جیک کی سرگرمیوں کے تمام تر پہلوؤں میں آپریٹریٹ میں موجود خطرات موجود ہوتے ہیں جو جیک کو مالیاتی اور ایس کی ساکھ سے متعلق بڑے تھنھات سے دوچار کر سکتے ہیں۔ موقع پذیر ہوتے ہے پہلے خطرات کی شناخت اور ان کے تداک کیلئے اکٹھنے والی اسٹھان کا اسٹھان کمیٹی میٹنگ جیک کی ترجیح رہی ہے۔ جیک میں ایک مخصوص آپریٹریٹ رسک میجنٹ (او آر ایم) یونٹ موجود ہے جو ادارے میں آپریٹریٹ رسک فریم ورک تخلیل دیتا اور لگو کرتا ہے۔ او آر ایم یونٹ اس سطھ میں صروف عمل ہے اور باقاعدگی کے ساتھ جیک کے کارروباری پورٹ یونٹ کے ساتھ مہلک آپریٹریٹ خطرات، نافذ اعلیٰ اتفاقیات اور تداک اور موقع خطرات کے جائزے اور قیمیں کیلئے رابطے میں رہتا ہے۔ اس کے نتیجے میں کمزول انفر اسٹریٹ پکج کا معیار بلڈ اور تمام تر اتفاقیات معلومات کو اسٹھان فراہم ہوتا ہے۔

جیک آپریٹریٹ رسک کو ترجیح پڑھانے اور اسے دیگر خطرات کی وجہ بندی (مارکیٹ، کریٹ رسک کمپانیز اور قانونی خطرات) کے ساتھ ایک جام اپریٹریٹ کے تحت مر بوطہ بانے کے لئے پہلے فرم ہے تاکہ کام کا شاندار ماحول پہلوؤں خطرات سے منع کے لئے ایک مطلوب صورتحال کو برقرار رکھا جاسکے۔ جیک کے آپریٹریٹ رسک میجنٹ انفر اسٹریٹ پکج کو مزید تخلیل کرنے کیلئے علیحدہ آپریٹریٹ رسک اینڈ کنٹرول کمیٹی (او آر ایم) تخلیل دی گئی ہے۔

فراؤور رسک

جیک فراڈ اور بے ضابطی کے واقعات کم کرنے کے ضمن میں بھر پور تجدی دینے اور خاتمے کیلئے کوشش کرتا ہے۔ روک تھام، جائی پر تال، تحقیقات اور پورٹنگ کا عمل مضمون ہاتا ہے کی فرض سے ایک فعال پالیسی تیار کی گئی ہے۔ جیک ایک علیحدہ فراڈ رسک میجنٹ یونٹ کا حال ہے جو کہ بورو رسک اور کمپانیز کمیٹی (BR&CC) کی گہرائی اور تعادن سے جیک کے فراڈ رسک کے موثر انظام کو قیمتی بناتا ہے۔

گلوبل ڈائی ورٹی، ایکو ہائی ایڈنڈ انکلودن ٹیکن مارک ایوارڈز کی جانب سے ڈی ای آئی اسٹر کپر اور اپلی میڈیا (پرو گریسو) کیونی،

حکومت کے ساتھ تعاون کا اور سماجی خدمات (بہترین طریقہ کار)۔

افرادی وسائل

حبیب میٹرو مستقل طور پر ملازمین کی شمولیت، ان کی خالص و بہبود، لرنگ اور ترقی اور ڈائی ورٹی، ایکو ہائی اور انکلودن (ڈی ای آئی) یعنی تنوع، مساوات اور شمولیت کو ترجیح دینے کے ذریعے اپنی افرادی قوت کی گرو تھا اور ترقی کیلئے مستقل کوشش رہا ہے۔ موثر ٹینڈٹ کے انتظام کے ذریعے ادارے نے ایک جدید اور موثر ترین کام کے ما حول کو فروغ دیا ہے۔

حیب میزرو کی ترازو بیکشن بینکاری میں شائد رکامیا ہوں کے لئے کاوشیں گزشتہ 2 مستقل سالوں کے دوران محدود اہم عزماً ات کے ساتھ حلیم ہی گئیں۔

اس کے علاوہ ”بیرونی“، کی جانب سے ایک حالیہ سروے میں شامل 13,500 افراد نے حیب میزرو کو پاکستان میں ترازو بیکشن بینکنگ خدمات کیلئے سرکردہ بینکوں میں سے ایک حلیم آپ اور محدود کمپنیز میں قابل تدریجی تکمیر حاصل کیں: بینک نے جموں طور پر تسلی پوزیشن، پروڈکٹس کیلئے دوسرا درج حاصل کرنے کے ساتھ تمام قی مخترا فیائی اسکپ کے اندر کا نئے سروں کیلئے دوسرا درج حاصل کی۔

ڈیجیٹل حصہ

2024 میں حیب میزرو نے ڈیجیٹل بینکاری اختیار کرنے اور اس میں ہرگز عمل ہونے کی ایک قابل تدریجی خاہر کی اور اس کے نتیجے میں صارفین کی ایک بڑی تعداد نے موثر طور پر ڈیجیٹل بینکنگ پیٹیٹ فارمز کا استعمال شروع کیا اور اپنی بینکاری کے روزمرہ استعمال کے ضمن میں ان جیوں کے موثر ہونے کی نشاندہی کی۔ یہ تو سعی بردار است حیب میزرو کے اس کی ڈیجیٹل خدمات کو اپ گزینہ کرنے کیلئے خصوصی توجہ کو کامیاب بنانے، استعمال کشندہ کے روایا کو واضح کرنے اور ڈیجیٹل بینکاری کی کامیابیوں کے فائدے کو فروغ دینے کی صورت میں خاہر ہوئیں۔

انہا موبائل ایپ نے سکوئری میں نمایاں حصہ اختناف کیا۔ اس پیشافت میں ڈیاٹس باخندگی، بائیو میزرو الیٹ، گولنگ۔ آف ہیز ریز اور دیگر اقدامات شامل تھے جو مسکم و مدوں کے ساتھ صارفین کو تخدیم کیلئے کیے گئے تھے۔

موبائل ایپ ترازو بیکشن بھی تاریخی حد تک بڑھ گئی اور ترازو بیکشن 20.8 میلین روپیہ کی تعداد میں 60 فیصد اضافے کی نمائندگی کرتی ہیں اور ان کا جم 855 میلین روپے پر رہا ہے 2023 کے مقابلے میں 50 فیصد اضافہ ہے۔ یادداو دثار مالیاتی مسئللوں کے ضمن میں موبائل ایپ کے استعمال اور بڑھتی ہوئی تحویلات کو واضح کرتے ہیں۔

قری لائزڈ اور آئینہ گذگان کی بڑھتی ہوئی ضروریات کو پورا کرنے کیلئے ایک نیافارن کرنی ڈیجیٹ کارڈ تعارف کر لیا گیا۔ یہ کوڑا ان افراد کو زیادہ سے زیادہ آسانی اور سہولت فراہم کرنے کیلئے تکمیل دیا گیا تھا جو ہمیں الاؤ ہمی صارفین کے ساتھ کام کرتے ہیں اور انہیں جیزی کے ساتھ کی اقسام کی کرنسیوں کی ضرورت پڑتی ہے۔

ڈیجیٹ کارڈ اور پی اولس کے استعمال میں نمایاں پیشافت دیکھی گئی اور یہ 28.8 میلین روپے تک جا چکی۔ یہ اضافہ 2023 کے مقابلے میں 22 فیصد اضافے کو ظاہر کرتا ہے اور ترازو بیکشن کیلئے ڈیجیٹ کارڈ پر بڑھتے ہوئے انحصار کی نشاندہی بھی کرتا ہے۔

اس کے علاوہ صارفین کے لئے تحدیتی سیاست۔ سروں آئی وی آر خدمات بھی دستیاب ہیں۔ ان خدمات میں موبائل ایپ بلاکنگ، کیٹریزا نوں پر مشتمل آئی وی آر اور ROBO کاں کی ہوتیں شامل ہیں۔ ان اضافی خدمات کا مقصود صارفین کو ان کے اکاؤنٹس پر زیادہ سے زیادہ کنٹرول اور ان کے استعمال کے وقت سہولت فراہم کرنا ہے۔

اے ایک فیس 613 میشیوں پر مشتمل ہے جو صارفین کو 24/7 خدمات فراہم کر رہا ہے۔ یہ تو سعی پر بڑی اس امر کو تینی بناتی ہے کہ صارفین اے ائی ایمیکٹ بآسانی رسانی حاصل کر کے کسی بھی وقت اپنی سہولت اور ضرورت کے مطابق نظر ثقہ میں نکلو گئیں۔ ہر یہ رہا اے ائی ایمیکٹ نظر ثقہ نکلوانے کی حد تک ترازو بیکشن بڑھا کر 50,000 روپے کر دی گئی ہے۔

یہ اضافی صارفین کو یہ اجازت دیتا ہے کہ زیادہ زیادہ سے زیادہ فنڈز رکھو گئیں جب بھی ان کو ضرورت پڑے اور یہاں کو بہترین مالیاتی سہولت فراہم کر رہا ہے۔

آخر میں راست ترازو بیکشن جواب آئی بی ایف میز کے 89 فیصد کے لئے اکاؤنٹ کی حالت ہیں، نے 2024 میں 592 میلین روپے سے زائد کی پر ڈیجیٹ کی۔ یہ صورتحال امن پر ہے۔

ٹرانسفرز کے لئے راست کو استعمال کرنے کی بڑھتی ہوئی تعداد کی حکایتی کرتی ہے، جو مختلف اکاؤنٹس کے درمیان فنڈز کی منتقلی کا ایک قابل تصریح میں محدود اور محدود طریقہ کارہے۔

گرین بینکنگ کے اقدامات

حیب میزرو ماحولیات، سماجی اور گورننس کے حوالے سے اپنی ذمہ داریوں کو تسلیم کرتا ہے۔ بینک گرتی ہوئی ماحولیاتی اور سماجی صورتحال کے خاتمے کے لئے جاری قومی اور عالمی اقدامات میں اپنا کردار ادا کرنے پر یقین رکھتا ہے۔ ماحولیات، سماجی اور گورننس (ESG) کے پہلو بینک کی محنت عملی یہ اپریشنل سرگزیوں کا ایک حصہ ہے۔ بینک اس سلسلے میں ریگولیٹری توقيعات اور شرائط سے خود کو ہم آہنگ رکھنے کیلئے بھی کوشش ہے اور گرین بینکنگ پالسی، ماحولیاتی اور سماجی رسک ٹیکنالوژی پر یقین رکھتے ہوئے درج ذیل صورتوں پر عمل کرنے کیلئے کوشش ہے:

• ماحولیاتی اور سماجی خطرات سے منٹنے کا اقتام

فائزنگ پورٹ فویز میں ماحولیاتی اور سماجی ایکسپوورٹ کے خاتمے اور انتظامات کے ذریعے مالیاتی احکام کو بہتر بنانے کیلئے حیب میزرو ماحولیاتی اور سماجی رسک ٹیکنالوژی (ESRM) کو محکم بنانے کے عمل سے گزر رہا ہے تاکہ کریڈٹ رسک کی جانچ پر ہتھ کے عمل کے تحت ESRM کے طریقہ کار پر ملکہ آئندہ موثر طور پر اپنانیا جائے۔

خاص ایڈو اسز 15.1 فیصد بڑھ کر 474,301 ملین روپے ہو گئے جبکہ سرمایہ کاریاں 12.4 فیصد کم ہو کر 810,875 ملین روپے ہیں، ڈی اس 31 دسمبر 2024 کو 927,133 ملین روپے پر موجود تھے اور اس کے ساتھ کرت اکاؤنٹ 43.7 فیصد بہت گزشتہ سال کے مقابلے 6.7 فیصد بڑھ گیا۔

بینک کی خاص ایڈو اسز 3.3 فیصد بڑھ کر 115,032 ملین روپے رہی، جس کے نتیجے میں کمپنی ایڈو اسز 19.3 فیصد رہا۔

کمپنی

بینک کے مالیاتی سال اور پورٹ کی تاریخ کے درمیان بینک کی مالیاتی پوزیشن کو متاثر کرنے والی کمپنی میں کوئی تغییر نہیں ہوئی۔

اچھی کمپنی کا قیام

حبيب میر و پیچھے سرہنگ (اچھی ایڈو اسز) حبيب میر و پیش بینک لینینگ کا ایک کامل ملکیتی ذیلی ادارہ ہے جو 22 نومبر 2023 کو کپنیزا ایک، 2017 کے تحت ایک پیل ایڈو اسز کے طور پر تکمیل دیا گیا اور ہے اٹیٹیٹ بینک آف پاکستان کی جانب سے 26 مارچ 2024 کو انسٹنس جاری کروایا گیا اور اس نے 27 مئی 2024 کو اپنے آپ پیچھے کا آغاز کر دیا۔ کمپنی فارن اچھی ریکولیشنز ایک، 1947 اور اٹیٹیٹ بینک آف پاکستان کی جانب سے جاری کردہ ریکولیشنز فریم ورک برائے اچھی کمپنیز کے تحت فارن کرنی سروہنگ میں معاملت کرتی ہے جس میں مختلف خدمات اور پروڈکٹس شامل ہیں۔ اچھی ایڈو اسز کا مقصد مستقل طور پر اس شعبے میں اپنے قدم جانا اور احکام حاصل کرنا ہے تاکہ کمپنی کو پاکستان بھر میں عموم انسانوں کی جائز فارن اچھی کی ضروریات کو پورا کرتے ہوئے صارفین کو خدمات فراہم کر سکے۔

حبيب میر 100 سے زائد ممالک میں محکم بینکوں کے ساتھ تعاقدات رکھتا ہے اور متعدد دیگر بینکوں سے باقاعدہ گریٹ لائنز کا بھی حاصل ہے۔ حبيب میر و پورے ملک میں اپنے صارفین کو جامع بینکاری کی خدمات پیش کرتا ہے۔ یہ پروڈکٹس بیشوف خصوصی تجارتی مالیاتی پروڈکٹس، ان میں خصوصی فریڈیقنس پروڈکٹس شامل ہیں اس کے ساتھ پروڈکٹس اور سروہنگ میں محفوظ SMS اور ویب و موبائل بینکنگ سروہنگ، عائی اسٹ پر قابل قبول و پر اڈیٹ کارڈ اور ملک گیر 600 سے زیادہ ATM نیٹ ورک بھی اس کا حصہ ہیں۔

ٹرانزیکشن بینکنگ

حبيب میر و کی ٹرانزیکشن بینکنگ نے کامیابی کے ساتھ سال 2024 میں تقریباً 1,300 کاروباری صارفین کو خدمات فراہم کیں۔ اس سال کو حبيب میر میں ٹرانزیکشن بینکنگ کے لئے ایک اہم سٹگ میل مدت کے طور پر تسلیم کیا جاتا ہے کیونکہ اس سال ہمارے صارفین کی ضروریات کو پورا کرنے کے لئے خصوصی طور پر تکمیل دی گئی مختلف جدید پروڈکٹس متعارف کرائی گیں۔

بینک نے تغییریں حد تک اپنے کار پورٹ ٹکنیکس اور بینک میں تراہمی کیس اور بینکاری کی جدید ترین ٹرانزیکشن سولیشنز فراہم کیں جو صارف کی دھوکیاں کی ضروریات میں اضافے اور جمیعی طور پر صارف کے تجربات کو بہتر بنانے کیلئے تکمیل دی گئی تھیں۔ یہ طریقہ کار برق رفتاری کے ساتھ صارفین کیلئے مربوط اور غیر مربوط دوں طریقوں سے روزانہ دھوکیاں کی مختلف ضروریات کو پورا کرتا ہے۔

ڈائریکٹر پورٹ برائے شیئر ہولڈرز

عمریں شیئر ہولڈرز،

بوروڈ آف ڈائریکٹر کی جانب سے ہم انتہائی صرفت کے ساتھ 31 دسمبر 2024 کو ختم ہونے والے ماں سال کیلئے جیب بیٹرو پیپلز بینک لینڈ (جیب بیٹرو) کے آٹھ شدھ سالانہ مالیاتی گوشوارے پیش کر رہے ہیں۔

اقتصادی اور بینکاری کا جائزہ

ذی جائزہ مدت کے دوران پاکستان کی اقتصادی اور مالیاتی رفارمیٹری، کیفیتی اور دو طرز شراکت و اروں کی جانب سے فنڈنگ کی بجائی کی وجہ سے بجائی کے ساتھ مغلک اصلاحی پالیسی اقدامات کے ساتھ مابین الاقوامی مالیاتی فنڈ (آئی ایم ایف) کے تجویز کردہ کافیت شماری کے اقدامات پر تیزی سے عملدرآمد بھی شامل ہے۔ ملک میں سال بھر میں افریقا اور میاض کی بھی گئی جس کے نتیجے میں حال کی وسری ششماہی سے شرح سود کم ہو گیا جس سے مالیاتی کھاتوں کے انتظام میں مدد ملی۔ تاہم معاشری مجموعے کے مناسب حد تک ہونے کا تجھیہ لگایا گیا جس کی بنیادی وجہ راعت کے شعبے کی تکمیر کر کر دی ہے۔

ائیٹ بینک آف پاکستان (ایس بی پی) نے پاکستان (ایس بی پی) کے دوڑ 900 کے دوڑ کو 2024 کے دوڑ 22.0 فیصد سے کم کرتے ہوئے 2025 میں ہر یہ کم ہو گی 12.0 فیصد تک کم کرتے ہوئے ایک اہم مانیزیری میں جمٹنگ کی ہے۔ جبکہ افریقا سال 2024 میں 23.9 فیصد سے کم ہو کر رواں ماں سال کے 7 ماہ میں 6.6 فیصد رہے گیا جو، جو 2025 میں سال پر سال 2.4 فیصد تک پہنچ رہا ہے جس کے ذریعے عالمی سطح پر قیتوں میں نرمی، ایک محکم زر مبادلہ کی شرح اور سازگار بنیادی اڑات کی حالت طے شدہ تکمیل پاکستان کی جانب سے معافیت حاصل ہوئی۔

محنت کشوں کی تحریک تسلیمات زر اور برآمدی آمدی سے کار فرما، کرنٹ اکاؤنٹ نے 2024 کے گزشتہ تین مہینوں میں سرپاس ظاہر کیا جس کے نتیجے میں ماں سال 2025 کے سات ماہ میں 0.7 ملین امریکی ڈالر کا جبوجی سرپاس حاصل ہوا جبکہ گزشتہ سال کی اسی مدت میں 1.8 ملین امریکی ڈالر کا خسارہ ہوا تھا۔ ماں سال 25 کے سات ماہ کے دوران برآمدات ماں سال 24 کے سات ماہ کے مقابلے میں 7.3 فیصد تک بڑھ کر 23.9 ملین امریکی ڈالر ہو گئی جبکہ برآمدات کا 10 فیصد بڑھ کر 40.0 ملین امریکی ڈالر تھا، یہ خسارہ جزوی طور پر محنت کشوں کی تحریک تسلیمات میں 31.7 فیصد کی تباہی گزجھو سے پورا ہوتا ہے جو مالی سال 2025 کے سات ماہ میں 20.8 ملین امریکی ڈالر تک پہنچ گئی۔ ماں سال 2025 کیلئے ایٹ بینک کو قوچ ہے کہ کرنٹ اکاؤنٹ سرپاس کی درمیانی ریٹن میں اور خسارہ، جی ڈی پی کا 0.5 فیصد تک رہے گا۔

سال پر سال کے لحاظ سے 8.8 فیصد تک کی بہتری کے ساتھ بینکاری کے شعبے کا بنیادی فیاز اس دسمبر 2024 کے اختتام پر 30.3 ٹریلیون روپے پہنچنے پکنے پہنچنا، ایڈو انسس سال پر سال کی بنیاد پر 29.6 فیصد تک بڑھ کر 16.0 ٹریلیون روپے پر موجود تھا۔ اس مدت کے دوران سرمایہ کاریاں بھی سال پر سال کے لحاظ سے 15.2 فیصد تک بڑھ کر 29.1 ٹریلیون روپے ریکارڈ کی گئیں۔

ماں سال 2024 میں حاصل کی اقتصادی بجائی میں جی ڈی پی کی شرح نو 2.5 فیصد تک جو اس کے برخلاف ماں سال 2023 میں 0.2 فیصد تھی، اور اس طرح ماں سال 2025 کی پہلی سماں میں 0.9 فیصد کی ثابت محدود قرار رہی ہے۔ تاہم، ترقی گزشتہ سال ریکارڈ کی 2.3 فیصد کے مقابلے میں ست ہوئی، جو کیدری شعبوں، خاص طور پر زراعت میں اعتماد کی عکسی کرتی ہے۔ زراعت میں سست ترقی بنیادی طور پر گزشتہ سال کے فضلوں کے شعبے میں بلند تر بنیادی اڑات اور کپاس، چاول، گندم اور کنکی کی فصل کی پیداوار میں کی کی وجہ سے ہے۔ تاہم، پیکن سال پیکن، ہوں سال، خورہ تجارت بذریعہ تیز ہو رہی ہے اور دیگر محققہ شعبوں پر ثابت اڑات ترتیب ہو رہے ہیں۔

یہ پیش رفت مرکزی بینک کی بینکاری اکنامی صورتحال کو محکم بنانے کی موثر حکمت عملی اور پائیدار جمکو کے لیے مناسب ماحول فراہم کرنے کی عکس ہے۔ شرح سود میں تباہی کی سے نہ صرف کاروباروں اور صارفین کے لیے چھوٹے قرضے اس ان ہوئے بلکہ سرمایہ کاری اور کھپت کی سرگرمیوں کی بھی حصہ افزائی ہوئی۔ تاہم، اگرچہ مانیزیری اشارے ثابت ظاہر رہتے ہیں، تاہم اسکے پر بھرپور بخوبی خصوصاً زرعی شعبے کو جو گئی اقتصادی کارکردگی کے تھم آنگ بنا نے کے لیے ان سے نہنا مشکل ہو سکتا ہے اور اس امر کو تینی بنا تاہو گا کہ ان پاکستانی اقدامات کے فوائد میختش کے تمام شعبوں تک کامل طور پر پہنچیں گے۔

سال کے دوران بینک کی کار کر دی

اللہ تعالیٰ کے فضل دکرم سے جیب بیٹرو نے 31 دسمبر 2024 کو ختم ہونے والے سال کے لئے 52,660 ملین روپے کا قابل ارجمند منافع ظاہر کیا، اور سال پر سال کے لحاظ سے 1.3 فیصد کا اضافہ دیکھا گیا۔ فی شیئر آمدی 23.55 روپے فی شیئر رہی۔

بینک کی خاص منافع کی آمدی کی مایت 4,314 ملین روپے تک جبکہ غیر سودی آمدی 2,396 ملین روپے کے مقابلے میں 10,753 ملین روپے ہو گئی بیٹرو فیس اور کیمیشن کی آمدی 14.4 فیصد تک بڑھ گئی اور 2023 کے 9,396 ملین روپے کے مقابلے میں 21,287 ملین روپے ہو گئی۔

NOTICE OF ANNUAL GENERAL MEETING

Notice is hereby given that the Thirty-Third Annual General Meeting of the shareholders of Habib Metropolitan Bank Ltd. will be held at the ICAP Auditorium, Institute of Chartered Accountants of Pakistan, G-31/8, Chartered Accountants Avenue, Clifton, Karachi on Friday, March 28, 2025 at 9.00 a.m. to transact the following business:

ORDINARY BUSINESS

1. To receive, consider and adopt the Audited Accounts, standalone as well as consolidated, of the Bank for the year ended December 31, 2024 together with the Directors' and Auditors' reports thereon.

<https://www.habibmetro.com/information-center/financials/>

2. To approve, as recommended by the Board of Directors, final dividend @ 45% (Rs. 4.50 per share) in the form of cash for the year ended December 31, 2024, in addition to already paid interim dividend @ 75% (Rs. 7.50 per share) in the form of cash for the year ended December 31, 2024.
3. To appoint Auditors for the financial year ending December 31, 2025 and fix their remuneration. The present Auditors, Messrs. KPMG Taseer Hadi & Co., Chartered Accountants, being eligible, offer themselves for re-appointment.

ANY OTHER BUSINESS

4. To consider any other business with the permission of the Chair.

By Order of the Board

ATHER ALI KHAN
Company Secretary

Karachi: March 7, 2025

NOTES:

1. Online Facility for attending Annual General Meeting

The Bank has made necessary arrangements for shareholders to attend the AGM physically and virtually, therefore, those shareholders that wish to attend the AGM proceedings virtually are requested to get their particulars registered with the Company Secretary by providing the following information through email at agm@habibmetro.com and/or WhatsApp # +92-301-1177809 by 5.00 pm on March 25, 2025 (Tuesday):

S.No.	Name of the Shareholder	CNIC / Passport #	Folio / CDC #	Cell Number	Email Address

Link to electronic connectivity will only be sent to the registered shareholders. The login facility will be opened at 8.45 a.m. on March 28, 2025 enabling the shareholders to join the proceedings.

2. A shareholder entitled to attend and vote at this meeting may appoint another shareholder as his/her proxy to attend the meeting and vote for him/her. Proxy form is enclosed with the Annual Report. A proxy must be a shareholder of the Bank. In order to be effective, proxies must be received at the Registered Office of the Bank, duly stamped, signed and witnessed, not less than 48 (forty-eight) hours before the meeting.
 3. CDC account holders and sub-account holders are required to bring with them their original National Identity Card or Passport along with the participants ID numbers and their account numbers in order to facilitate identification. In case of corporate entity, the Board of Directors' resolution / power of attorney with specimen signature of the nominee is also required.
 4. Shareholders are requested to notify the change of addresses to the Share Registrar, at the below address:

CDC Share Registrar Services Limited

CDC House, 99-B, Block-B, S.M.C.H.S., Main Shahrah-e-Faisal, Karachi-74400 (Pakistan)
Tel: 0800-23275, Fax No. (92-21) 34326053, Email: info@cdcsrl.com, URL: www.cdcsrl.com

5. The share transfer book of the Bank will remain closed from March 21, 2025 to March 28, 2025 (both days inclusive).

6. Bank Account Details for Payment of Cash Dividend

In accordance with the Section 242 of the Companies Act, 2017, any cash dividend shall only be paid through electronic mode directly into the bank account designated by the entitled shareholder. Therefore, please provide the following information to the Bank's Share Registrar (in case of physical shareholders); or CDC Participant (in case of shareholding in book-entry form) along with a copy of your valid CNIC:

Details of Shareholder	
Name of Shareholder	
Folio / CDS Account No.	
CNIC No.	
Cell number of shareholder	
Landline number of shareholder, if any	
Email Address (Mandatory)	
Details of Bank Account	
Title of Bank Account	
International Bank Account Number (IBAN) "Mandatory"	PK _____ (24 digits)
Bank's Name	
Branch Name	
Branch Address	

It is stated that the above-mentioned information is correct and in case of any change therein, I / we will immediately intimate Participant / Share Registrar accordingly.

Signature of Shareholder

7. Mandatory Submission of CNIC

Pursuant to the directives of the Securities & Exchange Commission of Pakistan (SECP), shareholders having shares in physical form are requested to submit a copy of their valid CNIC (if not already provided) to the Bank's Share Registrar without any delay.

8. Deduction of Withholding Tax from Dividend

The Government of Pakistan through Finance Act, 2020 has made certain amendments in section 150 of the Income Tax Ordinance, 2001 whereby different rates prescribed for deduction of withholding tax on the amount of dividend paid by the companies. These tax rates are as under:

- (a) For filers of income tax returns: 15%
- (b) For non-filers of income tax returns: 30%

To enable the Bank to make tax deduction on the amount of cash dividend @ 15% instead of 30%, all shareholders whose names are not entered in the Active Tax-Payers List (ATL) provided on the website of Federal Board of Revenue (FBR), despite the fact that they are filers, are advised to make sure that their names are entered into ATL at the earliest possible otherwise tax on their cash dividend (as and when declared) will be deducted @ 30%.

For shareholders holding their shares jointly as per the clarification issued by the FBR withholding tax will be determined separately on 'Filer/Non-Filer' status of Principal Shareholder as well as joint-holder(s) based on their shareholding proportions. Therefore, all shareholders who hold shares jointly are required to provide shareholding proportions of Principal Shareholder and Joint-holder(s) in respect of shares held by them follows:

Folio / CDC Account No.	Total Shares	Principal Shareholder		Joint Shareholder(s)	
		Name and CNIC No.	Shareholding Proportion (No. of Shares)	Name and CNIC No.	Shareholding Proportion (No. of Shares)

In case of non-receipt of above information, the shareholding will be divided among the joint-holders equally.

9. Unclaimed Shares and Dividends

As per the provisions of Section 244 of the Companies Act, 2017, any shares issued or dividends declared by the Bank, which remain unclaimed or unpaid for a period of three years from the date they became due and payable shall vest with the Federal Government after compliance of procedures prescribed under the Act. In compliance of the above, the Bank has already sent individual letters to the concerned shareholders requesting them to claim their outstanding cash dividends and/or bonus shares. In this respect and for facilitation of the shareholders, the details of unclaimed shares and dividends can also be accessed from the Bank's website.

Therefore, in view of the above, those shareholders who have not yet collected their pending entitlements are once again advised to lodge their claims with the Bank's Share Registrar at the address given above.

10. Availability of Annual Audited Accounts on Website

The audited accounts of the Bank for the year ended December 31, 2024 have been made available on the Company's website www.habibmetro.com. Additionally, the annual and quarterly accounts for the prior years and periods are also available.

Further, in accordance with SRO # 389(I)/2023 dated March 21, 2023, the shareholders of Habib Metropolitan Bank Limited in its AGM held on March 30, 2023 had accorded their consent for transmission of annual reports including annual audited accounts and other information contained therein of the Bank through QR enabled code and weblink instead of transmitting the same through CD/DVD/USB. Audited financial statements shall also be provided to those shareholders, who have provided their valid email IDs to our Share Registrar. The shareholders who wish to receive hard copies of the aforesaid documents may send the standard request form available on the Bank's website to the Company Secretary / Share Registrar, and the Bank will provide the aforesaid documents to the shareholders on demand, free of cost, within one week of such demand.

11. Video Conference Facility

In terms of the Companies Act, 2017, shareholders residing in a city other than Karachi holding at least 10% of the total paid up share capital may demand the facility of video-link for participating in the annual general meeting. The request for video-link facility shall be received by the Share Registrar at the address given hereinabove at least 7 days prior to the date of the meeting on the standard form available on the Bank's website.

12. Conversion of Physical Shares into Book-entry Form

As per Section 72 of the Companies Act, 2017, every existing company shall be required to replace its physical shares with book entry form in a manner as may be specified and from the date notified by the Commission, within a period not exceeding four years from the commencement of this Act. In this respect, the Securities & Exchange Commission of Pakistan (SECP) vide its Letter No. CSD/ED/Misc/2016-639-640, dated March 26, 2021 has advised all listed companies to pursue such shareholders still holding shares in physical form, requiring conversion of their shares into book-entry form.

Accordingly, the shareholders having physical shareholding are once again advised to open CDC sub-account with any of the CDC Participants to place their physical shares into book-entry form at their earliest. This will facilitate them in number of ways including safe custody and easy sale of shares at the time of need, as the trading of physical shares is not permitted under existing regulations of the Pakistan Stock Exchange Limited.

Signature of Member(s)

A member entitled to attend General Meeting is entitled to appoint a person as his / her proxy to attend and vote instead of him / her. A proxy should be a member of the Bank. No person shall act as proxy (except for a corporation) unless he / she is entitled to be present and vote in his / her own right.

CDC account holder or sub-account holder appointing a proxy should furnish attested copies of his / her own as well as the proxy's CNIC / Passport with the proxy form. In case of corporate entity, the Board of Directors' resolution / power of attorney with specimen signature shall be submitted along with proxy form.

The instrument appointing a proxy should be signed by the member or by his / her attorney duly authorized in writing. If the member is a corporation, its common seal (if any) should be affixed to the instrument.

The proxies, in order to be valid, must be deposited at the Registered Office of the Bank not less than 48 hours before the time of meeting.
